GOLDEN FLEECE.

Rough on High Prices

We want to double our business and in order to do this we have marked all Dry Goods, Millinery, Clothing and House Furnishings to the lowest living

PROFITS

This season's trade has started in most of the branches, but we notice it most particularly in

DRESS GOODS Simple enough too, on account of superiority of finish and style of Goods. In a word we have the right goods at the right prices. See our 15c. Dress Goods before purchasing elsewhere.

We have some of the finest makes and best value in both Black and Colored

SILKS & SATINS that has ever been offered in this or any other town. When you go to buy your Silks see that you get pure Silk and not half Dute. Now silk is dearer by far than Dute, most of our Silks have had the chemical test so you can rely on any we guarantee to be pure Silk.

Miss Glass has just returned from making her spring purchases of all the most stylish shapes and materials for

MILLINERY The Torquay, Argo and Oustis are some of the leaders with the Marchioness Shot and Colored effects.

Our Millinery cannot be beaten for style and cheapness.

In all lines of Gentlemen's furnishings our stock has never been so complete as it is this season.

CLOTHING We guarantee a perfect fit in every suit we make. Our selection of Irish, Scotch, and English Suitings never was so complete as it is this season. With a full range of Pantings, Black and Fancy Worsted Spring Overcoatings in different makes.

Try us for your clothing this spring. We have bought direct from manufacturers

HATS so that we stand without a rival, you can make a big saving on every hat you need. Boys' Hats in Soft Felts and Christy Stiffs ranging in prices from 75 cents up. Men's Hats, the very latest shapes, ranging in price from 75 cents up.

A call will convince you we do the Hat trade right.

Remember this, that we have the most stylish and largest assortment of Gentlemen's

NECKWEAR that has ever been offered in this town

Cuffs, Collars, White Shirts and Regattas, perfect fitters and reliable goods.

HOUSE FURNISHINGS

A great assortment of these goods at

McLEAN, SMITH & CO.

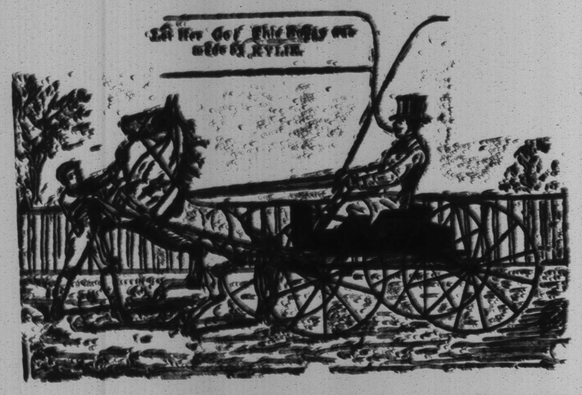
Sign of the Golden Lamb

P. S.—Corsets in all sizes 25 cts. a pair.

THE CITY CARRIAGE WORKS

LINDSAY.

R. KYLIE, - PROPRIETOR.



I have called for 200 Buggies and Carriages to repair and repaint,

and I have received a goodly number, but I want more. I have the facilities. I have the men. Gentlemen, send on the rigs. It pays to paint your carriage. It's money well invested. Mr. Chestnutt, my painter, has had an experience of 25 years in the best shops in Canada and the States. He will be with me for one year. Don't miss the opportunity.

We are making immense preparations for the Spring Trade.

Give us a call.

R. KYLIE.

MARRIAGE LICENSES

For the Co. of Victoria.

MARRIAGE LICENSES.

T. BEALL, LINDSAY,

MAIL CONTRACT.

SEALED TENDERS, addressed to the Postmaster-General, will be received at Ottawa until noon, on FRIDAY, APRIL 13th, 1888, for the conveyance of Her Majesty's Mails, on a proposed contract for four years, six times per week each way, between KINMOUNT AND MINDEN, from the 1st July next. The conveyance to be made in a vehicle.

The Mails to leave Minden daily, Sundays excepted, at such an hour as will enable the Carrier to reach Kinmount in time to connect with the morning Mail Train going South.

