GALWAY.

Mit. W. Givens, of Bobenygson, came out for a deer hunt last week and chanced on quite a hunting opisode. He came across a good track, and there being a few inches of snow, followed along at a lively rate. Soon he heard a chorus of howls that was enough to raise the scalp of a nervous men, and startle almost any one, Wolves were close by him and in front, and for a moment he did not know what was best to do. Then there was another terrible chorus, but this time they were still further away, so he continued along the deer's trail. He soon come up to the wolves' track and saw that they had out him out of his hunt and had taken after the deer. He kept on, however, caldeer, and then he would take chances with them for who should have it. Sure enough after a lively chase he caught up and found a deer in the last struggles with three ravenous and heres welves. It was difficult to get a shot at them, but at last he got a boud on one and pulled the trigger. With The other two turned at first towards Givens, but another shot which miss ed its mark, induced them to turn fail, and a third crack of the rifle sent one of them limping and howling with pann, and Givens was left victor of the spoils, one deer and one wolf. =

PETERBORO.

FIRES. - Early on Friday morning a frees.—Early on Friday morning a fire broke out in a frame tenement house on Charlotte street, occupied by Mr. J. Carveth. The fire caught in the rear part of the building, and before the firemen could bring the water to play on the flames from the George street hydrant the building was gutted beyond occupation as the wood was very dry, this house, owned by Mr. Robert Harper, North Monaghan, being perhaps the oldest house in Poterboro. Mr. Carveth's loss in house hold effects is about \$100. On Friday night a fire was discovered in the night a fire was discovered in the front parlor on the third floor of the Grand Central hotel. Though there was more smoke than fire yet considerable damage was done, and but for the prompt response of the fremen-the building would have been in great-danger. It is probable that the occupant of the room had left a lighted cigar on the window sill, which fell on the sofa under it, and thus started the fire, which smouldered a long time before it began to burn actively. Still, considerable damage was done, which is, we are glad to say, covered be insurance. LIFTING A SHOP-LIPTER.—Thursday the head of one of our business firms

developed an unexpected exhibition of mercantile muscle. A man enterthe purchase of a pair of gloves, man-aged to secrete in his pocket another pair, though not unseen by another member of the firm. He bought a pair of gloves and tendered a \$5 in payment, and to sey that he was ashis feeling, when the salesman, in returning his change, remarked, much for this pair, and so much for the pair you have in your pocket." The thief arenuously denied the im-plied accumation, but refused to be searched, and the gentleman of usexpected muscular resources downed the
the thief on the floor, like a baby, and
found the gloves reposing in the posket alongside a bottle of whiskey.
He then raised the raseal to his test

PORT HOPE. EXTRAORDINARY CASE. - Geo Sabin, son of fill M. Sabin, living in the township of Cramahe, was sawing in his father's mill on November 11th, when an edging falling across the circular saw, was thrown with immense velocity, striking the young man in the inner part of the left eye, blinding the eye instantly, and displacing it forwards and ontwards. Although bleeding profusely he walked home, a distance of half a mile. A doctor was sent for and tended him up till Mon-day. The case not progressing satis-factorily, the father brought him to Port Hope to consult Dr. Hamilton.
The doctor, after probing the wound
an inch deep, discovered a foreign
body—in the orbit of the eye—and advised an operation for its removal, This operation was performed at 12 o'clock on Tuesday, by Dr. Hamilton, assisted by Dr. Corbett. After placing the patient under chloroform and en larging the external wound, what was the doctor's astonishment to find that os laying hold of the foreign body with a strong forcep it was almost im-movable, but on using vigorous fraction, inch after inch was drawn out, till a piece of pine wood two and three quarter inches long, three fourths of an inch broad and balf an inch thick was removed from the poor fellow's eye.
And fancy this big piece of wood nearly four weeks in his eye; what intense

The building has been but little used lately, and it would be no great loss if the palauce of it tum-bled down. Had the assident happened a few months ago when the offices of the company were located there no doubt several would have been injured. The wonder is that the roof did not fall long ago, as it is an old one and had a badly wrecked appearance many

A Terrible Cough Cured. "In 1867 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried Aven's Cherry Preconal, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the Prectoral a permanent cure was effected. I am now 62 years old, hate and hearty, and am satisfied your Cherry Prectoral saved me.

The most successful dentist in this part of Canada. The GOLD alloy used by Mr. Neelands for artificial teeth is a grand success, notwithstanding the faise statement made about it by a Lindsay dentist jealous of Mr. Neelands' enterprise in buying the patent right. This individual exhibits to his patrons a piece of gross metal resembling soft solder or lead, and tells them it is a poison and the same as Neelands' Gold Alloy, which is a falsehood, as the Gold Alloy used by him contains both gold and silver and no poison.

Alloy used by him contains both gold and silver and no poison.

Mr Neclands inserts numbers of perfect fitting sets of toeth for people in Lindsay, Ops, Mariposa after this dentist had tried and entirely failed to give satisfaction. Black Rubber has been used by Mr. Neclands for the last 17 years The only genuine English Black Rubber kept constantly on hand. Teeth inserted on any plate desired. In extracting teeth with gas it is a common thing for Mr. Neclands to extract from 10 to 15 teeth with one dose of gas and the person leaving quite well and strong. Mr. Neclands made a special study of this gas under Dr. Colton, of New York, the inventor, who writes to Mr. Neclands that he has given the gas to 136,613 persons without an accident. W. H. GROSS DENTIST.

OVER 24 YEARS' EXPERIENCE.

Mr. Gross has recently introduced the latest and most perfect system of Vulcanizing, whereby any variety of rubbet can be hardened without a risk of impairir g its strength or injuring its texture. This new process was invented more particularly for the working of BLACK RUBBER, which, being perfectly pure, to secure the best results, requires a more uniform and higher degree of heat than is attainable by use of the ordinary Vulcanizing machine. The inventor ing Montreal on Monday and their eneques for the same being issued on Tuesday, shows us plainly that they fully appreciate our immediate requirements in this serious calamity by which we so recently suffered. PATTERSON, Q.C. the best results, requires a more uniform and higher degree of heat than is attainable by use of the ordinary Vulcanizing machine. The inventor says, that with Ash & Son's GENUINE ENGLISH BLACK RUBBER, hardened by the new Vulcanizing process, he can produce one of the best, if not the very best, dental plate in the world. Mr. Gross, with this improvement, is enabled to make his BLACK RUBBER plates, here-tofore good, still better than ever. All wearers of BLACK RUBBER plates are delighted with them. Artificial Teeth inserted on any kind of plate desired, including Red Rubber and what is called Gold Alloy. A set of teeth on the latter material for \$8. Harper's Bazar. ILLUSTRATED.

Harper's Bazar is the only paper in the world that combines the choicest lit me-ture and the finest art illustractions with the latest fashions and methods of house hold adornment. Its weekly mastra-tions and descriptions of the newest aris and New York styles, with its useful pattern-sheet supplements and cut patterns, by enabling ladies to be their own dressmakers, save many times the cost of subscription. Its papers on cocking. the management of servants, and house keeping in its various details, are emin-ently practical. Much attention is given to the interesting topic of social etiquette, and its illustrations of art needle-work are acknowledged to be unequalled. Its literary merit is of the highest excellence, and the unique character of its humorous pictures has won for it the name of the American Punch.
