OUR SCHOOL.

To the Editor of the Warder. DEAR SIR,-Will you kindly allow me a small space in your columns for a few remarks on the scheme, formulated by some members of the board of educution at its last meeting, to relieve Inspector Knight of the duty of carrying out the promotions in the public schools, imposing it on one of the assistant high imposing it on one of the assistant high school teachers, and making the latter principal of the public school. The reasons for this change are thus stated:

(1) Mr. Knight is reporting on his own work; there is no appeal, and consequently teachers are continually receiving pupils unit for their reoma. (2) The teacher preparing candidates for the entrance examination has enough to attend to in his own class without the additional duties of principal of the public school.

one adopted in many other places with success.

The second reason is worse than the first, for if a bucker has enough to ecompite of its beacher has enough to ecompatite of the Board of Health. In reference to clause the council recent will have time for the fatter of teacher will have time for the fatter of teacher will have time for the public school. The reason is abourd.

But, arr, there is another point that might be considered. If any such change is contemplated, why should as amistant teacher from the high school be taken to perform such important duties in consection with our public school. The two institutions should be distinct, and it does seem to me that the more rational arrangement would be to let the high school assistant stick to high school assistant stick to high school session to the public school work and the model of first into ground work, and the model of the public school work only, is inconsistent, to any the least; and though the present arrangement was annotated at the time of its inception, it was only as a temporary capacitant, and not us a permanent arrangement, because, being in direct opposition to the school regulations it in the school house both were villaged, and disade be abeliahed for a more legal one.

I am years, deep.

case was tried at the last chancery sit-tings, before Mr. Justice Proudfoot, and the action dismissed. The plaintiffs, not entisfied with this, set the case down not attisfied with this, set the case down for rehearing before the full court at Toronto, and the case was argued on Friday last, when the judges unanimously affirmed the judgment with costs, holding that the plaintiffs had not carried out their agreement and the defendants were not in any way bound. THE SMALLPOX SCOURGE. The official return of the Health Department of Montrealgives the total deaths from small pox in the city last week at 102, of which 92 were French and the balance English. Sixty-eight were of children under five years and 27 of various ages

The number of deaths on Saturday and Sunday was 26. There are now 68 patients in the Civic hospital. The mortality last week was ten in excess of the previous week. There were 30 deaths in adjoining villages.

SUBMITTED TO VACCINATION. The 150 nail makers who went out of Peck, Benny & Co. and Pellew, Hersey &

Chara — Crops are excellent through this section this year, though the harvest is very late. Wheat is a heavy crop alis very late. Wheat is a heavy crop almost free frem rust and nearly all of it plump in the grain. To be free from all exaggeration, we estimate the average yield at not less than twenty bushels per acre. Outs are a good crop and as we are somewhat isolated here, the grasshoppers are not so numerous as in some other places, hence the farmers will have the eats to thresh themselves. Other grains and the root crop are equally in propertion to the above mentioned crop. We are to the above mentioned crop. We are well-blessed with a good harvest and are

thankful therefor. Monamonity. - In the western part of this township, the stillness of the mid-night hour was broken and the neighbors suddenly aroused by the unearthly acre-chsuddenly aroused by the unearthly scre-ches followed with a peculiar "tehee" of a something apparently travelling in an easterly direction. It has caused a great deal of comment. We are on the alert and if successful in capturing it, we will exhibit it at the Lindbay fall show. Surely it was not the Dairymple ghost spoken of so frequently in the Lindbay Post making us a visit? ing us a vusit?

SONTA

Subben Death. - We regret to chronicle the death of Mr. Thos. Malyon from an accident, on the 2nd inst. The deceased was engaged hauling in grain on the farm of his father-in-law, Mr. John Beacroft. The load upset and Mr. Malyon leaped in the opposite direction, failing on the wagon, sustained internal injuries. Medical aid was summoned, but of no avail. IT PASSETH ALL UNDERSTANDING.— A strange incident occurred in connection with the late election, at the polling place (brick school house, Fleetwood) sub-division No. 4, Manvers, which is worth space in THE WARDER. A farmer named Thos. Pritchard, who lived on con. 13, lot 25, Manvers, died last summer : but his name appears on the voters' list of 1884. Consequently if he had been still living he would have been entitled to vote at the late election. However, this Thomas Pritchard has a son Thomas, who is living in Omemee, and not legall ham is archited and comes twice a centitled to vote in this municipality regularly to examine the work. But as the name Thomas Pritchard appropriate Rickaby is doing a flourishing business. pears on the voters' list this Grit conceived the idea of coming here from Omemee, slipping in without being questioned, and casting a vote in his land of the line of dry goods and groceries. He has taken in a fresh supply again.

Accident.—Mr. John Graham, of Palestine, met with rather a sad accident who at once objected to sly Mr. Pritch-ard's voting. He made no excuse, but got outside and away from the place with as little noise as possible. This in itself is sufficient to show what unfair means will be used by a Grit in order to accomp the baby boys of East Durham, before they have ceased to suck their mothers' breasts, cut to Mr. P. We were favored with a short visit from Mr. Will Hughes, who belonged to the 90th battalion of Winnipeg, and who fought in all the battles during the late campaign. He looks thin, but is as lively as ever. We are glad to hear he is going to reside nearer home than he was before.

Our boys of the praying band held a very successful service in Newry last Sabbath. The church was filled with eager listners and all seemed pleased at the efforts of the young men in trying to

WEAT PROPLE THINK.—Some thinks that the central prison enquiry will entail a great amount of unnecessary expense on the country. With regard to the treatment of prisoners there seems to be a vary general idea affect that if said prisoners had behaved themselves and tried to carm an honest living they would not have been in the prison; and further, some think that prisoners are used too well, fed on beef and so well fed; that they are dainty. Many honest men, and their Wallier crief.—The officers and men of the Omemee volunteer company were greatly disappointed when they found there were no official orders for the 45th to go to Kingston. Omemee would have made a grand rally.