To leave Kinmount the same days as soon as possible after arrival of the said Mail Train from Lindsay, and return to Minden within three hours afterwards.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Kinmount and Minden, and at this office.

DANIEL SPRY,
Post Office Inspector.

Post Office Inspector's Office,
Barrie, March 2nd, 1888. 17-3.

A Few Rules on the Care of a Watch,

Which will be more heeded in the breach than in the observance.

1. In the first place when you want to procure a watch get one from a peddler or some one as far away as possible, so that if anything goes wrong with it or it doesn't turn out as represented, the seller wont have his feelings hurt by knowing it dont give satisfaction.

2. When you have got it go around to all your neighbours and invite them to inspect it and give their opinion as to its value, and thus find out how badly you have been swindled.

3. Pry up the lid and poke the "innards" with a horse shoe nail or a match and if you see any wheel or things out of place, or that dont go around as fast as they should why stir them up a bit. Don't let a watch go to ruin just for the want of a little attention of this kind.

4. About the first thing to do is to scratch your name on the case and on the beautifully finished movement. It may not make the watch run any better nor improve its appearance, but if you lose it the finder would have to advertise it.

5. If there is a baby in the house, lend it to him to keep him quiet. Then the child may fill it with honey or butterscotch but dont be alarmed. How do you know that the watch isn't specially adapted to that kind of thing. It may be very fond of sweets. It may be improved by having its timekeeping qualities 20 per cent. It is well to try one end of the guard to something outside of the baby so that if the swallows it it may be recovered without a surgical operation.

6. Let it run down every other night. Most watches will fall you to wind it regularly and always keep it going. Common sense will tell you that if you keep your watch running it will wear out. Now you let it run down about twice a week and give it a rest for about a month or a year.—It gets the benefit. The regular winding-up will tell you to give your watch a thorough clean once a year. Those watchmakers are a hard lot. They want a job. Why when you take your watch in one to get it repaired just as likely as not he will deceive you by sending you a new wheel or mainspring and charge you one or two or even three dollars for it, when you know perfectly well that all that was wrong was the dipper-fuller squeezed against the escapement, ANYBODY could do that.

7. If the watch dont keep time put some grease on the hair spring. Cold oil or black oil is useful for a cold time, but as the weather gets warmer maybe lard grease oil will be more appropriate. It may cost a little more, but when you consider the value of your watch to you or the pride of the watch by your friends a paltry few cents for grease is nothing, and you can afford to have the best oil in the market.

If on the careful application of these rules your watch does not improve in time keeping as you might wish, it would be a good time to take it to some reputable jeweller and after him as much for the best he has in stock. The chances are that he is so anxious to do business that he will jump at the chance.

There may be some more rules which it will pay you to forget as quickly as possible but we have no room for them to-day further than to say, thanks we wish you well.

BRITTON BROS.

Town Council.

MARCH 19th, 1888.

Council met at 8 o'clock, his worship, Mayor Walters in the chair. Others present, reeve Walters, deputy reeve Williams, Councillors, Crandell, Winters, Connolly, McGinley, Fisher, Brown.

Absent—Councillors Ross, McAlpine, and deputy reeve Bryans.

A communication was read from Thomas Fee re exemption from taxation for a proposed new brick yard.

The council decided to rent a building on William Street north, owned by Mr. Murphy, for charity purposes.

Reeve H. Walters presented, seconded by councillor Crandell, report of fire and water committee referring to chimney cleaning and erection of buildings within fire limits.

Councillor Winters introduced report recommending adoption of memorial from Collingwood, re Scott Act.

Councillor Brown introduced the report of the printing committee, granting tender to Sam Hughes, his tender being the lowest. Councillor Fisher seconded its adoption.

On motion of reeve H. Walters seconded by councillor Crandell the chairman of fire and water committee was instructed to place in position two stop valves and to procure two new hydrants to have in store.

The mayor suggested for the consideration of the fire and water committee, the extension of the waterworks southward and eastward.

