LAND OWNERS IN TOWNS AND CITIES.

In viewing the history of many Ontario towns one is led to ask, why so many fine natural locations have failed to become large places?

THE "IRISH" IN AMERICA VS. IRELAND.

One frequently hears Americans, and even Canadians, grow in reference to Ireland, that there must be something radically wrong with the Irish land system.

THE "IRISH CANADIAN" AND COMMERCIAL UNION.

The Irish Canadian, dubbed by our contemporaries as "Conservative," but it is that kind of conservative which agrees nine times in ten with our contemporary, favors Commercial Union, and also Annexation.

Besides, anyone who has watched events, and history, knows that the roman catholic machine, with all the talk of its falling to pieces, has made more advance under the very noses of Yankee "Bird of freedom" spouters.

BUTTER AND CHEESE.

Many parts of this county are especially adapted for grazing, and hence for butter and cheese making. At present Victoria County has a few cheese factories, but no creameries.

Not only are the genuine Yankees bound to put down the "Irish" nuisance; but English, Scotch, Welsh, and protestant Irish, residents of the United States are untiring themselves as American citizens, and mean to force expediency politicians to cease pandering for Irish support.

vote against the roman catholic Irish. Then Yankee politicians must dance, a leg on each side.

ANNEXATION.

The Crit leaders who are agitating for annexation to the United States should bear in mind that last year there were THIRTY-THREE amendments proposed to the federal constitution.

THE NEW COLLEGIATE INSTITUTE.

The vote on the by-law authorizing the construction of a new collegiate institute in Lindsay comes before the electors on Tuesday next.

one pound of bad butter will taint a hundred weight of good. Let our merchants therefore not hesitate to discriminate; but pay according to quality.

HOW TO HOUSE FARM IMPLEMENTS.

In answer to the inquiry in last week's WARDER as to the best plan to house machinery, one person (whom we strongly suspect to be the agent for the manufacturers) recommends that reapers, binders, plows, seeders, and in short everything in the line of farm implements, be left lying around the fences.
