...E COBOURG, PETERBORO & MAR...ORA RAILWAY DISPOSED OF AT ...CTION.

The Cobourg, Peterborough & ...arora railway and mining com...'s property was sold at Osgoode ...all, Toronto, on Wednesday, pur...ant to a judgment obtained by ...e Bank of Toronto against the ...pany.

...t noon Neil McLean, Chief ...k of the Supreme Court, put ... the property at auction. The ...st bid offered was $25,000, the ...mount being gradually advanced ... $32,200, Mr. George Pearce ...ing the buyer. The Toronto ...Globe and Cobourg World both ...te that Mr. Pearce is from ...terborough. This is a mistake. ...r. Pearce is not of Peterborough. ...he buyer is probably the brother ...f Mr. J. B. Pearce, of Norwood, ...who has been for the last number ...of years interested in railway ven...tures. But whoever the Mr. ...Pearce is he has made a good bar...gain. The property bought con...sists chiefly of the following:—

12 miles of railway from Cobourg ...to Harwood, ironed; 12 miles from ...Rice Lake to Peterborough, graded, ...one and one half miles of which is ...ironed and leased to the Midland ...Railway; 9 miles from Peterborough ...to Chambliss on Chemong lake; 9 ...miles from the Narrows on Trent ...River to Blairton, ironed; station ...premises and office furniture at ...Harwood, Ashburnham, Mud Lake ...and Blairton; rolling stock, con...sisting of five broad guage locomo...tives and a number of passenger, ...baggage, flat, ore and other cars; ...machine and blacksmith shops at ...Cobourg, with plant and machinery; ...2 acres of land at Cobourg, with ...frame station, office furniture, ...freight shed, grain warehouse and ...water front; about 20,000 acres of ...mining lands situate in the town...ships of Lake, Marmora and Bel...mont, on which is situate a num...ber of stationary engines, boilers, ...steam drills and mining plant; ...steamboat and barge on Rice Lake.

Railway men here estimate the property to be worth at least $150,000. Even the rails, if sold as scrap iron, are worth what was paid for the whole property. There are 31½ miles ironed, averaging 88 lbs to the mile. This gives 2,772 tons. The rails are worth $13 per ton.—[Peterboro Review.

News of the Week.

Bowmanville expects to pay all its floating debt this year.

WILLIAMS MEMORIAL.—Mr. Gallety, treasurer of the Williams Memorial Association, received recently a subscription list to the fund, from Manvers, of $54.00, collected by Mr. J. J. Preston.—[Port Hope Times.

An evidence of the vitality of the Canadian youth is found in the fact that a traction engine ran over a boy in Orono last week, without breaking a bone or injuring him, other than a few bruises.—[Port Hope times.

"The Reform press has been very busy for some time slandering Mr. John White for being a member of a colonization company, and Mr. Edgar made charges against that gentleman which have been proved false, and the Knight of the Gas-meter has been forced to acknowledge that he got his information from hearsay. But Mr. John White is not the only member of parliament who is connected with North-west colonization and other companies incorporated under the Canada Joint Stock Companies' Act; we extract the following information: On page 71 of that book we find the name of Hon. Alexander Mackenzie as one of the corporators of the British Canadian Colonization Company. On page 75 the name of Senator Scott appears in connection with the Ottawa and North-west Land Company, and associated with him as the directorate such prominent members of the "Reform" party as Messrs. Blackburn and H. N. Bate. Then again on page 102 the names of Mr. Gunn, M. P., and Mr. James Trow, M. P., figure as incorporators of the Highwood Rancho Company. A number of others might be mentioned, but these will serve to illustrate that Mr. White is not the only member who has associated his name with enterprises of a nature which so deeply injure the feelings of the devoted Edgar."—[Oshawa Vindicator.

"Not satisfied with vilifying men's political and private character, they have now descended through the aid of foreign papers to invade the family circle, and villainously attacked the character of one of Ottawa's most estimable ladies. The last specimen of grit falsehood is the following, clipped from what purports to be a telegraph despatch from Ottawa published in the grit organ of Belleville, on the 21st ult.: 'Bowell and John White were *asked* whether they wished to give any evidence or make any statement but *declined*.' Upon the authority of one who was present in the committee when Mr. Edgar closed his case, we give the statement contained in the above extract a flat denial. Neither of the gentlemen named was asked to make a statement, or whether they wished to give evidence, and consequently they could not have declined. What did take place was this: When Mr. Edgar had closed his case, Mr. Davies asked if the gentlemen concerned were going to make a statement, and the chairman replied that he did not know that it was necessary, but if he, Mr. Davies; would call Mr. White, who had just left the room, he would send for him. To which Mr. Davies replied, no, he was not going to send for him nor ask him to give evidence, but if he wished to do so he might, when Mr. Bowell, who was sitting near him remarked: 'You charge a man with doing a wrong and then want him to prove he did not. You had better show that any wrong has been done before you ask gentlemen to swear they are innocent.' Out of this incident the grit press is circulating the story that Messrs. Bowell and White 'declined' to give 'evidence,' thereby giving the impression that they were afraid to do so. If there was ever a vile conspiracy to ruin men's reputation this is one, with Blake as the Mikado and Edgar as the Lord High Executioner. It will fail, and the creatures will find that their course of slander will prove a boomerang. Edgar's cowardice in refusing to give the name of his informant shows that the whole scheme is one of slander and that the purloiners of private telegrams and chattel mortgage hunters are vile enough to enter into any conspiracy to ruin the fair name of their political opponents, even if they have to enter the private family circle and slander its inmates to accomplish their ends.—Belleville Intelligencer.

Prompt results will follow its use in cases of Sudden Exhaustion arising from Loss of Blood, Acute or Chronic Diseases, and in the weakness that invariably accompanies the recovery from Wasting Fevers. No remedy will give more speedy relief in Dyspepsia or Indigestion, its action on the stomach being that of a gentle and harmless tonic, exciting the organs of digestion to action, and thus affording immediate and permanent relief. The carminative properties of the different aromatics which the Elixir contains render it useful in Flatulent Dyspepsia. It is a valuable remedy for Atonic Dyspepsia, which is apt to occur in persons of a gouty character.
For Impoverished Blood, Loss of Appetite, Despondency, and in all cases where an effective and certain stimulant is required, the Elixir will be found invaluable.
In Fevers of a Malarial Type, and the various evil results following exposure to the cold or wet weather, it will prove a valuable restorative, as the combination of Cinchona Calisaya and Serpentaria are universally recognized as specifics for the above-named disorders.