On motion of councillor Connolly seconded by reeve H. Walters, the sum of $100, was tendered Dr. Burrows for able services as Medical Health Officer in the past.

An offer of $500, was received from Mr. Alex. McAlpine for a town lot on the south side of Kent St., now occupied by Mrs. Smith, he to settle all Mrs. Smith's claims. On motion of councillor Connolly seconded by councillor Brown the offer was referred to the town property committee.

The question of Thomas Fee's exemption from taxation for some manufactories to be erected in town came up. Mr. Fee was asked to furnish certain information. That he failed to do. He spoke before the council, and, growing wrathy, told the council to "go to the devil." He then left. The question was not entertained.

The resignations of certain members of the Board of Health were not accepted.

Petitions in accordance with those from Collingwood re separating towns from rural districts for Scott Act purposes were sent to each, The Governor General, The Senate and The House of Commons.

Great Fire in Lindsay.

The property of McCrimmon Bros., R. Killaby, J. Heap, the Misses Bunting, and No. 6 Co. 45th battalion destroyed.

Last Monday morning at 5 o'clock while Mr. Gall was on his way to the station to go out on his train to Port Hope, he discovered fire in the cellar of R. Killaby's grocery store in the Macdonnell block on the south-west corner of Kent and William streets. At once the alarm was given, and immediately thereafter the firemen appeared on the scene. Dougall Sinclair and Jesse Parkin with others attached the hose and turned on the hydrants; but no water came. Hydrant after hydrant was tested but in vain. John Makins, chief engineer, had perceived the difficulty and at once made for the mill where he labored diligently until the pipes were thawed out. At that time a pail or two of water would have extinguished the flames.

Meantime hundreds assembled, and it seemed as if the whole town was likely to fall a prey to the flames. Killaby's store went, then followed the Misses Bunting's rooms, then the armory of No. 6 Co. It was soon seen that McCrimmon Bros. store on the corner must fall a prey to the devouring element, and it did. A large portion of the fine stock was hurriedly removed much damaged, but their loss is heavy. Finally the water came with a rush and after a hard battle drowned the flames.

But the building was a total wreck.

The fire being conquered, it was feared the walls would fall into the street they leaning in that direction and being much broken. Therefore was it determined to hasten the fall. The senseless actions of many who heedless of danger foolishly tried to play Sampson and pull down the pillars supporting the wall were cause for fear and ridicule on the part of spectators. Finally it was shoved out from the top and came down needlessly bringing scores of telephone and telegraph wires to the ground.

Mr. Macdonnell had an insurance of $3400 on the block, a sum quite inadequate to cover the loss.

McCrimmon Bros., are steady, energetic young men who have been doing a secure and prosperous business. Their stocks was carefully selected, and though covered by $9000 insurance and much of it saved, yet will their loss in spring trade, as well as on stock, be very considerable. The insurance companies should make prompt and liberal settlement in their case at all events.

R. Killaby kept a grocery store and was insured for $1600. The fire originated in his cellar, but how, is not yet known. There was no fire in the building.

The Misses Bunting saved part of their stock but lost considerable. They are faithful, energetic young ladies and did a good business.

Mr. Heap was quietly enjoying a morning nap quite oblivious to the fact that his briefs, mortgages, deeds and other legal documents were ascending heavenward in smoke and flame. A notice concerning his new office appears in another column.

The armory of No. 6 Co., was once before burned when the old drill shed near Sylvester Bros., works was consumed. Again has it been destroyed. However the uniforms had all been in use three years. The only serious loss is the rifles, which were new. Some of them were saved, but only a few. Lieut. Graham and others who braved the dangers of fire and smoke to save the contents of the armory were forced to find exit by a fire escape, the stairway having become enveloped in one mass of flame within a few seconds. They could just reach the escape, or else might have gone with the outfit of their company.

The fine plate glass windows recently put in by Mr. A. Campbell are badly broken by the heat.

John Dobson found his huge circular plate on the corner would yield to the heat, but it was saved.

