The Victoria Warder

FRIDAY, JUNE 13, 1884.

THE PUBLIC HEALTH.

In view of the somewhat general sickness in our midst and the proposed strict enforcement of the health law by our local board of health we give below a synopsis of the different clauses, etc., that each one may know and proceed at once to comply with its provisions.

ORGANIZATION OF LOCAL BOARDS.

The local boards of health in townships or incorporated villages shall be composed of the reeve, clerk and three ratepayers, and in cities and towns of more than 4,000 inhabitants of the mayor and eight ratepayers.

EXPENSES MAY BE RECOVERED.

When the local board directs anything to be done by any person, and the person does not do it, the board may have it done and recover the expense with costs by action or distress, or in the same manner as municipal taxes, but when the order of the board involves an expenditure of more than \$100 the person may appeal to the county judge.

ANY SORTS OF EXPENSE RECOVERABLE FROM AN OWNER OF PREMISES MAY BE RECOVERED FROM THE OCCUPYER, WHO SHALL DEFEND THE AMOUNT FROM RENT DUE, BUT THIS PROVISION DOES NOT INTERFERE WITH ANY AGREEMENT BETWEEN AN OWNER AND TENANT.

NUISANCES.

It is the duty of the board to cause an inspection of its district to be made from time to time for the detection of nuisances, and any person aggrieved may give the board information of a nuisance. A committee of the board appointed to investigate a nuisance has the same power as justice of the peace to compel the attendance of witnesses and the giving of evidence. When the party responsible for a nuisance is not known or cannot be found the council may abate it at the expense of the municipality.

ANY PERSON ESTABLISHING A NOISOME OR OFFENSIVE TRADE OR BUSINESS OR MANUFACTURE THAT MAY BECOME OFFENSIVE, WITHOUT THE CONSENT OF THE MUNICIPAL COUNCIL, WILL BE LIABLE TO A PENALTY OF \$250; AND ANY PERSON CARRYING ON SUCH BUSINESS AFTER NOTICE GIVEN TO DESIST WILL BE LIABLE TO A PENALTY OF \$10 A DAY.

WATERS SUPPLY AND SEWERAGE.

The municipal council is required to submit plans relating to a proposed public water supply or system of sewerage to the provincial board of health.

PREVENTION OF MEAT.

The medical health officer or sanitary inspectors are empowered to inspect all meat offered for sale or intended for food, and may seize and cause to be carried away any meat unfit for food. The person to whom such unwholesome meat belongs is liable to a penalty.

ANY PERSON WHO ABSTRACTS ANY HEALTH OFFICER OR ASSISTANT WHEN CARRYING INTO EXECUTION THE PROVISIONS OF THE ACT WILL BE LIABLE TO A PENALTY OF \$25.

DISINFECTING.

When the board is of opinion that

the cleaning or disinfecting of any house, or articles in it, is necessary, it is their duty to notify the owner or occupier of the premises to do so; and if he fails to comply with the notice, he is liable to a penalty of from 20 cents to \$2 for each day of default.

CONTRAGIOUS DISEASES.

In the case of small pox or other dangerous diseases, it is the duty of the board to arrest or procure an hospital for the reception of the sick. When any household knows that any person in his household has an infectious disease he shall within twenty-four hours give notice thereof to the board of health officer, and he shall not permit any person suffering from such disease to be removed from his house without the consent of the board or officer or attending physician, nor shall any occupant of a house who is aware of such disease change his or her place of residence without such permission. When any physician knows that any person whom he is called upon to visit is infected with any contagious disease, he shall within twenty-four hours give notice to the board of health officer. Any person having access to anyone sick with any such disease, shall not mingle with the general public until such precautions as are prescribed by the board or physician have been complied with. No person suffering from or recovering from a contagious disease shall ride in a conveyance disinfected. The board may order the destruction of bedding or clothes which have been exposed to infection, and houses or rooms occupied by sick persons must be disinfected before being let.

PENALTIES.

Any person violating the provisions of the act is liable to penalties, and such penalties shall be paid to the treasurer of the municipality for the use of the board.

BY-LAW.

Schedule A, of the act is a by-law which is in force in every municipal council. The council of Lindsay has not, as yet, altered it. A summary of some of the provisions is given.

