Mr. Gross has recently introduced the latest and most perfect system of Vulcanizing, whereby any variety of rubber can be hardened without a risk of impairing its strength or injuring its texture. This new process was invented more particularly for the working of BLACK RUBBER, which, being perfectly pure, to secure the best results, requires a more uniform and higher degree of heat than is attainable by use of the ordinary Vulcanizing machine. The inventor says, that with Ash & Son's GENUINE ENGLISH BLACK RUBBER, hardened by the new Vulcanizing process, he can produce one of the QUEEN'S HOTEL, Hallourton, is without a rival in this district as a Halleurton, is without a rival in this district as a summer resort for families, and is beautifully situated. A charming place for the huntsman, the sporteman and the fisherman. It is away in the primitive forest, and in a beautiful little village possessing a railway, telegraph offices, and all the conveniences of modern life. Charges surprisingly moderate. The very place to "Spend a Happy Holiday." The proprietor is anxious to accommodate all he can, and par les coming to stay a few days are requested to communicate by post or wire. Five hours rail from Foronto The hotel is supplied with every accommodation, and a good abled to make his BLACK KUBBER plates, heretofore good, still better than ever. All wearers
of BLACK RUBBER plates are delighted with
them. Artificial Teeth inserted on any kind of
plate desired, including Red Rubber and what is
called Gold Alloy. A set of teeth on the latter
material for \$8. A stock of about 10,000 ARTIFICIAL TEETH of all shapes, shades and signs
to select from. An upper or under set of teeth
from \$8 to \$65. No charpe for extracting
teeth when new ones are to be made. VITAL from \$8 to \$65. No charpe for extracting teeth when new ones are to be made. VITAL-IZED AIR administered, and ELECTRICITY still used with success. The natural teeth preserved by filling with gold and other good materials. Mr. Gross, having superior facilities for getting valuable improvements as soon as they are invented, always avails himself of this advantage in this keaning in advance of all competitions. is supplied with every accom nodation, and a good table is kept.
