Pleasures of the Past.

The past hath charms that we to-day

Our blighted hopes, our friends long

The gay and buoyant sports of youth,

The bounding pulse, the hopes forecoth

k emember with a sigh,

The retrospective eye,

Are all so firmly oast

Mile-posts of pleasure, that allay

In favor's eve, and prightly shed

That bound the realm of joy ;

The fond careas, the mother's care,

More dear than present jays, are

Where once our rambles led,

Those pleasures of the paste

Are thoughts that long shall last,

In dreams of yore the hills and vales

Are clothed in verdure; and the sails

A story has been set affect which if it has foundation, reflects deeply upon the standing of the parties concerned. We refrain from giving the names of either party us we are of office the foundation if foundation there he, has been exaggarated. Neither do we condemn the one justify the other, merely on the hear may of different individuals. But we do say the matter should be thoroughly examined before the proper tribunal and in this case we are of opinion the church is the proper one. Let both parties be brought face to face before the courts of the church and the matter thoroughly sitted. If this be done and people be made aware of the verdict there will be less possibility of damage being done by the evil stories of scarrifour pengus. It is an old adage. One story is good till another is told.

NORLAND.

Our village is undergoing quite a change lately; building operations are quite brisk, We hear the noise of the hammer on every side. Dr. Martin is putting up a fine residence and G. W. Alley is creeting a large store; Mr. Elliott is talking of putting a new addition to his house; and also we have had the school house repaired and a new bell on it, which idds greatly to the appearance of the village.

FROST.-We have been visited lately with a heavy frost, which damaged all the gardens and injured all crops greatly. We have so much rain farmers are complaining that they sannot save their crops in good

PERSONAL. -- Our village is througed with visitors at present, Mrs. Phillips, the Misses Phillips and Master George Phillips, of Toronto, are here viciting their friends, Mrs. H. Le-Craw and Mr. Campbell; also Mrs. McClary and family, of Petrolia, are the guests of Mrs. John Harshaw; Miss Minnie Hastings and Miss Serah Hactings are spending their holidays under the parental roof. Miss Ida Ross is visiting friends in Lindsay. I hope she will soon return. We miss her very much, especially A. P. is getting very despondent with regard to her absence.

Spont.-There was a party of pleasure seekers went back to Sheldon's lake to pick huckleberries not long ago. The party consisted of Mr. Henry LeCraw, Mr. George Bell, Joseph McLauchlin and the three misses Phillips, of Toronto, also Master James Hastings, Samuel Hastings and the Misses Hastings. They got loads of berries and returned late in the evening, in good spirits but very much sunburnt and weather besten, and with torn kid boots, ossleague seekers went back to Shelbeaten, and with torn kid boots, especially the ladies. They recembled very much the gallant heroes of Batoshe on their return from the war; but putting all things together they enjoyed themselves exceedingly well, and if spared are ready to take another trip to Sheldon's lake next

OVER 20 YEARS' EXPERIENCE.

The most successful dentist in this part of Canada. The GOLD ALLOY used by Mr. Neelands for artificial teeth is a grand success, notwithstanding the faise statement made about it by a Lindsay dentist jealous of Mr. Neelands' enterprise in buying the patent right. This individual exhibits to his patrons a piece of gross metal resembling soft solder or lead, and tells them it is a poison and the same as Neelands' Gold Alloy, which is a falsehood, as the Gold Alloy used by him ontains both gold and silver and no poison.

Mr. Neelands inserts numbers of perfect fitting sets of teeth for people in Lindsay, Ops, Mariposa after this dentist had tried and entirely failed to give satisfaction. Black Rubber has been used by Mr. Neelands for the last 17 years. The only genuine English Black Rubber kept constantly on hand, Teeth inserted on any plate desired. In extracting teeth with gas it is a common thing for Mr. Neelandsto extract from 10 to 15 teeth with one dose of gas and the person leaving quite well and strong. Mr. Neelands made a special study of this gas under Dr. Cotton, of New York, the inventor, who writes to Mt. Neelands that he has given the gas to 136,613 persons without an accident. Teeth filled to last a life time. One lady savs she had her teeth filled with gold by Mr. Neelands over 15 years ago, and her teeth are all good yet.
