

MILLINERY AND MANTLE PREPARATIONS.

We are now making very active preparations for the coming season in our Millinery and Mantle Department.

Miss Aris, who is in charge of this department, is now in the city with the object of obtaining every information relative to the coming season. A marked feature this season is the great efforts which are being made to obtain effects dissimilar to those of former years, and as a result it has introduced a large variety of new material which showing in a great deal of color, bright colors evidently will be in favor in all the popular dress goods colors. They are well adapted to display. Hats still continue to be large and very much varied in shape, and are showing in all the popular dress goods colors. Gilt cord also seems to be in favor this season to finish the edge of hats, ribbons, many of which are very handsome, also show the tinsel effects. Plain velvets and plushes still hold a prominent place, a somewhat New Make of plush distinguished by a bold stripe is among the rich trimmings, especially in fancy colors. These hints one simply drop as an indication of what may be expected.

Crashoppers infest this district. What next!
Metherell has a new and complete line of school books.
Mr. N. R. Blackwood has received per express from St. Hill, England, a thoroughbred bull dog named Bruce, whose sire is the famous Richard our de Lion the winner of over 100 first prizes. The charges for carriage were \$4.
Mr. Metherell is ready to supply all the school boys and girls—no school girls and boys—with new books. See his new advertisement.
The speeches delivered at Bethany on Monday night were numerous, some fifty in number. Our townsmen, McMurchy, Underwood and Skinner grew eloquent. Indeed one would have imagined to hear Skinner about that his comrade's eloquence had changed his political views.
Read Mr. New story "Called Back." It begins next week. The ladies all are delighted with it.
Mr. R. Bryans inserts a new notice this week. Read it sure. The cold weather this week makes one think of Bryans every time.
Remember the rifle association meeting next Tuesday evening in the town hall.
Young men, the Rev. M. L. Pearson announced last Sunday that on next Sunday evening he would preach a sermon to young men. A cordial invitation is extended to all. Strangers accommodated with seats.

We would remind the public that hot or cloudy weather does not affect us, as we use the instantaneous proofs. J. A. Scott & Co.—84.
Our boys were defeated at baseball on Tuesday last by the Metropolitan, of Toronto. The score stood 3 to 3 against Lindsay. Owing to the Lindsay catcher's hand being sore the Mets were enabled to score a few runs more than they were entitled to.
Mr. R. Smyth has in a new advertisement this week. Be sure to read it and all others.
We have seen a splendid piece of workmanship in the form of a lobby or day built by Mr. Hamilton, carriage and wagon-maker of this town, for Messrs. Eby, Blain & Co. of Toronto. Just call in and see it for yourself. We like to hear of Lindsay manufacturers and merchants finding sale abroad.
See Mr. A. Campbell's new advertisement. If you have time glance over all of them.
We have received a copy of the Kindergarten and Drawing School Monthly, published by Selby & Co., Toronto, which bids fair to fill a long felt want. The Kindergarten department is edited by Miss Ade Mason, a lady of much culture, principal of Toronto Public Kindergarten, and contains songs, musical stories, etc. of value to a teacher. We recommend the work to all teachers of junior classes.
New Messrs. Dundas & Flavelle Bros' new advertisement. In fact read all advertisements.
We have received from the Distribution of the legislative assembly copies of Mr. Brown's report on part of the waste of Hudson Bay, etc., that part belonging to Ontario; also the report on the Educational Force, and of the Educational Land Lottery for Ontario. Mr. Brown is the ordinary Magistrate for that district. Any one wishing to read these will find them in our office.
A joint meeting of the committee organized by the committee of the county of Victoria and Wellington to effect a settlement of the amount to be paid by the county of Hamilton toward the expense of administration of justice was held at the court house, on Wednesday of this week. Mr. James Power, solicitor for the county of Hamilton, presided. Messrs. J. H. DeLamere, county clerk of Hamilton, and Mr. Norris, Hamilton, presided. A resolution was passed that four hundred dollars per annum should be paid for the current term of five years, the same amount as in the past, and the respective committees will properly confirm this agreement.

