The Victoria Warder

FRIDAY, JUNE 27, 1884.

Local Jottings.

Brevities.

Pure paris green at A. Higinbotham's.

Fresh candies made daily at Hickey's.

Ice cream pure and fresh at A. A. J. Soanes'.

Waltham watches sold at a great reduction at J. Rigg's. Call in and see.

Hammocks.—Fine line of Mexican grass hammocks cheap at J. R. Easton's variety hall.—23.

It appears we were in error last week in stating that Prof. Salter is removing from Lindsay. He has no intention whatever of doing so.

To get suited in dinner sets, A. Campbell's is the only place where you can get a complete selection in the county. Prices to suit the pocket.—22-2.

A petition is now being circulated for signatures asking the postmaster-general to open a post-office at Blackwater. The restaurant there has been much enlarged and improved. The hotel there is hastening to completion and there can be no complaint on the score of accommodation.

In his evidence last week, says the Orillia Packet, Cosse told the coroner's jury his plan of drinking without getting drunk. He takes a little sweet oil, after which he can drink as much liquor as he likes with impunity. The shooting of David Hamilton so soon after drinking eight glasses ought to deter others from adopting this plan when going on any service which requires a cool head and steady hand.

A few days ago a farmer, living near Spencerville, was waited upon by a man representing himself as getting signers for the petition asking for the submission of the Scott Act. The farmers unhesitatingly signed the paper presented, but his enthusiasm underwent a radical change when he discovered, a day or so later, that he had been swindled into signing a note for a considerable amount of money, instead of a petition.

People who are in the habit of going south in the winter to relieve rheumatic troubles may be surprised at the suggestion that it would be better to seek a colder clime instead. Huntly Elliott, who has camped out in a cotton duck tent on Whitney Island, Lake Simcoe, for four winters past, with the thermometer sometimes as low as 35 below zero, declares that while out there he never suffered from rheumatism, but every visit at home and civilization brings on a severe attack.

The copious and genial rain that fell in this district this week was a godsend to the cereal crops and vegetation generally. Nearly all the cereals stood in need of rain especially on lighter dry soils. The root crops were not advancing and required freshening up. The pastures were beginning to look brown and dried up. The meadows stood sadly in need of a heavy rain, especially the old ones, which are only very short, and are not going to yield a heavy crop. The rain has done a power of good, and every thing looks promising for a full and abundant harvest.

It appears to be now definitely settled that the east ward is to get the first bell. On enquiries at the council Monday evening no one heard anything about it apparently fid Mr. Mallon suddenly remembered he had "seen it some where." It was then unanimously resolved that the east ward should have it and the new bell wait for a while. We would suggest that Mr. Mallon seize on the new tower in some way, then the east ward would be properly equipped and a large amount of money recently wasted on it made to be of some use. If it were removed over there and placed on Mr. Mallon's new house it would answer all requirements and give his residence a respectability almost rivalling the mansion of a bishop.

The Marriage Mutual Aid Association of Hamilton has come to grief. The only wonder is that it didn't touch bottom sooner. The manager of the concern, J. M. Webber and Walter B. Webber, father and son, are under arrest, charged with fraud. John M. was vice-president and Walter B. secretary-treasurer. The concern advertised largely and distributed much printed matter purporting to explain how everybody could put $100 into the Association and draw out $500. Money came in from all parts of Canada, and in the last year very great sums have been paid in. Parties east of Toronto became dissatisfied with the management of the society lately, and several policy holders claim that numerous assessments collected were never paid out by the Webbers. A number of Eastern Ontarions claim to have paid in assessments sums varying from $100 to $1,500. While we have no sympathy with the Webbers people who bite at every swindle on the hope of making money for which they render no equivalent deserves to get nipped occasionally. It is a case of the biter bit. The Webbers claim that the institution has been properly conducted. Their trial has been postponed for two weeks to allow a thorough examination of the books of the association.

Vegetables at Soanes', asparagus, green peas, tomatoes, cucumber, radish etc., fresh every day.

For a cheap and handsome hanging lamp call and see the assortment at A. Campbell's, the cheapest ever offered in town.

The twelfth of July will be celebrated in Omemee this year. The brethren from all points on the Midland Railway are expected there. We have not heard what arrangements the Lindsay Orangemen are making.

A day or two ago Mr. Peter Curtin and Mr. P. F. McCabe and Daley's dog went for a swim. The dog was thrown into the river but could not swim so Curtin had to jump in for it. In his efforts to assist McCabe also fell in and was in the same plight. Peter rescued both at last.

