ONE SLICE OF BOODLE.

There was nothing more about the Mackenzie Government in the matter of looking after its friends.

There was nothing more about the Mackenzie Government in the matter of looking after its friends.

There was nothing more about the Mackenzie Government in the matter of looking after its friends.

There was nothing more about the Mackenzie Government in the matter of looking after its friends.

There was nothing more about the Mackenzie Government in the matter of looking after its friends.

There was nothing more about the Mackenzie Government in the matter of looking after its friends.

There was nothing more about the Mackenzie Government in the matter of looking after its friends.

There was nothing more about the Mackenzie Government in the matter of looking after its friends.

There was nothing more about the Mackenzie Government in the matter of looking after its friends.

must be crazy, absolutely raving mad to tell such a monstrous lie on such a subject.

The second lie—that the Conservative Government is responsible for nearly every dollar of this increase—is quite as bad.

From 1874 to 1878, five years, the Grits increased the debt \$40,200,000.

From 1868 to 1873, and from 1879 to 1886, fifteen years, the Conservatives increased the debt \$72,800,000.

Average increase per year under Grit rule, \$8,000,000.

Average increase per year under Conservative rule, \$4,800,000.

The Globe has aptly and judiciously summarized the matter.