That the cost per head by the new route is remarkably low is shown by comparing it with the rates from here to London. They are about as follows:—Toronto to Montreal, 2s.; Montreal to London, 1s.; insurance, 7s.; Montreal to London, 5s.; food and stables, 16s.; charge for selling, 20s. total, 103s.
TRADE IN THE STATES.
New York, Aug. 26.—The encouraging features of the general trade situation heretofore reported in this column have been repeated in special telegrams received this week. More specific advices from Boston state that while the feeling in trade circles is more encouraging, the gain in the volume of trade which has taken place is not large. Still it is of significance that at Philadelphia, Cincinnati, Memphis, and Burlington the leading jobbers record better sales and an improved feeling in trade circles. At Chicago there has been some depression, owing to the decline in the price of wheat, but otherwise there is no change. At St. Louis the threatened strike of the Gould road operatives belonging to the Knights of Labour depressed trade by causing the withholding of orders for material. At Cleveland it is stated that trade is fair for the season only. At New York only a moderate advance of the reports recorded above is true.
Leading dealers in staple lines at New York regard the general improvement shown here, mainly in cotton goods and wool, as pointing to the usual excess demand customary at the opening of autumn. The necessitated outlay in the fall is heavier than that in the spring. General opinion of the market anticipates a continuation of revival in trade in the existing improvement. The sales of wool at the east show no signs of a reaction from the activity of the past six weeks. Prices tend upward, and the volume of sales is heavier than at the corresponding period last year. A clear advance of 1c. per pound since July 1 has been made on several varieties. In the east business in dry goods is fair. The most noteworthy advance is in bleached cottons, in which prices have advanced 2 1/2 per cent. Brown sheetings are higher in one or two instances. Stocks of cottons are relatively small, and the restriction of output continues.
The improvement in iron at Pittsburgh, Philadelphia, Cincinnati, St. Louis and Chicago is mainly in pig iron and plates, for which orders have increased. There has, however, been considerable enthusiasm respecting the gain. The improvement in prices for steel rails, reported general at \$1.50 to \$2 per ton, has amounted to less than \$1 in reality. The meeting of the Long Branch conference of steel rail-makers is to put prices up to \$30 per ton, against nominally \$27.50. The Renaissance Iron and Steel Works, New York state, having reorganized with new capital, will build furnaces and continue work.
The wheat market has been quite depressed, and within two weeks has declined 10c. per bushel, from influences heretofore noted. Corn remains partly in sympathy, but relatively firmer.
Provisions are low and weak. In grocery staples the distribution of sugar has slightly improved, while coffee and tea are behind same time last year. Dairy products irregular, with cheese depressed. There were 190 failures in the United States during the past week, as compared with 160 the preceding week, and with 175, 170, and 152 respectively in the corresponding weeks of 1884, 1883 and 1882. About 80 per cent. were those of small traders whose capital was less than \$5,000. Canada had 19, an increase of 2.

wanted a few; bulk of stock changed hands; good quality shippers' steers selling at full last Monday's prices; common stock dull and lower; good 1,100 pound steers brought \$5.00 fair, 1,152 pounds, \$4.66; good, 1,200 to 1,422 pounds, \$5.00 to \$5.00; market closed steady; all not sold were shipped out in receipts of six stock to-day were six first hands. Sheep and Lambs—Fresh loads and three loads of sheep, and four loads Canada lambs held over from Friday's market ruled slow, and at full weak Friday's prices on sheep; lambs were a trifle stronger; for the best ones reports from eastern points were unfavorable. Sales ranged—Fair to good Canada lambs, \$5.20 to \$5.35; choice, \$5.60; good Western sheep, 77 pounds, \$3.55; 72 pounds, \$3.25; 100 pounds and heavier, \$4.00 to \$4.15; Western lambs, light last choices to good lots, \$4.75 to \$5.20. Hogs—Fresh receipts of sale hogs to-day were only 11 loads, and with continued light supply and fair demand on Eastern and local account market ruled stronger, and offerings largely points were unfavorable. For good cornfed hogs 5c. higher. All offerings changed over at following figures—Good lots of selected Chicago, \$5.00 to \$5.05, mostly \$2.05; good stubble hogs, \$4.72 to \$4.85; medium in fair demand at \$4.70 to \$4.85; light and common grades ruled at \$3.75 to \$4.50, as to quality.
CHICAGO.
August 26.—Cattle—Receipts, 2,200; shipments, 800; natives steady; sales of shipping steers, 1,350 to 1,500 lbs., at \$5.40 to \$6.00; 1,200 to 1,350 lbs., \$5 to \$5.40; 950 to 1,200 lbs., and mixed, \$1.75 to \$4.00; Texans, \$2.50 to \$4.00; Western ranges, \$2.75 to \$3.50; hogs, \$4.00 to \$4.75. Hogs—Receipts, 6,500; shipments, 2,500; market strong, and 5 to 10c. higher; sales of rough and mixed, \$4.00 to \$4.25; packing and shipping, \$4.20 to \$4.40; light weights, \$4.30 to \$4.50; skips, \$2.75 to \$3.30. Sheep—Sales of natives at \$1.75 to \$4; lambs, per head, 75c. to \$1.
THE DAIRY MARKETS—INDESBOLL.
The following is the official report of the Inspector of the market this week:—Holders asking more than cable warrants. No sales. Cable 38c. 6d. at 5 p. m. For the corresponding week last year fourteen factories offered 5,504 boxes cheese, mostly first half August make; 160 last half July sold at 10c. Market very dull. Buyers apparently have no orders, and holders not anxious to sell. Twenty-one factories and ten buyers present. Cable 52c.
