AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured.

"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried Ayer's Cherry Program, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the Pectoral a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me.

Croup. - A Mother's Tribute. "While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of Aver's Cherry Pectoral, a bottle of which was always kept in the house. This was tried in small and frequent does, and so our delight in less than half an hour the ittle patient was breathing easily. The doctor said that the Cherry Pectoral had avel my darling's life. Can you wonder at sur gratitude? Sincerely yours,
