MAPLE HILL

Miss Molatyre, of Lorneville, has been engaged for our school for the

nating year.

The temperance movement is creating much agitation at present in this coality. It would be wise to give the Scott act consideration before bringing it before the people, and no better way can be found than through the temperance societies. Talk it up,

the temperance societies. Telu it up, and when the time arrives people will be able to give an intelligent vote on he question.

The annual meeting of the Conservative association of the east riding of Durham took place at Millbrook last week, when the following officers were elected for the ensuing year: President, Mr. Jno. Beatty; vice-president for Port Hope, Mr. D. Chisholm; vice president for Hope, Mr. Wilson; vice president for Milbrook, Mr. A. Ferguson; vice The long thin leaves of iron, live-like Wilson; vice president for Cavan, Mr. C. H. Winslow; vice president for Milbrook, Mr. A. Ferguson; vice president for Manvers, Mr. Thomas O'Brian; treasurer, Mr. Jas. Reans; secretary, Mr. J. Preston; ass't-sec'y, Mr. H. Weller.

MOUNT PLEASANT. Ma. Thomas Best, who has been moving his grist mili which stood a short distance west of this village, to another site about a mile east of this place, has everything fitted up in first el as style and has commenced grindhe will, on his present site, with all do a better business than ever done

MR. I. Best's foundry is in full blast now and is doing a rushing business. Three or four feams may be seen wait. ng at the foundry almost every day which is a very good sign that things are boowing in the foundry line here.

ROBUAYORON.

28,542 lbs. at a cost of \$4,499, or some here between 18 and 20s, a pound, The entire lot was shipped direct to Liverpool, for the Eagli h market, and previous to being despatched was transled troble X by the official examiner. This speaks well for the butter makers of the neighborhood.

STRANGE .- Three young lade were eroseing the swing bridge one night last week, when to their intense surprise and no little alarm, three balls of fire appeared in the heavens almost directly over them. The glavently hovered over the Commercial house corner, and then steered of towards the Baptist church. At this point the three merged into two and durted down Sherwood street. Passing over the top of the elm tree in front of Mr. Ritchie's the two again to make love to when he courted her. merged into one, and then appeared to plunge into the canal just in front of the Festucion. There is no reason to doubt the veracity of the young ladies, but it seems poculiar and particularly Smiffile.

PORT HOPE. Or Wednesday there was a very pleasant social event at the residence of Mr. Joseph Barnard, North Mona ghan, when his eldest daughter, Miss Kita, was united in holy matrimony with Mr. W. A. Bell, of Smith. There was a large gathering of the friends of both funilies to witness the ceremony which was performed by the Roy, T.

A Freak of Nature.

"Do you want any freaks?" inquired an athletic stranger, with rumpled clothes, which didn't fit him quite quick

"Yes, we are in the market for freaks, but I don't see anything peculiar about your personal appearance. What's your deformity.

"O, I'm a sure enough freak," replied the man.
"Well, what is the peculiarity?"
"The peculiarity! Do you see those

As Iros Tree.

The long thin leaves of iron, live-like even to the hair-like fibres of the twigs even to the hair-like hores of the twigs and branches, wave tremulously in every zephyr, and the whole tree, painted artistically, has so close a resemblance to the real tree as to deceive the acutest observer at the distance of five rods.

The Right Sort of Man. You, will find, as a rule, that the men who are favorites with men, are the best and truest in their relations to women. ing again. Although Mr. Best always Yes, the men who like sometimes to find liest class work in the milling line, turn their backs on all women, and "go off with the other fellows," and have a machinery in his mill overhauled, he good boyish time on the water, or the able to give better satisfaction and to mountain, or in some other man's to trust their happiness to those whom other good men esteem good fellows; but if a man is avoided by men, shun him. It is he who has flirtations that

come to nothing, and has "not been very nice" to the girls who have broken their engagements with him; who, when he marries, wrings his wife's heart, if she has one, and spoils her temper, if she is naturally an angel. Manly men BUTTER .- Mr. J. Per haps it may be explained in this way: Friendship of a sublimer sort is what love becomes after a year or so of marriage, and he who is friendly to the very depths of his soul, enters into this state happily, and is ready for all the delights that follow. But the man who is capable of nothing but a fleeting af-fection which ever pursues new objects, and cares for no woman when she is won, hates the domestic ties, and becomes detestable in consequence. It is the man who would die for his friend, and for whom his friend would die, who makes a miraculously happy wife of the woman to whom he scarcely knew how
