NOTES FROM THE CAPITAL

Orrawa, Jan. II.—Mischievous and inter-sted parties continue to apread the false in-formation that trouble is being caused by Canadian Customs officers refusing to allow Manitoba grain sent through the States a free entry into Canada. The Minister of Customs has received considerable correspondence on the subject, owing to the publication of ar-roneous statements in the press, and it may be of interest to give the views of Assistant Commissioner Parmales on the subject. He says:

The Northern Pacific Railway and its connections are treated in precisely the same way as any other road, and care shipped in transit from Canada over it are served just as any other of their kind."
