THE ESCAPHO MURDERER. - A Pather to the descriptions given in your late

last. He was medium height, dark complexion, a sour on the left side of his face extending from the eye to the mouth. He said he came from Righfield and was going to Peterbon and as he had no money he was attempting the journey on foot. He is evidently not a professed sharper else it would have been plain at a glance to travel an opposite direction in spite of all the instructions given him by his various interrogators could not fail to place him in the light not of a fool but of a suspicious character. He is travelling northward.

He leaves a wife and two children, who were depending upon his work for a livelihood, to mourn the sad loss and battle with life's ruthless storms.

Your directors are pleased to be able to report that the ecciety still inues to progress. The fall exathitian hold at Victoria Road on Tuesday and Wednesday September 29 and 30th, 1885, was very success ful the exhibits in every class being superior to those of former years and the receipte at the gate were much in excess of those of any former years which gove to show that the public consider it an exhibition worth visiting. Your directors regret that they have not been able to carry out the improvements recommended in the last directors report but as the society is in a better financial position than it was a year ago we trust that the directors for the current year may be in a position to do something in the
