A Word With Our Contem poraries.

From The Torouto Mail Dec. 31st. Quebec Chronicle, the Kingston News and other Conservative journals units in ascribing the overwhelming defeat of the taine apostles of French-Canadian nativism course pursued by the Mail, and no doubt immemorial practice of both political catholic church in Ontario as well as in Quebec. We should have apologized for the execution of RIEL. We should have recognized the right of the French Canadian people to exact from the party leaders such favours and privileges for themselves and for their Church as she or they may think fit to demand, We should have been silent about the Separ ate school amendments. True, those amendments deprived the Irish Catholic

parent of the free exercise of his parental rights, and gave his church a status enjoyed by no other religious body; but what is that compared with the importance of the Carholic vote? We should have permitted his Grace the Archbishop to interfere at will with the Public sohe is and we should not have breathed a word against the traditional custom of granting the Church special representation in the Dominion and Provincial Cabinets. To resist the steady march of the Church in the direction of an ecclesiastical ab solution, to demand that she should be placed upon the same footing as other denominations -this was to set creed against reed, and, what is worse, to injure the party's chances. Instead of serking to introduce the principle of religious equality, we should have striven to outbid the reformers for the Church's vote and influence. Conducted in accordance with the conspiracy of surrender to which both sides are committed, the Mail would