The multitude assembled at Ray's corner for a time imagined some herrings or other stuff causing infamous smell was burning, but it was discovered to be nothing but the sewer.

Men set to work at once and by Wednesday, the telegraph and telephone wires were replaced.

The bricks and general debris should be removed at once.

Squire Macdonnell will rebuild the block at once, and McCrimmon Bros. will be in their old stand as soon as possible.

As Mr. Killaby was last week endeavoring to effect a compromise with his creditors at 45 cts. on the dollar, it is not known whether or not he will re-open his business.

The Misses Bunting will re-open in a few days in another place.

Children Cry for Pitcher's Castoria.

The Weather.

Report for week ending Saturday night, March 17th, 1888.—

TEMPERATURE.

Highest	35°.7	Sunday
Lowest	—6°.4	Tuesday
Warmest day, mean of 27°.65		Friday
Coldest " "	0°.85	Tuesday
The week "	15°.26	

PRECIPITATION.

Greatest fall of snow in one day, Tuesday, 5. inches.

Snow fell on 3 days.

Total rain and melted snow, .57 inches.

The most severe storm recorded for many years occurred on Sunday, Monday and Tuesday. On Tuesday morning, at the time of the lowest temperature, the velocity of the wind was from 45 to 55 miles an hour.

Orange.

On the first Monday in April i.e., April 2nd, a royal arch meeting will be held in L.O.L. 130, Little Britain. Several candidates will be up for the arch.

L. O. L., No. 557, at its last meeting passed a resolution of condolence and sympathy with Bro. John Irwin on the loss of his wife.

T. B. Collins Esq., Millbrook, grand master of the grand orange lodge of Ontario east, spent Monday last in Lindsay. Mr. Collins is one of Ontario's coming men.

Royal Black Preceptory, No. 202, meets to night, Friday 23rd, at 7.30, for conferring of degrees.

Lindsay True Blues, Hackett Lodge, held their anniversary supper on Wednesday evening last, at Mrs. Gall's restaurant. About fifty sat down. Mr. Sam. Hughes was chairman, and a very pleasant evening was spent. Toasts, speeches, and songs filled in an enjoyable programme. Messrs. Mernet, Smyth, Downey, Ellis and Milburn made their mark as singers, while the speeches of Messrs. Bunting, Howe, Sadler, and Councillor Brown were to the point.

ELDON.

Special to The Warder.

REV. ALEX. ROSS, M. A., of Woodville, will preach in St. Andrew's church, Eldon, next Sabbath, at three o'clock in the afternoon.

S. S. NO. 4, MARVERS.

Special to The Warder.

OBIT.—On Wednesday the remains of Mr. J. KENT were interred at the Graham's Cemetery. Deceased was in the prime of life, and beloved by all who knew him. His sickness was of short duration.

IF MARCH came in like a lamb, she is at present showing lion-like propensities.

BALLYDUFF.

Special to The Warder.

THIS VILLAGE was highly honored this week by a visit from one of the many young men who, brought up among the hills and dales of Ballyduff, have in other localities risen to positions of honor and responsibility. Mr. Joseph Brown, now councillor of Lindsay, was warmly welcomed here, by scores of his old friends last Tuesday. The community regret the proposed departure to Lindsay of his esteemed father; but he will be found in Victoria, as in Manvers, a worthy and loyal citizen.

FLEETWOOD.

Special to The Warder.

OBITUARY.—It is a painful duty to announce the death of Mr. Jas. Brown of this place. The deceased gentleman took sick one day last week. He was attended by Dr. Geo. Brereton of Bethany, who pronounced the disease to be Erysipelas in the head, but despite all that medical skill could do Mr. B. died this week. The deceased gentleman has been the most part of his life a resident of Manvers. He was a good neighbor, a loving husband, and an affectionate parent; he was also a sincere christian; he had the good will and was highly respected by all who knew him. There was not a more obliging neighbor in the township. He would go any length to assist persons in sickness or in trouble. He will be seriously missed. He leaves a widow and two sons, who have the sympathy of the whole community.