A circular has been issued by one of the leading English fire insurance companies to their agents, which states that on account of the unsettled condition of the liquor trade in Ontario, they have decided to decline all applications for the insurance on hotels and saloons, and directing their agents to renew no existing policies on such property.

There was shown to a number of representatives of the press in the parlor of the Walker house, Toronto, on Monday evening, the smallest woman on earth, Madam Lucia Zearte. She is a fully developed lady of 21 years, 20 inches in height and weighs 4¼ pounds. Her feet are two and a half inches in length. The largest ring she wears is too small to be placed on a lead pencil, and her bracelets are not large enough to go on the finger of an ordinary sized man or woman. She is bright and intelligent, and though she is not able to speak English very fluently she understands sufficiently to answer quickly any questions that may be put to her, and acts as interpeter to her parents, who accompanied her. She was born at San Carlos, near Vera Cruz, in Mexico, and her father and mother, who are Spanish-Mexicans, are both well proportioned people, weighing respectively one hundred and eighty and one hundred and sixty pounds.

Mr. Jno. A. Barron, in a letter to the Globe regarding cricket and certain improvements in that game, goes on to speak of the 24th of May swindle as follows:—"The Lindsay town council has most properly withheld from the promoters of the sports held in that town on the on the 24th ultimo the grant it had agreed to give. The entire proceedings of that day, it appears, were most discreditable, and the town itself, through its council, was the first to show its appreciation of how sports should be conducted by peremptorily withholding the grant. The races were held upon the main street, and started in turn opposite different hotels, with what object it was not difficult to perceive. An hotel or two on a cross street were not to be over looked, and so when their turns came the eye-for-business managers changed the course from a comparatively smooth to a comparatively rough course. Probably Lindsay has made its last grant of this kind, and will employ its future grants of this kind in securing the permanent benefit of one good ground for sports of all kinds."

GOODERHAM.

Correspondence of The Warder.

The hay crop is poor in this district. The rains of the past week will however do much towards improving the outlook in this as well as other crops.

The mill has got to work again and is now turning out manufactured lumber in a good steady way. While there is no "big push" the work goes on quietly and swiftly.

VALENTIA.

S. S. Anniversary.—The anniversary of the Tabor Sabbath school will be held on Sunday and Monday, July 6th and 7th. On Sunday, 6th, the anniversary sermon will be preached by Rev. Mr. Doxsee, at 2:30 p. m. A collection will be taken up at the close of the service in aid of the Sabbath school. On Monday, 7th, the annual gathering will take place in Mr. Marks' grove, east of Valentia, when addresses are expected from Revs. Messrs. Doxsee, Beer and others. The choir will be in attendance. Recitations and dialogues by the children. It is hoped a good number will be present.

BELLEVILLE.

Stabbing.—A stabbing affray which is almost certain to result fatally, occurred Wednesday evening on the premises of Michael Kennedy, 4th con. of Tyendinaga, 16 miles from this city. There had been a logging bee during the day, and two men, named John McAulay and James Alexander, engaged in a fight, in which the former bit one of the latter's fingers. Joseph Morden, one of the bystanders, upbraided McAulay for his mode of fighting, and in response to a challenge engaged in a conflict with McAulay, who drew a knife and stabbed him sixteen times in the face, shoulders and upper part of the body, one of the wounds being in the left lung. Medical men were summoned from Deseronto, who gave it as their opinion that the victim could not survive. McAulay made his escape and up to last accounts had not been captured.

LIFFORD.

Correspondence of the Warder.

Matrimonial.—Mr. John Crawford, of our village, was united in the bonds of matrimony last week to Miss Jennie Staples, an estimable young lady, daughter of the late Thomas Staples of Manvers. We wish them a long life, health and happiness.

Picnic.—The temperance society of our village held a tea and picnic in the grove of Mr. Robert Touchburn on the 29th inst. Preliminaries have already been made, and no doubt it will be financial success.

Good Stock.—Mr. Andrew Holmes, one of our enterprising farmers of this section, has lately purchased from Mr. J. Brown a thoroughbred bull, which has been awarded several first prizes at the county shows and carried off the diplome at the Manvers show last fall. Mr. Holmes in future intends to go more extensively into stock rising.

LITTLE BRITAIN.

Correspondence of the Warder.

