THE CHURCH OF ENGLAND TEMPERANCE SOCIETY give an entertainment on Friday evening last week, well attended. Dr. Elliott late of Ontario, now of Toronto, gave a most interesting lecture, while Mr. Pezzy, Mayor Wallace, Mrs. Levy and Mrs. Barber, sang appropriate selections. Rev. Mr. Marsh in an instructive address, explained the objects of the society. Musical entertainments will be given.

ON TUESDAY, Mr. Vinton drove Dr. Barrow to a race, it is not a suitable in order to get a commandment view of the course, the gentleman remained in the hill about thirty feet above the river. There Mr. Vinton managed to upset the cart and let the horse run away. It did run, and with one bound landed at the foot of the hill thirty feet below. The evident intention, as I should say, was to kill the doctor, but the only effect was to rob. A broken horse was the only damage.

LINDSAY is acquiring fame in various ways. Recently several brick "bees" have been held from various parts of this and Ontario county. On Friday last two, one for Mr. Snider of Sarnia and another for Rebecko Methodist church took away some tens of thousands from Mr. Fox's yard in town.

WE LEARN that Mr. J. Lovell is about to give up business. He has to leave the premises he now occupies as there is to be a new block built there we understand. Mr. Lovell is not in the best of health, and for these and minor other reasons he has decided to go out of the harness business. He is selling cheap now, give a call.

Beware.—A young skater who was skating on the sidewalk came into rather close contact with a lady when the next instant the young offender found himself in the ditch. However he got up again and was following rather close again when he was told, "he would be turned up again if he came too close." Beware when skating on the sidewalk.

THE SONS OF TEMPERANCE gave an entertainment in their hall over Mr. Blackwell's store, last Thursday evening to a good audience, and the programme rendered was a very enjoyable one. This is the second of a series of entertainments which the Sons propose giving this season. Should their efforts in the future be equal to what they have achieved so far, the Sons of Temperance will have placed the public under a deep debt of gratitude before the season closes. Miss Silver, Mrs. McTearney and Mrs. Marsh, contributed a solo each, which it is needless to say were well received; and Messrs. Williams and Pettit, sustained their parts with equal credit. A reading by Miss Martin was especially good, and Miss Davis, by her rendition of "The New Song" and "The New Man" proved herself one of the best amateur declamationists that has appeared before a Lindsay audience for some time. A very pleasing feature of the entertainment was the Entertainment given by several of the children who sang a part of the St. Paul's S.S. concert. Rev. Mr. Marsh at the opening of the programme, gave an able and appropriate address upon the subject of temperance and the work of the order.

THE MEETING.—At Lakehurst, on Friday, 17th February. Readings, recitations, disjuncts, etc., with music by the choir will be the order of the evening. It will undoubtedly be a great success.

A CALL.—The Lindsay women were called out on Thursday morning to pay a visit to H. Fowler's photo gallery, but it was not to have their photos taken. It was to try and save the building from being destroyed by fire. A good deal of damage was done.

FINGERBOARD.
Special to The Warder.

DEAR SIR.—In last week's special to your paper, I noticed your correspondent made use of remarks, which are misleading, erroneous and selfish; and it is in view of this I take up my pen. We attended the closing exercises of our school; for I dare not in justice to myself and other thoughtful observers, call it a P. S. examination as it consisted mainly of readings and recitations; but even with such your correspondent says "we were highly pleased." He must indeed feel assured that our knowledge of the programme of studies, for our school, is very quiet. But ask, were we pleased? Still further he says "there should have been one or two more through had not the parents of these children refused them the privilege of presenting themselves for our school." If these who remained home should have been through much more should all those who did go up for examination be through. But we feel proud that one was successful in passing his examination and we were very glad to see his name on the list of those who try, but what shall we say of those who avoid their own trumpet?

PERDUEVILLE.
Special to The Warder.

R. L. T.—Midland Lodge paid a visit to Feneston on the 24th of Jan. Feneston Lodge will return the visit on the 14th of this month. The lodge was organized lately and now numbers about 40.

IN TURN.—We have had a week of delightful weather after our late blizzard.

DOG TEAM.—Every boy wants his dog team now. There are nearly as many as there are horse teams.

POLITICS.—The atmosphere during the last week of January was very cold. But now that Mr. Cook has been unseated, both parties are at the BATTERY and meet you with a warm grip.

DIPHTHERIA broke out in the Reformatory about a month ago, and over 60 boys have been down with it, although not one has died. This speaks well for the doctors and nurses. There are two deaths reported in the town. The water is what probably caused the disease at the reformatory.

H. AND R. W. AND G. T. R.—The proposed amalgamation of the two roads in the topic of the day. If the two roads amalgamate, the town will lose by it. What Feneston wants is a direct line to Midland, then Feneston will be the end of the route, and would furnish greater convenience to the traveling public. However, there is one benefit to be derived from the amalgamation, and that will be a better accommodation in the train.

PONTTPOOL.
Special to The Warder.