OAKWOOD.

Special to The Warder.

ONE day last week while Thomas Brunker was in the act of feeding his horse the animal stepped on his foot, inflicting a deep cut and bruising it badly. Jurvish oil was at once administered, having the desired effect. We trust Tom may soon be able to kick the foot ball again.

MRS. Brunbage and her daughter Emma returned home last week from a visit with their relatives in Obely and Flint City, Michigan, both looking well.

WE are pleased to see our friend R. P. Butler able to be out again to enjoy our beautiful spring weather.

VISITING.—Mr. A. Harper, of Uxbridge, is visiting at his son's, W. H. Harper's.....Mr. J. C. Snider, of Hamilton, is a guest at Mr. Handcock's.....Miss Nelly Armstrong, of Oshawa, is spending a few days with her cousin, Miss Walton.

LITTLE BRITAIN.

Special to The Warder.

QUERIES.—Your correspondent has been asked, how it is that the apostles of Commercial Union don't try their hands, at inducing the United States government to reduce their customs duties to the same figure as Canada as a preliminary step to Commercial Union? What your correspondents' opinion is on this question would possibly be of no interest to readers of THE WARDER, but at the same time I may say, that I would like to hear a straightforward answer to the question proposed, which appears to any fairminded person a preliminary step in fair trade—relations between the two countries.

PERSONAL.—Mr. W. H. Smith, formerly hotel keeper here paid a flying visit, stopping from Friday to Tuesday. Bill looks first rate. He is in business now in Sarnia.....Dr. Metherell left on Tuesday to visit old friends and fellow students in Toronto.

JANETVILLE.

Special to The Warder.

SAWMILLING.—Our two sawmills are in full operation just now. Mr. Jeremiah Maguire having given his mill a complete overhauling in every department; it is doing splendid work in the manufacture of both lumber and shingles. A large number of logs are being hauled into both mills, so that we are going to have a lively time this summer in our village, for a number of buildings are going to be erected.

MR. JAMES BAXTER has got his new house finished and has removed into it and got himself settled down for life.

INCREASE.—There have been two births in our village lately. Mrs. W. Anthon of a son, and Mrs. H. W. Anderson of a daughter, over which there is great rejoicing.

THE STORM was so great that our mail carrier could not visit us for four days, and part of the mail matter has not arrived yet.

HARTLEY.

Special to The Warder.

SOME weeks ago Pat Maguire, who keeps a sort of shebeen house in this village, was fined for selling liquor illegally. He could not pay the fine; but gave an oyster supper to the young men of the district to try to make up the money. Some nominally decent men attended, and it is said actually assisted Maguire to sell liquor free as water. It is said that Maguire himself got so tight that he had to be carried to bed. Enough money to pay the fine was not raised; so the jail stared him in the face. He went to Lindsay last Friday to give himself up, but returned to Hartley. Before going to Lindsay he insulted one of the most respected ladies in this part, an aged widow. But fortunately the lady has stalwart sons in the country, and unless Maguire at once apologises for his cowardly conduct he will again be brought within the clutches of the law. The reason he is not in jail is that he has a certificate from some Lindsay doctor to the effect that his health will not allow of confinement. That is humbug and nonsense. A man who can threaten to shoot his neighbors and be drunk a chief part of the time, is surely not too unwell to lie in jail. In his absence and periods of intoxication, the "craythur" is dished out liberally by Mrs. Maguire. Eldon people want no such shebeens in their midst.

MOUNT HOREB.

Special to The Warder.

Who told that man he could drive a horse? Who let "Fanny Cook" run away? Result, broken cutter and harness. Much credit is due James Skuce, Esq., for the manner in which he caught her.

Mr. Robert Hart has moved on to Mr. Thos. Newman's farm.....Mr. Samuel Magahey has moved on to his farm.....Mr. Wm. Robinson has moved on to the place vacated by Mr. Tunis Hart.....Mr. Tunis Hart moves on to a farm near Fenelon Falls.....Mr. W. German has moved on to his farm at Dunsford.....Mr. Bolton has moved on to the farm vacated by Mr. German. Leap year.

