

Watchmaker.

Thinking my friends and customers for their support in Haliburton, I beg leave to state that I have been requested to go to Minden for the purpose of repairing Watches, Clocks and Sewing Machines. Will leave about the 7th of April, and will stay there till further notice.

NOTICE—I have decided to remain in Haliburton instead of going to Minden as above.

J. C. DEWING, Haliburton.

NEW STORE

D.A. McDonald

2 NEW GROCERY STORES

One at Middleton's old stand and one opposite the Market.

He has everything choice, fresh and good, and would respectfully ask an inspection from the people of Lindsay and vicinity. His prices will be found right and goods the best procurable.

The Victoria Warder

FRIDAY, MAY 30, 1884.

Local Breveets.

Town council on Monday evening. Funerary notices made daily at Hickey's. Turpentine, all kinds the cheapest in town at A. Higginbotham's—19-3. Go to Hickey's for fine cakes and pastries. Fresh ground hellebore at Higginbotham's drug store.—18-4. A great supply of oranges, lemons, dates, nuts, etc., at Hickey's. Chemically pure Paris green at Higginbotham's drug store.—18-4. Carpets, dress oil cloths and linens, we are closing out a choice selection. R. Smyth. The Bowmanville News says that an individual having fled from Lindsay, paraded the streets with the Salvation Army, on Sunday last, with the inscription "Will Sell." in large letters across his back. He carried an small amount of amusement for the boys. Soap must be a luxury in that town.

Holders of third class teachers' certificates who desire a renewal or extension of such certificates, are required to present themselves at the non-professional examination for third class on July 7th, 1884, at the county town, otherwise the holder will have no extension unless under special circumstances, and valid till a new certificate is issued.

There is an invention spoken of which it is thought may abolish the bit. It is called the carriage, or anti-horse torture. It is composed of a steel bar placed over the front bone of the horse's nose, and to this appliance the reins are attached. The inventor claims for this substitute for the bit that it gives complete control to the driver over the horse without inflicting the least discomfort or irritation on the animal. It has been tried with satisfactory results.

A writer in the Canadian Sportsman says he heard the other day of a farmer up the country who took a hay fork swindler by the throat when he came to make his collection and compelled the fellow to sign a discharge receipt in full. A few more of the scoundrels were arrested the same way, the tribe would stand a chance of becoming extinct, and the vasoplastic agriculturalist would be saved from a great plague.

A correspondent in a city exchange agrees strongly in favor of black walnut forest culture. He says that for rapidity of growth, shelter and intrinsic value, the tree cannot be surpassed. Their average growth is three-fourths of an inch a year. Now that attention is so generally directed to the necessity of tree-planting, the ultimate value of the trees so planted ought to be considered in selecting them. Walnut is one of the species enumerated under the terms of the Ontario tree planting act for which a bonus is given.

The court of revision on Tuesday in the council chamber. In the majority of cases the assessments were confirmed, in a few they were slightly reduced. The case of the telegraph and telephone companies against their total assessment resulted in a slight reduction, so also was the Midland Railway assessment. In each of these cases however there will be a second appeal and it is probable a change will yet be made in the Midland Railway assessment at all events.

The case of the telegraph and telephone companies is now a question of law as to whether their property in Canada can legally be assessed at all.

Local Breveets.

The freshest and best turpentine to be got in Lindsay at A. Higginbotham's—19-3. Ready made and colored clothing we can astonish you in this department. R. Smyth.

A few more recruits wanted for No 3 company, Lindsay. Apply to J. W. Wallace, (recruiting office) captain.

A curlew of rare value, found to be obtained elsewhere to arrive this week at A. Campbell's. A inspection collected.

We have to thank Mr. J. Foley for a splendid haul left on our table Wednesday evening and caught in the Sauge. Few are as able with the fishing rod and line as Mr. Foley.

Among the loudest complainers of hard times are the mechanics who do the advertising. Serve them right is the opinion of the wise old editor who knows all about these things.