MEDICAL HEALTH OFFICER.

It is the duty of the medical health officer to assist and advise the board, and to superintend the enforcement of the laws and regulations regarding health, and, if required by the school trustees, to act as medical inspector of schools.

REFUSE.

Deposits or accumulations of manure or other refuse is forbidden on any lot, street, square, etc., or in any river, lake, stream, sewer, pond, etc. The sanitary inspectors are required to keep a vigilant supervision over all premises and streets, and cause such accumulations to be removed. The inspector or health officer has power to enter a house or building to inspect it. The board may notify persons to put premises in proper sanitary condition, or, if they think necessary to quit the same.

SLAUGHTERHOUSES.

Slaughter houses must be distant not less than two hundred yards from any dwelling house, and seventy yards from any public street. No person shall keep a slaughter house within the municipality without permission from the board, and all animals to be slaughtered and fresh meat exposed for sale, are subject to inspection.

DRINKING WATER.

It is the duty of owner of every house to provide a sufficient quantity of wholesome drinking water, and any occupant of a house not satisfied may appeal to the board. All wells must be cleaned out before July 1st in each year, and a well must be filled up if the board so directs.

CENSEPOLS, ETC.

Details of the establishment of every cesspool, etc., must be approved of by the medical health officer, and they shall be cleaned out before May 15th in each year and disinfected once a month between that and November 1st.

YARDS AND CELLARS.

All decaying animal or vegetable matter must be removed from cellars and yards before May 15th, and all garbage must be buried, or placed in a proper covered receptacle and removed as often as twice a week.

HOSES.

Between May 15th and November 1st, no hog shall be kept in the municipality, except in pens seventy feet from any house, with floors free from standing water, and regularly cleaned and disinfected.

LIVERY STABLES.

Between the above dates keepers of livery stables must keep their yards clean and not allow more than two wagon loads of manure to accumulate.

ERECTING BUILDINGS.

Direct as are given as to the drainage of buildings to be erected, and every person who erects a building must within two weeks of the completion thereof, deposit in the registry office plans of the drainage and plumbing, and must in the same manner deposit plans of every alteration in the drainage and plumbing.

CONTRAGIOUS DISEASES.

The medical health officers provide each medical practitioner with blank forms on which to report to him any case of any contagious disease, and also with blank forms on which to report the death or recovery of any person from such disease. The health officer, within six hours after receiving notice of the existence of such a disease, shall have affixed near the entrance of the house a card at least nine inches wide and twelve long, indicating the penalty for removing the case without the permission of the board or its officers. No animals infected with contagious diseases shall be brought or kept within the municipality without the permission of the board.

PENALTIES.

The penalties for violation of the provisions of the by-law range from 10 to \$50, and may be recovered by distress, or, in default of distress, the offender may be imprisoned.

Meat Register.

In Watson's old stand, Lindsay, on Saturday, June 13th, a quantity of good second class mutton, Glasgow's, was offered for sale at 11 o'clock. Miss H. Laidlaw, auctioneer.

Local Settings.

Turnip Seed.

Plants, honest description respecting turnip seed as W. H. Robinson. You can get good turnip seed and harvest more. Please call and inspect our stock in general.—J. H. Gae.

Wooden Mill.

There appears to be a busy time round the Lindsay wooden mill, judging from a recent visit. Every machine is working along at its best and the amount of work being done is astonishing. Mr. Curvey informs us that the mill has been very busy since the start this spring and will have all it can do for a long time yet in addition to all the manufacturing. The farmers come in great numbers to have cutting, etc., and keep two machines going all the time. Mr. Wallace is now buying great quantities of wool and wants a great deal more to keep him going for the next twelve months. Farmers having any for sale or requiring cutting come for themselves should visit the Lindsay mill. They will see something interesting and will also get the best prices in the market.

Church Notes.

We learn that Rev. Mr. Farnham has been put down by the Methodist conference for the Lindsay station with Rev. Mr. Lwley. The rev. gentleman was most highly spoken of as the best supply that could possibly be sent.

Interests of the community.

