Foor Ball.—Diring the summer month's cricket was the favorite game of our athletes; but since the colder weather has set in, it has been replaced by foot-ball which is a much livelier game. A club was organized at the high school some time ago, and constant practice is now going on. For the three past Friday evenings, games have been played between the town and high school clubs. On the first Friday, some good playing was displayed on both sides, but the game ended with a tie, each having gained two goals. At the next game, the town team was composed of heavier men, but the school boys had been practising, and the game ended with another score of two to two. Last Friday, each team took the field with full intent of coming out victorious and of breaking the tie, but the teams were well matched, and after a good game of one hour and a half in which many displayed themselves, the score stood one to one.
