

HAYGARD'S YELLOW OIL
CURE FOR RHEUMATISM
FREEMAN'S WORK POWDERS.

District News.

Archie Perks of Port Hope while fooling with a loaded pistol got shot through the hand.

Mr. Peter Thompson of Uppergrove has secured upwards of four thousand bushels of turnips of seven acres.

Mrs. Melvin of Eldon, who mysteriously disappeared about a year ago, has returned home to see after her family and household.

Jolly the Englishman, who was injured some time ago on the G. T. R. near Port Hope has been sent to the general hospital, Toronto.

Mr. S. Lemon, of King, has been an exhibitor at the various fall fairs in Simcoe and York, and his prize money foots up to \$250. He showed pigs, cattle and sheep.

H. A. Mantz, of Alport, Muskoka, has sold a Hereford bull calf, 6 months old, to Wm. Southern of Michigan, for \$500. This was a good price for a Muskoka calf.

A farmer's team from Grafton ran away while in Cobourg, and taking the direction of the lake, fell off one of the piers into the water and were drowned. The team was valued at \$300.

Rev. R. Fairbairn, B. A., of Jarvis's corner, was invited on the other evening and presented with a beautiful sofa and a large easy chair, accompanied by a very kind and appreciative address, signed by D. M. McKinley, on behalf of the congregation.

The Ottawa Sun says that a tramp tanner, named James Cahill, who lately struck the town from Kingston, came to the station this afternoon in a beastly state of intoxication and asked for lodging. He was a stranger and was taken in, but will have to pay a quarter of a cord of wood during the night to help pay for the accommodation. Tramps applying in Kingston for protection should be made to either work or walk.

A party of three gentlemen from Sarnia became separated while hunting in Enniskillen township. While scouring through the woods one of the party, noticing an object moving about 100 yards ahead of him, drew his rifle and fired. It proved to be one of his companions, whom he had mistaken for a deer. He survived but a short time. Deceased's name was Joseph Woodhouse, and the man who fired the shot is John Miller. It would be a good plan to hang John Miller, just to encourage the others as the French say. This shooting by mistake is becoming much too common.

Proceedings are to be taken by a Kingstonian against the mayor of Prescott for calling a warrant, to arrest for felony, dated on Sunday, void, and hereby intimidating and interfering with constables acting in the discharge of their duty. The mayor says he acted under legal advice, but Mr. T. L. Snook, who has the matter in hand, says that the mayor, being head of the town council, and ex officio a justice of peace, should know that in matters of treason, felony and breach of the peace (indictable offences), warrants may be issued and arrests made on any day, and that he has a better opinion of Prescott lawyers than to credit such pretension.

A despatch from Pictou says: At the Orton iron mine in North Hastings, the diamond drill has just crossed the vein some 200 feet below the surface and found it to be the enormous width of fifty feet between the walls. This is fifteen feet wider than the famous Coe Hill mine, and proves the deposit to be of a vast extent. Another body, apparently of great extent, has been found between the Orton and the Central Ontario railroad, which will make two deposits in the township of Tudor, convenient to that road. These mines are the property of Messrs. Coe, Ritchie & McKintun, who have developed that great mineral region within the last year or two.

Chief constable Landrigan, of Penetanguishene, has a son, a boy of about 12 years of age, who displays quite a spirit of enterprise. On Sunday morning last he rigged up a sail in an old flat bottomed punt and set out for a cruise. His parents were unaware of the youngster's movements until sometime in the afternoon. As there was a heavy wind blowing directly out of the bay, they were naturally very anxious about the boy's drift in an old boat scarcely fit to float on a mill pond, and his father started in search of him. He was at last, in the evening, found at Pinery point, about six miles from the place of embarkation. He had tacked back and forth all day trying to return home, but each tack only took him farther away. Fortunately for the youngster he considered he had enough "sail" for one day when he struck the point, for had he started out again he would inevitably have been blown

out into "the Gap," and that would have been the last of him. The father was so agitated at finding the boy safe that he forthwith gave him a good sound thrashing.

Ons night last week a visit was made to the dairy of Mr. Dugald Smith, on the Collingwood town-line. The thieves took all the establish they could find, including bread, butter, cheese, and a dozen of ducks and geese. The visitors took nothing else, and drove away their wagon, loaded with a winter's supply of provisions.

Genner Wilson, who met his untimely death near Belleville on Sunday night, was struck by No. 3 east bound express. He was noticed by the engineer, walking along the track, but the train was so close upon him that there was no time for warning. He was struck and hurled into a ditch several feet from the track. As it was but a short distance to the station the train was brought in and the matter reported, when the engineer, the yard master and others repaired to the scene of the accident, while messengers were sent to Dr. Farley. When found, the man who was struck by the train was quite dead. He was attired in his uniform, says the intelligence, and wore a large fur cap, which is supposed to have prevented his hearing the approaching train. Upon examination it was found that his shoulder had been badly crushed, while there was a deep and fatal wound on the head over the eye, and extending back to the temple, which was sufficient to have caused instant death.

