The Victoria Warder
FRIDAY, FEBRUARY 4, 1887.

BALGAYRON.

Special to the Warder.
News of gospel is not very plentiful just now. The last couple of days a drilling rig has not run and the village was quite sleepy.

Miss Howell of this village presented her husband with a daughter.

Five rigs, four cutters and one plane are still down to Mr. J. Braden, Verne and kicked up their heels in a noisy style.... The band is taken at a stop by reason of the absence of the orange band leader in the village.

Two baptismal elections are going to occur some of the girls on the band, as in this village there is a certainty of conservatives to the tune of forty.

NORLAND.

Special to the Warder.
We are at present visited by a heavy snow, we hope it will diminish the snow

Mr. H. Schmidle has left Mr. Braden's employ, and his journey is filled by Mr. Matchett, a very clever and obliging young man, a graduate of the local school to Lindsay to study law.

Very about our school report... Colors very prominent here at present.

We're congratulating Miss Minnie Hartung on passing the entrance examination in Lindsay.

With some one of the readers of this paper inform us of a remedy to keep moths out of fur.... When are those two weddings coming off.... The orange show is to take place on the 11th of February. A good time is expected. Come one. Come all.

DARVYLIA.

Special to the Warder.
Mr. Wm. Lewis lost his infant son a short time ago. The child had been ill but a short time and was very suddenly carried off.

Sterling.—There has been a great deal of sickness in this neighborhood lately. Mr. John Chrysler has been troubled with a very bad pain in his head and for some time was quite deaf, but is now recovering. His infant son was also very low with water on the brain, but is now quite better, owing to the skillful treatment of Dr. High.... The youngest daughter of Sam. F. Dyer has been very low with inflammation, but is now recovering.

Society.—A ladies' aid social was held on Thursday, 18th, at the residence of Mr. Wm. Ivory. The weather was very disagreeable and we doubt kept many away, but those who were there seemed to enjoy themselves immensely, and the evening passed off to the entire satisfaction of everyone except the master keeper.

Covered Parades.—The farmers here have all finished their clover threshing and a good amount of it has been marketed.

The first...—Wheezing cough is very prevalent and has invaded our school down pretty well.... The books here have become very bad, and it is hoped the present will improve them.

Ways about organizing a literary society for our young people!
