

The Victoria Warbler

FRIDAY, AUGUST 12, 1887

The Union Jack.

Under waves old England's banner, still floating bygone years, when it waved in glorious array, and the days of Waterloo.

A Year Through Muskoka on a Visit to Mr. E. Reagin's Stock Farm.

We lately paid a visit to the Muskoka district. We had all our former ideas of this country reversed. It is the paradise of the invalid, the tourist and the sportsman; and the majority of our tenant farmers who have gone to the North-west would have done better here.

TO SCHOOL TRUSTEES.

Chapter 508 of the school laws enacted by the legislature of New York State should be known and obeyed in all school districts. It is as follows: SECTION 1. From and after the first day of September, 1887, the board of education, or the trustees or trustees having supervision over any school district of the state, shall provide suitable and convenient water-closets or privies for each of the schools under their charge, at least two in number, which shall be entirely separated each from the other and having separate means of access, and the approaches thereto shall be separated by a substantial close fence not less than seven feet in height. It shall be the duty of the officers aforesaid to keep the same in a clean and wholesome condition, and a failure to comply with the provisions of this act on the part of the trustees shall be sufficient grounds for removal from office, and for withholding from the district any share of the public moneys of the state.

A STANDARD MEDICAL WORK FOR YOUNG AND MIDDLE-AGED MEN.
