

THE TORONTO DAILY AND WEEKLY MAIL... The Victoria Warder... FRIDAY, NOVEMBER 4, 1887.

THE REASON WHY... Why the Critt opposition to Mr. Chamberlain? Why the determined efforts of the annexation Irish and Anti British press to make his mission to Washington a failure?

Why did Mr. McIntyre give such a wonderful opinion in reference to the Oakwood high school? Yes, why? And why has a bold attempt been made in still being made to wreck the by-law? Yes, why?

Had the reverend acted illegally, and refused to declare the by-law carried, everyone knew the High School board would at once have gone to law, got a mandamus, and compelled him to declare it law.

EDITORIAL NOTES... The apple trade with Great Britain is assuming wonderful proportions. This year each barrel shipped, nets a gain of from \$1 to \$2.

Hon. Mr. McLean was re-elected a few days ago with nearly a thousand majority, a tremendous increase over his former election.

How often the sentiments and honest aspirations of a people are warped and turned aside by faction and bigotry? How few electors vote and speak according to their inner conscience?

In the United States, Mr. Winman says: "The practical operation of Mr. Waterbury's bill would be to abolish the Customs line that now runs through the middle of the continent; to lift it up and extend it right around the continent."

Mr. Barron, M.P., is stamping North Victoria trying to gull the electors into supporting Commercial Union, after Annexation with the States. He begins by prising up Queen Victoria and British connection; and deprecating annexation.

The social, moral, religious and intellectual advancement of a people may be readily gauged by the number of papers they read. Show us a post-office where a large mail is weekly distributed and around there is an intelligent, orderly people.

Canadian annexation papers are never done quoting the union of England and Scotland to prove that Commercial Union would greatly benefit Canada. They give themselves clearly away in their parallel.

An American View of the Irish. The Irish have talked more and done less than any people on the face of the earth. For centuries they have brugged to the whole world of their courage, their wit, their cleverness, their good nature.

IMPORTANT ANNOUNCEMENT To the Public.

Some time ago we intimated to our friends that we contemplated an early retirement from the Grocery Business, and we now beg to inform them that we have decided to do so as soon as we can dispose of the balance of our present large and varied stock.

During our long and active experience we have given our particular attention to the study of Teas and Coffee, and have always tried to keep on hand the best samples of those products the market could supply.

Our efforts in this direction have been successful, and we have in consequence received many commendations and constantly increasing support from the public; and these facts have led us to believe that by dealing chiefly in these commodities we will find ample and profitable scope for our means and energies.

and to this end we will import direct from the native markets, where we have experienced and trustworthy agents; and we can promise the people of Lindsay and surrounding country the very best quality and the most varied assortment of Tea and Coffee at the very lowest prices ever offered in Lindsay.

Our Coffees will be imported Green, and Roasted and Ground on the premises.

With our facilities for purchase we can offer the merchants of the surrounding country values equal to those they can obtain in either Montreal or Toronto.

We will carry on business in our present stand, where the Balance of our general Stock will be disposed of at Cost.

We will continue as before to buy Seeds & Produce for which the highest market price will be given in CASH.

BUTTER will be taken in shipping packages only.