A general meeting of Wycliffe college mission society for the reception of reports was held on the 14th inst., the president, Mr. A. Daniel, in the chair. A year ago the society had under its care the following missions:—Roaches' Point, Air-Isle, Washago, Uthoff and Rannymede. The first of these was taken out of the hands of the society in December, '83, by the appointment of the Rev. C. Bell. The others are still regularly supplied by the society. Washago mission consists of three congregations in the townships of North Orillia and Rama, 100 miles north of the city. The services in this mission are held fortnightly during the college session and every Sunday during vacation. Mr. G. H. Gavigler was in charge of this mission during the vacation, in which a small church was erected at Cooper's Falls. Uthoff mission consists of congregations at Uthoff and Alma stations, on the Midland railway, 100 and 105 miles from Toronto. Services are held in this mission every second Sunday. Mr. W. H. A. French had charge during the vacation and presented a class of fourteen candidates for confirmation to the Lord Bishop of the diocese on the occasion of his visit to Coldwater. The treasurer's report showed that \$375 had been expended during the year in carrying on the work of the society. The great part of this was contributed by friends of the college.

Friday morning at eight o'clock, Cook Teets, convicted of murdering his wife by administering poison to her a year ago last October, in the township of Artemesia, paid the penalty of his crime on the gallows. His solicitor during the trial at the assize court made every effort to have the death sentence commuted, but without avail. He received a telegram from Ottawa stating that there would be no executive interference. The doomed man received the news with great calmness; in fact ever since his imprisonment in Oct. 1883, and since the sentence of the court a month ago, he has conducted himself with great composure, and manifested the greatest indifference as to the horrible crime with which he was convicted, and the terrible end that awaited him. As the hours were fast fleeting away, and the dreaded moment approached, he occupied the time leisurely talking and chatting with those who happened to visit him. Whenever the subject of the murder was reverted to he protested his innocence, and declared in the most emphatic manner that he was innocent of the charge. In the presence of the clergy and others he made a long statement in writing, reviewing the whole case and denying the evidence given at the trial by the Leppard family. The statement will be published. The prisoner was attended by the Rev. J. Howell, Methodist minister, and Rev. A. H. Scott, pastor of Knox church. They visited the cell early and conversed and prayed with the doomed man, who appeared quite peaceful and prepared for the end, but still, declared his innocence. He had no desire to make any statement on the scaffold, and requested the jail officials to have the ceremony as short as possible. At just three minutes to eight o'clock the cell door was opened and the sad procession started, consisting of the prisoner, supported on the right and left by Rev. Messrs. Howell and Scott, and followed by the sheriff, goner, and other officials. The prisoner walked to the scaffold and ascended the steps with much fortitude and firmness, and took his stand on the trapdoor of the scaffold. Whilst the hangman was adjusting the noose the prisoner shuddered and gave himself a slight turn to the left, which was followed by a nervous trembling for a few moments, during the delivery of the Lord's prayer by Rev. Mr. Howell. The hangman then drew the

bolt and Cook Teets was almost instantaneously ushered into eternity. A large quantity of stolen goods was found in the house of Thos. Leighton, Owen Sound. The police traced twenty-five cases of larceny home to Leighton, and the magistrate last week sentenced him to the penitentiary for seven years.

The largest casing ever made in Canada, it is claimed, was made at the foundry of Messrs. Ingalls and Hunter, Toronto, a few days ago, when one of the large pump cylinders for the Toronto water works pumping engine was successfully cast.

At the request of Sir John Macdonald the Montreal demonstration in his honor has been deferred until January, when at the same time his 70th birthday will be celebrated. As this date, Jan. 11, falls on Sunday the public welcome will take place on the 12th.

A public cattle fair and public weighing scales under the auspices of the Mayor's Council was successfully inaugurated on Friday, the 21st ult., at Angus. Several prominent speakers gave addresses. The highest price paid was by Mr. Parkhill, \$110 for a yoke of oxen.

Some two weeks ago John Saltman, of Shakespeare, was committed to the county goal at Stratford by two North Easthope magistrates as a vagrant, and when he was brought to the goal was so ill that he could not walk alone. He contracted rheumatism in early life, which resulted in heart disease, from which he died at midnight on Tuesday following his incarceration. An inquest was held on the remains, and a verdict rendered that deceased came to his death from disease of the heart. The Beacon comments severely on the practice of sending unfortunates, whose only crime is age and poverty, to breathe out their last gasp on a pallet of straw and in a felon's cell. Sermons could be written on this subject.

