SILK DEPARTMENT.
OUT OF SIX, ONLY ONE.

A customer looking for a silk dress a few days ago handed us six samples of so-called silk. They all looked well, and any of them would deceive the ordinary buyer. When our chemical test was applied only one out of the six was pure silk. Now, a great many pounds of jute, or cotton, can be bought for the price of one pound of silk. Very cheap silk means cheap material, dear at any price. Our Silks have the chemical test applied before we buy them, hence we do, with safety to ourselves and our customers, guarantee many, but not all of the silks we sell.

Will Bloom in the Spring.

Pretty conceits in feminine headgear that will soon be on exhibition here. Plumes and Feathers in abundance. The "Constance" and "Faxed" lead the brilliant cavalcade, with the "St. Leger" well up. Miss Glass is here, after visiting the emporiums of fashion, and our Millinery Department will bloom early this season.

For the mutual benefit of Buyer and Seller

DRESS GOODS.

Dress Goods for this season contain an unusual number of new patterns and choice shades. Our display is large and complete, and that our Dress Goods Department will be through in the fore part of the season is a foregone conclusion, as the new styles are quite too handsome to last long. We would earnestly invite those who contemplate the purchase of a good dress for spring or summer to call early, as we may not be able to duplicate some of our best patterns later in the season.

Cottons and Sheetings and Shirts and Prints.

We can show you a most complete line, embracing every quality and every price. A leading motive with us is always to keep on hand the largest assortment of any house in our line; and there is nothing that is needed in a stock of this character that we cannot show you this season. The prices are right, and the stock will commend itself to the attention of every housekeeper.
