EVENTS OF THE DAY. Mike Foley came in first on the 100 yard race, but it being decided to have t run over again he came in behind. The committee in charge carried the program through in a most satisfactory manner. Mr. D. McMillan acted as starter in the sporting events, and Messrs.

Millan judged the dancing. The Grand Junction men proved themselves to be towers of force on the tug of war. They drew the last man of both the Nipissing and Midland livisions over the line, although the northerners got the advantage on the start each time. Mr. Dan Kitchen's ruddy face beamed forth at the picnic. He has left the road now, but he does not seem to have lost

any of his old railroad spirit. Conductor Morris did not put in an appearance; but it wasn't his fault. He was ably represented, however, by Brakeman McNesly, his right hand man. One of the attendants of a booth on the grounds was struck on the forehead by the glass of a bursted soda water bottle. Dr. Falkner, of Foxboro, who was on the grounds, performed the

necessary surgical operations. Mr. Jim Scanlon, of Haliburton, made a very satisfactory master of ceremonies. His cheery voice seemed to inspire the dancers with spirit and vim-Piper McDonald, from Peterborough,

RECEPTION TO THE FOLUNTEERS AT BETHANY.

The volunteers from Manvers, with "D" company, Midlanders, reached home on Wednesday noon. They were met at the station by an immense concourse of citizens and the Bethany band. A procession was formed, headed by the band, and after merching through the principal streets drew up at the town hall where they were briefly addressed by Dr. Brereten, M. P. P. The hall was beautifully decorated for the occasion. Then a din-

PETERBORO RECEPTION.

The following extract from the Peter-bore Review will prove interesting to our readers:—The officers of the Peterboro company stated at the reception that the men were anxious

TO REACH THE FRONT, and Lieut. Brennan says that, while going down the Saskatchewan before the battle of Batoche, he could hear the men talking about the expected engagement and hop-ing that they would be in time to assist in capturing the rebel stronghold. It might be thought that these expressions were cheap boasting, but the men proved that it was not. They exerted themselves that it was not. They exerted themselves to the utmost to hurry forward with the supplies never hesitating to plunge into the water when they ran aground, or do anything that would hasten their progress. But when Saskatoon was reached they learned that the decisive engagement had been fought and that Riel was a prisoner, and from that on they did not work so cheerfully, as the incentive which had caused them to work so here! was cone. ad caused them to work so hard was gone. Among those in the Lindsay company of the Midland battalion who took part in

THE PAMOUS CHARGE at Butoche were Joseph Keele and Wm. Pratt, former Peterborough boys. It is evident that the members of the Midland companies who took part in the engagement have not a strong desire to talk of the affair, either on account of their natural modesty or because they are tired ot it—that is, judging by Keele and Pratt. Joe was more anxious to ask the reporter who met him at Port Hope, questions about Peterboro. After his enquiries had been answered he talked of the war. He mys that on the first day of the battle the boys were a little nervous. The Midland was in the reserve, and when the "singers" flew over their heads the music had an effect the opposite of soothing. During the day an order came for them to charge the ravine, and though they pre-pared to do it, and would have done so, it was not without misgivings. Later in the day they did enter the ravine to cover the battery men who were bringing out a wounded comrade, and they had a warm time. After the first day the nervousness was gone, and the boys "got used to it" to such an extent that they took up their guns and went out as coolly as if they were going out duck shooting on Rice lake. gave was largely one of joy at having an opportunity to punish those who had man to fall, Private Barton, was shot by although they had narrow escapes and men

several concerts were held. The most successful was one given by the Midlanders on the evening of July 2nd. The other regiments were invited and General Middleton patronized the entertainment. Major Hughes presided. The program was of respectable length, and Private Jas. Hannah, who has been seen at many entertainments in Peterboro, gave an exhibition of club swinging that received great praise. To show what could be done in the way of giving an entertainment while "so far from civilization," the program is here given:-Song and chorus, F company, (Portsmouth); song, Pte. "BLEST BE THE DEAD WHOM THE RAIN FALLS ON."

On Tuesday afternoon the Oddfellows of Lindsay observed what is intended to be an annual event, i. e. "Decoration day." Recoration days have long been observed in the United States—the custom of placing floral emblems on the graves of soldiers who fell in the civil war first bringing the day into promi-

It is a very proper and civilizing custom, so long as it is not carried to ex-tremes, of which there is no danger in this district. To fix up the graves, plant flowers and ahrubs and otherwise permanently decorate the graves of friends are duties that belong to springtime. They too are much more practised than formerly, and undoubtedly the ultimate result ly, and undoubtedly the ultimate result will be a springtime planting day in churchyards and buriel places in general. Tuesday, however, was simply a decoration day. The floral emblems were simply placed on the graves as tributes to the memory of those of the brethren who have merely added the additional link to the chain.

As a train was coming from the west one day last week, a little this side of sheep of having asked for 1,500 more men, and the coat sleeve was lost. The following is an extract from Gen. Middleton's official report of the battle of Batoche:—In one of the English papers, I am represented as having been waiting at Fish Creek for reinfercement, of having asked for 1,500 more men, and

to the chain.

Many others, not members of the order, acquiesced in the request of the Oddfellows and decerated the graves of their friends, so that next and succeeding years will doubtless witness "Decoration Day" in Lindsay on a much more general scale than that of Tuesday. However for a beginning the turnout exceeded our expectations.

At 2 p. m. the brethren assembled at their hall on Kent street, where an hour was occupied with receiving friends and preparing for the ceremony at the ceme-

Notes From the Battlefield.

The following extract from a Winnipeg paper will prove of interest. Some of the Midlanders who were not at Batoche during the fight would like to make it oppear that they were. In fact, to judge by their talk, one who was unacquainted believe that it was those same parties who did all the fighting. One man who was not within ten miles of the scene of action, when the victory was won, told that he shot three breeds, ere he got an old Winchester rifle which he is showing around, and which he had presented to him by Capt. Young, Winnipeg Field

One does not need to be a millionaire to own a good watch in these times, and if you require one you might just as well get it now as wait until you lay up another \$50,000. Watches were never lower in price, and

NOW is the time to purchase. There is a right and a wrong way to buy a watch. There are many who have tried the wrong way first, because it seemed the cheapost and most alluring. It is to buy from irresponsible parties, travelling "takirs" and frauds, or from persons at a distance of whom

you know nothing. You have no recourse if you are deceived by them. The right way is to buy from an established firm, one that values its good name, and that will on that account deal with