Mr. Alex. Wright, of Stratford, who was for many years chief engineer of a large sugar plantation in Cuba has during the past two years been experimenting extensively in the growth of cane and manufacture of sugar in the county of Essex. Some 80 acres of sorghum were grown by Mr. Wright himself and farmers in the neighborhood, from which about 7,000 gallons of syrup were made, besides considerable sugar of excellent quality. The factory is on an extensive scale and fitted up on the most modern principles similar to those in use in Cuba. As far as growing cane and making sugar is concerned, Mr. Wright has no doubts whatever as to the perfect success of his experiments. Whether at the present and prospective low prices of sugars it will prove profitable financially, remains to be seen.

The Rev. James Frazer, of Sutton, has sent the following note to the Rev. D. J. Macdonnell:—A person calling himself an agent for our French evangelization scheme, visited this locality last Friday, but kept a safe distance from the manse. That he is a fraud, of whom our people had better beware, is evident from the fact that the better to work this congregation he headed the Sutton list with my name for one dollar. So far as I have heard he did not obtain anything in this locality, but had quite a list from Zephyr. His plan seems to be to work the outlying congregations as far away from the residence of the minister as possible. He moved towards Beaver-ton from here. He is fully armed with a copy of the Record and other literature. Had he tarried longer in this locality he would have been arrested.

Miscellaneous.
Tone up the system by the use of Ayer's Sarsaparilla. It will make you feel like a new person. Thousands have found health and relief from suffering by the use of this great blood purifier when all other means failed.
A DOUBLE PURPOSE.
The popular remedy, Haggard's Yellow Oil, is used both internally and externally, for such ailments, colds, croup, rheumatism, deafness, and diseases of an inflammatory nature.
"Mary's Lamb" appears in one of the new school readers, and "herby hangs a tale."
A. B. Des Rosiers, Arthabaska, P. Q., writes: "Thirty years ago I was seized with a severe attack of rheumatism in the head, from which I nearly constantly suffered, until after having used Dr. Thomas' Electric Oil for nine days, bathing the head, etc., when I was completely cured, and have only used half a bottle."

HAYGARD'S PECTORAL BALSAM
DOMINION WORM POWDERS.

These powders are well mixed with mild Antiseptic and Purgative Medicines, which make them safe and effective, not only in Worm Fevers but at the commencement of every Fever. When a child is sick it is not easy to find out whether it has worms or not. Give our Dominion Worm Powder night and morning and your child will be improved, without any trouble. One is as taken away Eighty Worms from one 4. 25 No. 10 Package required.

Compound Syrup of Squills AND IPECAC.

Remember! It is NOT the Hive Syrup.
COMPOUND SYRUP OF Cinnamon, Catechu & Blackberry
For the cure of
DIARRHÆA, DYSENTERY, CHOLERA MORBUS,
Pain and Cramps in the Stomach and Bowels.

It is generally stated by proprietors of medicine that they will cure every disease of the human system, but such statements are untrue. It is possible for one medicine to cure one class of disease. If medical men are consulted for the treatment of the above diseases they will compile their remedies in such a way that each article will act in harmony with the other. One will act as an anodyne, easing pain; another will act as an antispasmodic, binding the bowels; another will act as a carminative, expelling wind from the stomach and bowels; another will act as a diuretic, bringing the kidneys and bladder into action.

Such a medicine you have in the above syrup, which never fails to give relief.
SOLD BY S. PERRIN, LINDSAY.
APPLES.
JOHN WELSH

Apple Dealer, is now prepared to furnish parties desiring first-class apples with from
100 to 500 Barrels of Fall and Winter Apples

L. O'CONNOR.
The oldest and best known manufacturer of
CARRIAGES, BUGGIES, PHÆTONS, DEMOCRATS & FARM WAGONS

Of the latest design and finish, wishes all people to understand that all work turned out at his new factory shall be first-class A1, without any machinery business, but really hand made and reliable in every respect.
The undersigned aware that machine made work is advertised at a lower price, but it does not stand the test.
I will guarantee a far superior article that can be turned out by machinery, either in stock, shape, finish, or ease of running, etc.
Notwithstanding what others say, it cannot be denied that wherever and whatever I have exhibited in my line the vehicles constructed by me have always carried the best prizes obtainable. (See Prize Lists.)
I have only to request from all residents of Victoria county to oblige me with a call and shall be most happy to show them over my new and commodious premises whether they buy or not.

L. O'CONNOR,
N. B.—Repairs of all kinds done promptly and cheap. A stock of Hobby Horses, Child Carriages, etc., always on hand.
