VICTORIA COUNTY COUNCIL.

The December session of the Victoria county council was called for Tuesday afternoon of last week, but there not being a quorum proceedings were not opened till Wednesday morning, when the session opened with a fair attendance.

THE WARDEN'S ADDRESS. The warden addressed the counil as follows: I have deemed it prudent to call you together again for the purpose of receiving the reports of special committees, to pass the returns to the road commissioners, and also to wind up the general business of the year, with which you will be much better acquainted than the council of next year, and give attention to other matters affecting the general inter-

other matters affecting the general interity of the county.

I would man the attention of the council to the fact that as Mr. Tilley, a member of the board of examiners, has left this part of the province you will remove appoint a person in his place.

The bridge in the village of Cobocoult over the Guit river is completed and is a very substantial looking structure, and reflects great credit on the construction of the bridge will be laid before you.

The new iron bridge in the village of Omemos over Pigeon river will most likely be completed before the close of the session,

The grant of \$34 for replanking and re-pairing bridge over Talbot river in Vic-toria Road village was found entirely in-adequate for the purpose, as the bridge is 220 feet long, so I ordered the commis-

sioner to put it in repair.

I also received notice from the rece of M. esulay that the bridge over Muskoka river is entirely decayed and unsafe to cross. The bridge is en the boundary between this county and that of Simcoc, and and will require your special notice.

The treasurer has found it impossible to make suitable investments of the rail-

way sinking funds to return more than 5 per cent, interest; he has therefore this year taken advantage of the provisions of the municipal act permitting investment of sinking funds on security of real estate, and has invested \$2,000 in that way, which will realize six per cent. at least. I hope this course will commend itself to

COMMUNICATIONS. The warden placed before the council a

number of communications, among them From the deputy-minister of fisheries acknowledging receipt of petition for the erection of fish slides on the Talbet river.

From the inspector of public offices calling attention to the inadequate accommodation provided for the deputy-registrar of the high court of justice, Mr. Grace.

The report of the Omemee bridge committee was then read in committee stating that the masonry and stone work was awarded to Messrs. McNeely & Walters, and the iron work to Mr. Law. It was another completed. The letter stated that it was absolutely necessary for the proper discharge of his duties that more suitable premises be at once furnished, and that in case the county refused to do so he would be forced to

aid to county institutions.

From the assistant-commissioner of crown lands respecting bridge on the deviation from boundary of Draper.

From the clerk of the county of Peter-borough enclosing the following extract from the report of their committee on roads and bridges adopted June June 20, 1884: "That since the county of Victoria have signified their intention of spending a sum of money not less than \$100 on repairs to the approach to Pigeon creek bridge, your committee recommend that the caretaker under instructions from the county engineer keep the Peterboro end of the bridge in as good condition of repair as the county of Victoria keep their end of the bridge."

From the secretary of the department

of railways and canals, acknowledging re-ceipt of petition asking relief from the heavy burden of taxation incurred by the granting of aid to railways.... From the clerk of the county of Oxford respecting the same matter, and stating that the county council of Oxford has taken similar action to that taken by the county of Victoria.

The communications were referred to their respective committees, after which the council adjourned until Wednesday morning, in order to let the committees

They are generally vagrants, and as coroner for the district he found that although the jailer does all he can do they die with comparatively slight attendance. dence of The Warder. I saw the Echo is writing up two mem bers of the present council who voted Mr. Mooney out of the clerkship. What has become of the third? If the action is a commendable one surely Thos. C. Robson ought to be commended too. What is wrong with T. C. R's candidature? Is he not to be mentioned because he made the other lads disclose themselves, or, in other words pick the hot cockles off the fire themselves? Is T. C. too independent for certain friends of the Echo? or is it because T. C. objected to the council giving its printing to the Echo when it had been pronised to the WARDER! Or is it because T. C. wishes to give the printing to the printer who would do it the cheapest, be he who he may? Or is it because T. C. objected to paying \$60 for a treasurer when one could be got for much less.

An adjournment was then made to the parlor where the Misses Pasgoe sang some beautiful songs and Mr. Brown and Mr. Pascoe favored the gathering with some splendid comic readings Mrs. Brown also gave an excellent Scotch song.
