Special to The Warder.

Hanvest is nearly all done, and the farmers are puting out fire to clear away stumps and other rubbish on their farmers and we notice it takes a lick at the fences and meadows where it is not wanted. We hear Mr. Thos. Hopkins got a barn burnt last Tuesday, 50th Aug., in which, was some 158 bushels of wheat and a quantity of oats threshed, and a mow full of peas unthreshed. It appears that the fire came from a burning slash, a good distance from the barn, there being a new fauning mill and numerous other articles in the building which could not be got out, the fire spread so rapidly. When first discovered, smoke was seen issuing from the straw stack. We do not know whether Mr. Hopkins will get the usurance, as the agent was around a short time ago and renewed the risk, but Mr. Hopkins had not received the policy when the fire occurred, it was the agent of the London Mutual who took the risk. We hope it will be ail right, as Mr. Hopkins will be a great looser if the insurance is paid, as it was only lightly insured. It was not the barn on the homestead, but one Mr. H.—

Had rented.