WEDNESDAY, Feb. 1st was an interesting day at the residence of Mr. James Williamson, when his daughter Jane was united in the bonds of matrimony to Mr. Wm. Wilson of Ponttpool. A large number of the relatives and friends of the bride and groom were present. The bride was elegantly attired, as was the bridesmaid, Miss Susie Williamson and Miss Julia Syer. The groom was assisted by Messrs. Hugh Wilson and W. H. Veale. Rev. Mr. Bickley, E. C. of Cartwright, performed the ceremony in a very pleasing manner. Following are a number of the presents, with the names of the givers, which go to show the esteem in which the young couple is held.—Dinner set (china), Mr. and Mrs. T. Cully; silver crucifix, Mr. and Mrs. H. H. Williamson; eight day clock, Mr. Hugh Wilson; fancy lamp, Mr. and Mrs. S. Coulter; pair of vases, Miss Julia Syer; set of glasses, Mr. J. B. Jackson; silver butter cooler, Wm. and Polly Veale; bedroom set, Mr. and Mrs. T. H. Williamson; lemonade set, Miss Susie Williamson; alarm clock, Mr. Chas. Ferguson; one dozen silver knives and forks, Miss Lottie Williamson; preserve dish and comforts, Messrs. T. and G. Syer; table cover and napkins, Mr. and Mrs. Hunter; pickle cruet, Albert and Della McNeil; pairs of vases, Mrs. T. Veale; water pitcher, Mrs. Jas. Williamson; dozen silver spoons, Miss Martha Williamson; table cover and napkins, Misses Julia and Lottie Syer. In addition to the many costly presents mentioned, there were also many other valuable presents, including a handsome set of dining room chairs by Mr. G. E. Williamson; youngest brother of the bride.

CANNINGTON.
Special to The Warder.

An action involving two thousand dollars damages, as a little financial pleasanter, that our city fathers will be called upon shortly to pay. This action is taken by Mrs. W. Doble, of the township of Brock, and arises out of an accident that occurred to the plaintiff on her way to the school, which briefly are these: In company with another lady, she was approaching from the south, with a horse and buggy, the railway track. A train having left the station, was approaching from the north, and the horse took fright at the approaching train, upsetting the buggy and throwing the ladies out, from which Mrs. Doble sustained various injuries. The grounds for the action against the corporation are based on the contention that a railing should be placed on each side of the road, which (at the point where the accident occurred) is raised a little from the ordinary level. We understand the action will be resisted to the utmost limit of the law.

If it were not for the momentary spasms of alarm caused, the present method of raising the bell by the fire brigades when calling the members together of an evening, would be simply ludicrous. Why do they not adopt some well-defined signal? Say six or seven tolls, with brief intervals, until the company are assembled. The community would then understand at once its meaning. Instead of this we are treated to a division of sounds in part funeral knell and spasmodic fire alarm, a combination resembling nothing so much as a break-neck "tan tivy" of a hot pot to a company's bell.

The Canadian Central Exhibition Association held their annual meeting for the despatch of business and election of officers in the town hall on Tuesday last. The treasurer's report was of a most satisfactory character, showing a balance, after all debts are paid, of \$165.00. Well done, C. C.

OUR LITTLE TROTTER.—"Hand S," now that she is so good, is put through her paces every day by her owner, and we would advise, T. H. Weaver. It's really a treat to stand at the roadside and watch her as she rushes by you like a cyclone. We understand she will be entered in all the principal winter races.

OLD SAYINGS

Often convey some very pungent truths with them, but they are sometimes hard to live up to. We know of one which says save the

This is true enough, but unless one knows how to save the cents the dollars will not accumulate. We can direct you to one way which will make you pile them up quickly.—Commence to buy your Dry Goods and Clothing, Hats and Caps, at THE CITY STORE, and it will surprise you the amount you will save in a single year.

WE HAVE SOMETHING COMING

IT'S HERE

L. MAGUIRE.

WE ARE GOING TO SELL
\$40,000 WORTH OF GOODS
More or less, for a good deal less than cost

Several reasons prompt us, besides the desire to keep things moving, at a time when nothing but money will move them. We have the goods, the room the people, expenses are going on, we can afford some loss rather than let trade drop.

The heavy trade of the last three months has broken our stock severely. It isn't a loss to sell fragments of stocks at a loss, but we are talking about more than fragments. We are going to pick out somewhere near a quarter of the store and sell it this month for what it will bring. At the end of the month when another sort of trade begins, we shall have the money to buy the things that begin to be wanted. Room to put them in, and time and attention for business. We shall pick out, whatever we can best let go of course, but things that belong to the weather and time of year, timelest things, movable things, February things, things of all the year and every year.

We take a Single Subject:

HOSIERY AND GLOVES

In addition to this we have picked out a larger portion of our Dress Goods which we will sell at amazingly low prices to clear.

A few weeks ago we advertised 3,000 yards of Silk from 25 cents up, goods that were worth three times the price, they remained no time upon our shelves.

Woolens of every description such as

CLOUDS, HOODS, LADIES' AND CHILDREN'S VESTS, LADIES' AND CHILDREN'S BLOOMERS

MANTLE CLOTHS we offer at prices that are sure to move them. We shall go through the stores, clear out every sort of goods, and our method all through will be the same as our method to-day. You need not wait for the news. We shall print as fast as we can but the news will be faster.

Velvets and Pushes at cost. **CLOTHING** the same as advertised a week or two ago, and thus the whole stock is going to be sifted.
