independent that so great a boon had not been discovered long ago? Why, according to the specules of Mesers. Wimen, charlton, Smith, et has genus omni, if we could only get commercial union, poverty would be unknown in the land, and the land, poverty would be unknown in the land, and the land, a to reaching those speeches I have been feminded of an old Freuchman. He had been demeasured they would not be at such conduct. But of the beauthout attending a meeting where adverted they are not engaging. Modesty is not one tominded of an old Frenchman. He had been attending a meeting where adtrosses were given favoring the granting
if a reliway beaus, and when asked what
he thought of it, replied: "Oh, dem fellors, they are shoost like wen you want
to estab de faux. First you put dewa de
trap, den you cover him all up; den you
are form de built den you put on de

the farmer and the working shame to the cheek of every modest man, only it it it the things we have the first man to be made so much many females in Canada would be frightened at the appearance of a man, the many females in Canada would be frightened at the appearance of a man, the many females that a sample of the States, that a point is now closed, and sod many by broken for a crop of peas or what more need be advanced mean. What more need be advanced mean time? If it is necessary that a sample of the soil, the pasture, the cow, the milk and the manure should be submitted to all our farmers in order to convince and convert, then our national future in dairy.

The account is now closed, and sod many by broken for a crop of peas or what we many females in Canada would be frightened at the appearance of a man, the many females in Canada would be frightened at the appearance of a man, the soil of the soil, the pasture, the convert, then our national future in dairy.

The account is now closed, and sod man, the account is now closed, and sod many by broken for a crop of peas or what is now closed, and sod man, the account is now closed. er' Are boots cheaper! Is anything the time of the design of the working offices reaper in the States than here? And now much cheaper? I saw, not long A contleman who lives in the there asked what they seat, and the perthere if forget which, and asked in What cost with roug" "About was the roply, "perhaps he would be a little sleer intehed, but poy toll he that there is no denger of confinedal union leading to political mich, and in the next breath tell the trikes annexationists "If you want tanada, keep your markets closed against will soon fotoh thome" Proy but he there is no disloyalty in the

hile the commercial unionists in the thing the people there that they will got our horses, outle, etc., so much phasper. Which is right? But in the streets. Why, you are in danger bank, by Mr. Charlton. He says it onste of boing knocked down by some rule, bink, by Mr. Chariton. He says it onstructed he says it onstructed he solded his savents now, and would be small loss if raised by direct havation. Now any man who will make attain a statement, I have very little fatth is nurthing he may say, became I know he through the only objection. As I have stated on a former constion, there has not yet here in favised where direct faxes on he levied in a manual pat taxes, the mode of levying municipal taxes, the mode of levying municipal taxes, the mode of levying municipal taxes, the

orth one hundred dollars if his debts picting his remerks with an appeal to the ore paid, must pay as much as the man young girls of his congregation to preserve their modesty as a priceless jewel. worth one hundred dellare if his debte were paid, must pay as much as the man who owns and occupies a farm of equal velte and does not owe a cent, and has a respectable cum in the hank. I fear I have made this too long, so will step short, but I hope not like grandiather's clock, "never to go again." What do you hope? Yours, S. S. S. Some may think we have said enough.

A Curious Account.

We take the following from a contemporary: An artisan employed in repairing the propor-tice of an old church in litigium, being re-fused payment in a lump, was select for de-tails, and sent in his bill as follows:—

Put envings in the ears of Sarahaman Put envings in the ears of Sarahaman Put new stone in David's sling, enclarged the head of Gollath and extended his legs, camman and pecerated Nosh's athe manner and Mended the shirt of the Prodigal Sonand cleaned his earsen announced.

The Public Schools. litchep Cleary Expresses Mis Opinion of

ANADIAN WOMEN AND HOW THEY ARE DEMORALIZED IN THE PUBLIC SCHOOLS—AN RYTREMELY VICOROUS APPACE ON OUR EDUCATIONAL SYSTEM.