Personal.—Miss M. Blewett, who has been attending the model school in Ottawa, and Miss Lydia Broad who has been to the one in Toronto, came home on Saturday, after attending a term in those institutions.

Anniversary.—The Sabbath school anniversary will be held here on Monday, 30th inst. A large turn out is expected. Ample preparations are being made by the committee of management.

Odds and Ends.—A wedding party passed through here (to-day) Wednesday, consisting of some thirteen or fourteen couples escorting the happy pair to the station, where they took the train for the east. Another expected next week. Mr. S. H. Mutherell is entitled to a double vote of thanks for the manner he has constructed the sidewalk over the creek. He was evidently the right man in the right place.

The Orangemen of the Manvers district have decided to celebrate the coming anniversary of the battle of the Boyne in Omemee.

CANNINGTON.

Building Notes.—The following buildings are at present in course of construction in this place: John Sharpe, brick store and hall; H. Wilson, brick dwelling house; O. McClelland, brick dwelling house; J. Learey, brick dwelling house; J. Anderson, brick dwelling house. In addition to these Mr. R. Munro is having his house, brick veneered; Mr. John Sproule will rebuild his residence, lately destroyed by fire; Mr. R. Edwards contemplates building several tenement houses; Mr. John Learey will, no doubt, rebuild the grist mill; Mr. F. Bick has just completed his planing factory. So it will be seen that our little town is booming ahead.

EMILY.

Correspondence of The Warder.

Picnic.—The annual picnic of Father Connolly's congregation held here on Wednesday, the 18th, was quite a success. A very large number came from Lindsay. A scuffler, presented by Mr. Sylvester, of Lindsay, and a handsome clock valued at $20, on which throws were taken, brought in a very nice sum. An excellent programme of games was furnished and carried out to the satisfaction of all those taking part. The following is a list of the successful competitors: Boys' race—1st, C. Flynn; 2nd, B. Scully. Running hop, step and jump—1st, F. Doran; 2nd, S. Malone. Running high jump—1st, J. Harty; 2nd, T. Collins. Running jump—1st, J. Doran; 2nd, Frank Doran. Throwing heavy stone—1st, Walter Brown; 2nd, Thos. Flynn. Ten-minute race—1st, Peter Molloy; 2nd, Neil Herlihey. Two hundred yard race—1st, John Jordan; 2nd, F. Doran.

NORTH BEXLEY.

Correspondence of the Warder.

Great improvements are going on in this part of the country this summer.

Building.—Mr. William Peel, sen., is putting up a large straw shed. He is putting a stone foundation under it. It will be quite an improvement to his buildings as he is an enterprising man. Mr. Robert H. Ferguson is the carpenter.

Mr. Henry Dovey has put up a fine frame barn. Mr. Robert Ferguson is the carpenter. As Mr. Ferguson is a good mechanic he gets a good many jobs.

Mr. Henry McKee is putting up a frame barn; also Mr. Henry Southern is erecting a fine frame barn. So you see the people are alive in this section.

The young men of this section are about organizing a ball club. They have received their new ball and directions.

Improvements.—Mr. Bradshaw has put a new boiler in his mill. They are doing good work. Mr. J. H. Peel has put up a new house; also Robert John Black put up a new house. We suppose Mr Black will be looking for a wife. We hope he will get a good one.

CAMBRAY.

Correspondence of The Warder.

Fire.—Mr William Routley's barns were burnt last week catching it is supposed from a spark from the kitchen stove. Mr. Obadiah Routley, who occupies the premises had nearly all his implements including a new reaper and mower, horse rake and seeder, burned. As he was just starting his loss is a very serious one to him.

Picnic.—The annual picnic in connection with the Cambray Union Sabbath school was held in Mr. Burkley's grove on Friday, the 20 instant. The proceedings this season were varied by the presentation of an elegant reclining chair and a very handsome walking cane to Mr. Wilkinson, the superintendent, as a slight token of the appreciation in which they hold his services. Mr. Wilkinson has been superintendent of this school for we believe twenty-nine years and has scarcely ever missed a Sabbath from fulfilling the duties of his position. Rev. Messrs. Scott and Cooper addressed the children and friends. Music was furnished by the Cambray band. Mr Marshall's tent was well patronized, the day being very warm made his excellent ice cream more than usually palatable.

Streets.—Mr. Berkley has put our sidewalks and roadway in an improved condition with the statute labor and a grant from the township fathers.

Patent Right Men have been trying our unwary friends to invest in a churn right the past week, but so far have proved unsuccessful. We trust they will meet the same fate in all other places. Look out for the patent churn.