Mr. James Skuce, sr., has the timber out in order to build a stable in the spring. Mr. Wm. Shaw is the contractor. The name is sufficient to show that the building will be done right.

Messrs. S. and W. Skuce are going to put up a driving house, the best of the kind in this locality.

A LARGE stock of Hot Springs Liniment for sale at the Mt. Horeb post office. This is the best liniment made. Manufactured by H. Dennis, Lindsay.

CAVAN.

Special to The Warder.

QUITE a number of families throughout this part intend removing to the North West Territory in a week or two. Mr. R. Staples intends giving up farming here and will remove to that part soon.

WE have to report the sudden death of a very old resident of this part Mr. J. Fetcher of the village, who died on the 13th inst. The family have the sympathy of the community in their bereavement.

MR. Henry Jackson of North Cavan, lost a very valuable team of horses on Friday last by gitting drowned in the river. Mr. J. refused nearly $300 for the team a few days before.

FLETCHER Bros., carriage and waggon makers here are doing a very large trade this season. The demand being greater than the increase.

MEASLES are very prevalent, quite a number of families at present being afflicted.

HUGH MITCHELL Esq., the general and obliging agent for THE WARDER Lindsay, called upon us last week. We are always glad to see him since our old school days. May he continue to meet with abundant success. THE WARDER has the largest circulation of any local paper through this township.

CAMERON.

Special to the Warder.

ON TUESDAY evening March 6th, the young people of Cameron and vicinity met as a surprise party at the residence of Mr. Wm. Henry, there being between twenty five and thirty couples, all jolly and good natured, bent on enjoying the evening to the sweet strains of the violin. The old time parties have once more made their appearance amongst us. What is there which give more life and enjoyment to a party than the violin? It seems to bring back to the memory the good old days of our forefathers when singing and dancing were used to pass away the evening. But some object to the likes, based on the ground that where the dance is there is hell. (what a gross mistake). Now, if the young man who so kindly left the house when the dance commenced will kindly explain through the columns of THE WARDER the harm in a few old country reels at a farm house, he will add much to his own social standing and give light to those who are in darkness. Now, boy, in fairness to yourself and to those around, and especially to those to whom the ties of nature bind you to respect, stay for your tea and do not run away like a scared fox from his prey, and say it is no place for a respectable person to be in. My opinion shows who were there were just as respectable as the youth who dropped the curtain and took his flight.

BALSOVER.

Special to The Warder.

THE revival services held here a few weeks ago, have been productive of much good. A young men's prayer meeting has been started, and is held in the methodist church every Monday evening. One noteworthy feature in connection with the above meetings, is the brotherly spirit which has been manifested among members of the different churches. This is as it should be, and if this charitable spirit were more generally cultivated among the different denominations, it might inspire more respect for protestantism, than hitherto, in those who are now indifferent to, or entirely opposed to it.

MR. F. A. Stabuck is now fairly settled in his new house, and making great progress in mastering the mysteries of house-keeping.

WE are to have a new shoemaker shortly. Just what we want; and should he prove an efficient workman will do a good business here.

WE are sorry to chronicle the demise of our singing school here, after an illness of about two weeks. The continued cold weather brought on reduction of the lungs which terminated fatally on Friday evening, 9th inst.

Messrs. J. Steele and H. Folliott were in Lindsay last week, attending the S.S. convention. They report a very enjoyable time.

OUR supply of mail was withheld for four consecutive days on account of the snow blockade. But St. Patrick was always a gentleman. Wasn't Saturday a fine day?

Mr. Skinner for many years one of Lindsay's most respected citizens, with his fine family leaves this week to reside in Woodstock, where he has bought out a paper hanging, picture framing and house furnishing business.

Mr. Brown of Ballyduff, Manvers, father of Lindsay's popular councillor, Mr. Joseph Brown, held a sale last Tuesday. He purposes settling in Lindsay in a few weeks.
