over a river crossing a boundary line within the meaning of this section."

This section is very plain, but the application of it to the bridge in question is more difficult. I understand that upon the boundary between Ops and Massipeas the road is not built for a considerable distance owing to a swamp, and that for the concession line between the first and second concessions of Ops is used by perof revenue over which the council can deviation means going from the line to avoid the obstruction and returning to it adverse balance may be wiped out as soon as practicable without unduly increasing the county rate.