FENELON FALLS.

Mill Accident.—Thursday evening Mr. James Power, who is at present employed in Mr. R. C. Smith's sawmill, met with an accident that will lay him up for some time. By some means a spike on the trimmer chain struck the inside of his left boot, tearing it completely away and inflicting a deep and ugly wound on his heel, and the next spike came in contact with his knee, but fortunately only bruised it.

Fishing.—This season fishing in the vicinity of the Falls is said to be better than usual. Maskinonge and bass bite freely and a good many of both have already been captured, but the majority of them are small, as a ten pounder is not often taken in these waters, and is rejoiced over as much as one double the weight used to be a few years ago.

A Novel Contest.—Considerable rivalry and interest of late have been shown amongst the pupils of the public school in seeing who could form the most English words and sentences from the letters comprising the word "incomprehensible." Miss Annie Rutherford succeeded in getting the greatest number of words, namely 2,6000 and Miss Mary Moffat the greatest number of sentences, 186. Mr. Graham, the head master, thinks that contests such as the above will have a strong tendency to improve the spelling of the boys and girls who engage in them.

Attempted Suicide.—John Wallace, of this village, took a quantity (he says two tablespoonfuls) of paris green from a can in his shop, mixed it with water and deliberately drank it, after which he went home, ate a quantity of butter, undressed, got into bed and fell asleep. In about an hour he awoke and began to vomit, and Dr Wilson, who was at once sent for administered a strong emetic, which soon emptied his stomach. His condition was very critical for some hours, during which he suffered a good deal of pain, but before daybreak he began to recover, and early in the morning was down town, probably to get whiskey, in which he had been indulging freely before committing the rash act. It is said that he has frequently, when in liquor, threatened to take his own life, and those who know him best have but little doubt that he will do so sooner or later.

Died of Potatoes.—Last Monday afternoon a fine yearling heifer owned by Mr. Robert McCullum's got into Mrs. Meldrum's cellar and ate so many raw potatoes that she died about midnight. From her actions it was thought that a potato or a piece of one had stuck in her throat, but none could be found by the persons who held a post mortem examination, and it was caused by the "gas" evolved from the fermentating mass in her stomach, which was swelled up as "tight as a drum."

NORTH VERULAM.

Correspondence of the Warder.

A Relapse.—Mrs. Dunseath is again seriously ill.

New Barn.—Mr. Curtis' barn is about completed.

Ducks.—While out for a walk last week Miss Gertie Dobson caught ten small wild ducks.

Struck by a Squall.—On their voyage back from a tour up lakes Cameron and Balsom on Saturday, Mr. J. Cullou and W. W. Payne was struck by a heavy squall and the bark canoe which they were in was swamped, about a mile distant from Fenelon Falls. Owing to the timely arrival of another boat no loss of life occurred.

The Union Picnic was a grand success. About 700 attended. The ball match decided in favor of Fenelon. The sports were excellent. The day was all that could be desired although rather warm.

MILLBROOK.

Orange Items.—L. O. L. district of Cavan held their regular meeting at Millbrook on Saturday, the 14th inst., worshipful master, Bro. Joseph Thorndyke, in the chair. After the usual business, it was decided by the unanimous vote of the lodge to celebrate the coming 12th of July with their brethren in Cobourg. The Bethany brass band has been engaged to go with Cavan district on that occasion. Among those present we noticed Messrs. R. Vance, John Smyth, David Fallis, Richard Fallis, George Shaw, R. Shaw, D. Donnelly, W. Fisher, V. S.; James Williamson, George Fowler, and others too numerous to mention. The scarlet chapter was then opened, and after a few initiations it adjourned to the 21st.

Home Celebration.—At a meeting held in Mr. Curry's office on Monday evening, it was decided that the following gentlemen be a committee to furnish amusements, etc., on Dominion day, viz:—W. Vance, George Anderson, Walter Curry, R. Kells, R. Doak, T. Philips, G. Fowler, Esquires. A grand lacrosse match between Millbrook and Lindsay; fireman's turn-out at 9 o'clock a. m., and a grand vocal and instrumental concert in the evening, is, we believe, the programme. Come one, come all, and bring your cousins and your aunts; never mind your brothers and your uncles, and the old folks; they will be sure to come.

COMMERCIAL.

Office of The Victoria Warder,
Lindsay, Ont., June 26, 1884.

LINDSAY MARKETS.