Miss Ellen Chase says there will be three women to one man in heaven. A western editor says he knows who the man is likely to be, but for the life of him can't place the three women.

There is to be a grand picnic at Robey's on Tuesday, June 3rd, under the auspices of St. Joseph's church. The steamer Eva will take an excursion from Lindsay, and so doubt it will be well patronized.

Alexander Ritchie is again in goal in Peterboro. He was taken from the court on Thursday, by Constable Scott, and lodged in goal to await his trial on a charge of threatening violence, having been committed by Mr. M. Mansfield, reeve of Galway.

A new volunteer company is to be organized in Lindsay, or rather the old Kendall company is to be revived and Lindsay made its headquarters by Capt. Wallace. Here is a chance for many of our young men to distinguish themselves on the "field of glory."

That's right, pitch in, scrub paint, clean and shine up your new car. Leave the doors and windows open and stand right straight in the draft. It's your own affair to take cold and die if you like. But would it be just the thing to have a funeral before the carpets are down?

A deputation from Cannington was in Lindsay Wednesday inspecting the land engine with a view of purchasing it. Since Mr. Sylvester took hold of it the pump works splendidly and a good stream can be thrown. What the decision of the Cannington people was we did not learn.

A committee of the Belleville Methodist conference met in the Methodist book store on Tuesday. It was decided to stop the publication of the Bowmanville Observer and the Hamilton Christian Advocate on July 1st. The Christian Guardian will be supplied to subscribers of these journals.

It is a matter of common observation that whenever any tree grows in an isolated position in an open field it will form a very short trunk and a large spreading top, and that while trees grown for their fruit yield the best returns when of this character, quite the reverse is true when the object is the production of timber.

The Oddfellows have decided to hold an international demonstration at Brockville on July 9th, 10th, and 11th, which gives promise of being the greatest gathering of the kind ever held in Eastern Ontario. The executive committee—at an expense of over \$3,000—are perfecting an elaborate programme for the entertainment of Oddfellows and other guests. By prospects we believe the affair will be a splendid success.

A contemporary says:—"It is over fifty years since observing orchardists have noticed that American apple trees bear their heaviest crops in the even years, as 1880 and '82, and their lightest crops in the odd years, as in 1879, '81 and '83, and so on. Last year the crop was light, and consequently we may look for an abundant crop the coming season."

The provincial secretary has again issued a circular to clerks to take proceedings against parties who fail to register with him the births, deaths and marriages of their relatives within the specified time. The time allowed is as follows: For deaths, immediately; for births, 30 days, and for marriages three months. If convicted of neglect in this matter a magistrate may impose a fine of \$20 and costs.

An advertisement in a country exchange calls for a "first-class female teacher of a second-class male teacher." This, at first sight, appears to be a differentiation of sex in favor of men. But such is not the fact. It is not a comparison of ability, but a question of money. Women, in her eager competition with man, is prepared to offer a better article at a lower price, and this she can afford to do, seeing that her personal expenses are not nearly so heavy as a man's must needs be. Her board costs less, and she can wash, mend, and even make her own clothes.

In Memory Of my beloved daughter, Clara Bell Finney, who died at Lindsay on the 30th of March, 1884.

Oh, Clara, dear, "Good bye," Our highly cherished one, Thy dwelling, in the sky, Is bright as mid-day sun!

But, oh, alas! how dreary Is our abode below! Without thy smile to cheer, Our tears incessant flow!

No more thy graceful form Shall meet our weeping eyes; Now safe from every storm Thou dwellest in the skies!

Thy voice, so soft, so clear, So full of tender love, No more soothes our ear, The stinging sough above!

Those fingers, once so deft, On ivory keys to play, Of all their power bereft, Lie mouldering in the clay!

Thy memory fills our heart, With many a tear and sigh, Alas! that we must part And say a last "Good bye."