Interesting services will be held in St. Andrew's church on Tuesday next, 17th inst. At half past two o'clock the presbytery of Lindsay will meet and proceed to ordain Rev. Daniel McTavish, M. A., and induct him into the pastoral charge of the congregation. In the evening at 8 o'clock a meeting will be held in the church to welcome Mr. McTavish pastor, at which address will be delivered by resident ministers and others, interspersed with selections by the choir. The congregation will be pleased to see at both services as many from other congregations in the town and vicinity as can make it convenient to attend. The pulpit will be occupied by Rev. J. T. Somerville, B. A., on Sunday, 18th inst.

Shot Dead.

A terrible tragedy, which had its origin in a robbery and its culmination in a house of ill-fame, has checked the ordinarily quiet community of Orillia. Yesterday morning the news that a fatal alteration had taken place in a respectable house in rear of the market started the inhabitants. The principals are a private detective and a lumber shanty cook named Hamilton, and very recently a resident of the village of Dunford, the latter of whom lost his life at the hands of the former. Briefly the particulars are as follows:—To trace the perpetrators of a couple of burglaries which were committed at the residence of Messrs. Frank Rees and Thomas Hamilton on the night of the 10th of May Detective Matt Howie, of Toronto, was employed. Mr. Howie, after getting on the track of the thieves, handed over the case to an assistant named Cass, who went to Orillia a few days ago, and commenced following up the case secured by his chief. Finally he arrested two men, Messrs. Hamilton and Hamilton, on suspicion of having committed the burglaries and then proceeded to look about for a third party who had managed to keep himself concealed. At last he learned that the headquarters of the man was a house of ill-repute which had recently been located in town. This he did about noon Wednesday morning, and took with him a local constable named Cotton, repaired, and after some difficulty succeeded in getting admission. He stated his determination to search the house for the party he was after and also to arrest the inmates. The women present were Mabel Ormiston and Lily Hamilton, and they had companions David Hamilton and Nelson Tollman. Some dispute arose as to the authority of the detective to make the arrest. He refused to exhibit his warrant and both women and men objected to go with him. The apartment was then pronounced a rendezvous presumably as a means of frightening the quartette into acquiescing, and in a scuffle with one of the men the weapon Hamilton's head and killed him instantly. The detective took the situation with singular sang froid, coolly going on with the arrest and leaving the dead man where he had fallen while he conveyed his captives to the cells. He then surrendered himself to the police, saying he had accidentally killed a man while in discharge of his duty as an officer of justice. Cotton also surrendered himself. The unfortunate man Hamilton was well known to many in Lindsay, and was always considered a quiet, inoffensive man, though given to the habits and vices of his craft. The news of his tragic death Wednesday evening caused considerable comment.

Local Brevities.

A new sidewalk has been laid down on Cambridge street from the corner opposite the Methodist church west to the end of the street. It was needed by Mr. J. W. Wilson, late of Jamsville, has become proprietor of the Victoria hotel, of this town, until lately known as the Tremont house. Under Mr. Wilson's management this hotel will be likely to do a good and thriving trade. See card elsewhere.

The Salvation Army.

The Salvation Army had another hallooing time Wednesday afternoon, the occasion being the farewell banquet to Captain Feary, who is removed to the west. The music, drama and tamborine were brought into play and a march through the principal streets constituted the chief features of the occasion. The army also escorted the funeral cortege of Mrs. Bell, of Cameron, and a late member of the army, through the town on its way to the Riverside cemetery. The proceedings in the evening were of the usual exciting character.

There is likely to be trouble again in the east ward unless the kind services of councilor Mellen Johnson. At the recent meeting of council it was decided to put up two new fire bells, one on the new fire hall and one in the east ward to replace the now crushed affair. On the solicitation of Mr. Mallon the east ward was to have the first one and it was to be erected at once. Now it is said there is only one bell and that the chairman of the fire committee will place on the new fire hall and they must wait till a new one is purchased before it is placed in the east ward. The east ward is therefore on the point of rebellion and open occasion to balked of and we should not be as all surprised to see Mr. Mallon getting up some night and moving a resolution that if the council will not give the east ward their rights they will be compelled to withdraw from the confederation and set up for themselves as an independent municipality. Such would be a awful waste of time, especially as a bell will cost over the whole business.