(From the Montreal Gazetter)

NAPANER, Nov. 10 Bishop Cleary, in This give your tenter passions scope, Yet hetter things pursue;

By Heaven the chirch of your hope, And lead him this here for the many of the things pursue;

Since you must both fester your breath, And may the hord your ways approve, And may the hord your ways approve, And great you both a share of his redeeming saving leve, And providential care.

To meet with you guelts.

And may the hord your ways approve, And providential care.

And providential care.

Commercial Union.

To he hitter of ho Warder.

Dean Sin,—I see the Commercial Unionstees are on the war path. Is in not a wonder that so great a boon had not be on discovered long ago?

adopted by the party here whose excleader is above in the prize of woman."

The public schools.

Later is his address his Lordship, in the party here only regretted that the prize of St. Peter, said the party here only regretted that the herizon on the banks of the chart of St. Peter, said is not taught in the schools. I have not being a proposed that there are the new party of any scheme sanotioned by the party. Here return to commercial mean. It is chained that we would get to for our barby of any scheme sanotioned by the party. I have been told before. Knowledge and principles which we have been told by a person that lived a number of years in Mehlara that the prize of harley is any scheme sanotioned by the party. I have been told by a person that lived a number of years in Mehlara that the prize of harley is any scheme sanotioned by the prize of harley is any scheme sanotioned by a person that lived a number of years in Mehlara that the prize of harley is any scheme sanotioned by a person that here are not be formed to be faught and in which the young ought to be faught and in which the young ought to be faught and in which the young ought to be faught and in which the young ought to be faught and in which the young ought to be faught and in which the young ought to be faught and in which the young ought to be faught and in which the young ought to be faught and in which the young ought to be faught and in which the young ought to be faught and in which the young ought to be faught and in which the young ought to be faught and in which the young ought to be faught and in which the young ought to be faught and in which the young ought to be faught and in which the young ought to be faught and in which the young ought to be faught and in which the young ought to be faught and in which the young ought to be faught and the prize of hard and principles which they are all the young ough burbarity of life as the world never saw.
Women scream and roas in the case and

Some may think we have said enough about pasture during the past five years, and that experiments are now conclusive as to what can be done for its improvement. It seems, however, to be desirable to close the season with some additional facts and under new aspects.

3 04 of the day in connection with Canadian

> We seeded in 1884 without a grain erop, and took hay the same year; it could as well have been with a crop of grain. In 1885 we grazed and obtained 7,800 the, of milk per acres it could as well have been with a crop of hay. We also grazed in 1886 and obtained 8,670 lbs. of milk. This, therefore, would be a orop of 7.285 lbs. per sere, with \$61 for butter and skim milk. Had the same land been land down to timothy and clover, and an average of the Province realized (that is 1,300 lbs. of milk per acre), the revenue would stand at \$11 per nere. Against the mixture of grasses is the sum of \$3 50 as the difference between

Milk per sere in 1885	1bs. 7,806 6 670 4,010
Yearly average	6,160
Value of mills per sore	\$156 00
Extra cost of seeding	00
Allowance for extra management	100 \$16 50
	\$120.50

Net revenue for three years... Ordinary pasture for same \$85.50 better, per acre per annum. The second is now closed, and sod

ing will be a slow and third rate one in-

Were the average farm of 150 acres in Ontario in possession of ten acres of such improved temporary pacture the annual difference would amount to about \$350, and consequently to about \$13,000,000

and knowing how easy it is to find fault, I desire most seriously to say to our far-mers that individual and Provincial co-Public schools are schools of corruption, the abomination of the country. Girls are trained to be bold and impudent, and without that modesty which we admire in the Virgin Mary, and which should be the pride of woman."

and knowing how easy it is to find tault, I desire most seriously to say to our farmers trained to be bold and impudent, and without that modesty which we admire in operation and emulation are as much desirable as the wider lines of internation-the pride of woman."
