doing for you?

They are giving you the advantages of first class workmanship (in their watch and jewellery repair department.)

They have brought to your doors so to speak, inestimable advantages in facilities for having your eyes properly cared for. While the improper use of glasses or the use of unsuitable glasses is injurious and ruinous to the sight, the use of spectacles perfectly adapted to the wearer is of the utmost importance in preserving the sense of vision. Britton Brothers have perfect and complete apparatus for properly testing the eyes of those who need glasses. These appliances are very costly and it requires skill and care to use them. You can have the benefit of all this free of charge.
