

Try Ayer's Pills

For Rheumatism, Neuralgia, and Gout. Stephen Lansing, of Vinton, N. Y., writes: "Recommended as a cure for chronic Constipation, Ayer's Pills have relieved me from that trouble and also from Gout. If every victim of this disease would have only three words of mine, I could have said from the land. These words would be—'Try Ayer's Pills.'"

"By the use of Ayer's Pills alone, I cured myself permanently of rheumatism which had troubled me several months. These pills are of such harmless and effectual, and, I believe, would prove a specific in all cases of incipient Rheumatism."

No medicine could have served me in better stead.—O. O. Rook, Corner, Aveyettes Parish, La.

"I have derived great benefit from Ayer's Pills. Five years ago I was taken so ill with rheumatism that I was unable to do any work. I took three boxes of Ayer's Pills and was entirely cured. Since that time I am never without a box of these pills."—Peter Christensen, Sherwood, Wis.

Ayer's Cathartic Pills, PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Dealers in Medicine.

The Victoria Warder, FRIDAY, APRIL 4, 1890.

The Trip.

If you have "chills" of the head, A cough, and "stinging" eyes, A hot and feverish pulse, And eyes inflamed with tears, A bilious feeling "bout your waist, And aching legs and hips, The far from well you are not sick; You have not lost your "grit."

If you have "running" at the nose, And constant "stinging" of the throat, A daily feeling down your back, As if your spine was freezing, It is a nervous, "lucky" state, Like one in drunken frenzy, My English, you've got the French "La Grippe," Or English Influenza.

Does this refer to Victoria County?

A BACHELOR'S SONG. There is an old bachelor, So simple and so true, Who courts a young lady That lives very shy.

And, still he does love her, And, I think, would marry too; For when he goes to see her, He plays "tuck-a-boo."

The Little Old Sod Shanty on the Claim.

I am looking rather red, my white holding down my claim, And my vicinals are not always served the best; And the nice play so shyly around me as I reach down to sleep.

The hinges are of leather and the windows have no glass, While the board roof lets the howling blizzard in.

My clothes are plastered o'er with dough, I'm looking like a fright, Find every thing is scattered round the room; But I shouldn't give the freedom that I have out in the west.

My clothes are plastered o'er with dough, I'm looking like a fright, Find every thing is scattered round the room; But I shouldn't give the freedom that I have out in the west.

My clothes are plastered o'er with dough, I'm looking like a fright, Find every thing is scattered round the room; But I shouldn't give the freedom that I have out in the west.

My clothes are plastered o'er with dough, I'm looking like a fright, Find every thing is scattered round the room; But I shouldn't give the freedom that I have out in the west.

My clothes are plastered o'er with dough, I'm looking like a fright, Find every thing is scattered round the room; But I shouldn't give the freedom that I have out in the west.

My clothes are plastered o'er with dough, I'm looking like a fright, Find every thing is scattered round the room; But I shouldn't give the freedom that I have out in the west.

Pleasant Valley.

It is sometimes said we have seen any thing from Pleasant Valley, not knowing what has become of the correspondent who thought we would send a little note.

Mr. Wm. W. Pettick is a very old settler in the valley, and has been confined to the house for some time with inflammation of the lungs, but is improving slowly.

Mr. John McEvoy has been unwell for some time, but is improving in health at present. The little daughter of Mr. and Mrs. Wm. Pettick is dangerously ill. We hope that she may soon recover.

Mr. D. McEvoy has gone to the North West, to see what he thinks of the country. We wish him every success. He will be missed from the neighborhood, particularly by the fair sex.

Mr. John Chambers is getting the material on the ground for a new stable. Mr. George McEvoy has got the material together for the re-erection of his barn.

FRUITAUGUSTINER. Sermon to the Warder. HENRY PLEASER.—The deputations that waited on the government at Ottawa, have returned, highly pleased over their trip and the encouragement given them.

ASSASS.—The notices at Harrie returned a verdict for \$500 against the town of Millard, for injuries received by Mrs. Yarnes from falling into an excavation along the side of the sidewalk in that town.

NECROLOGICAL.—The R.T. of T. have had a necktie social which was well patronized and all enjoyed a very pleasant evening.

NECROLOGICAL.—On Sabbath last, at 10 o'clock, the body of Mrs. Mary Williams of the reformatory entered a cell to attend some of the boys, they immediately pounced upon him, closed the door and commenced to tie him down and gag him.

PERSONAL.—Mr. M. Murdoch of Lindsay, brother of the late H. Murdoch, was in town last Friday.

DEATH.—On Monday morning the 17th of March, Mary Gertrude, daughter of Mr. C. H. Jones, passed away to her long resting home. The direct cause of her death was paralysis of the heart, which followed a severe attack of diphtheria.

DEATH.—On Monday evening he gave a lecture on "Strange things in Australia," and on Tuesday evening on the temperance question, titled "Thumbs up and thumbs down." His Sunday discourse cheered the people so that there was no difficulty in obtaining a full house at each lecture. The sentiment of the people was well shown when the collection plate was passed.

Now since the ice harvest has lasted so long we would naturally think, that the people should have become tired working on the ice by this time. We may still go to the wharf and see equally as many people if not more on the ice, but they appear to be in a more cheerful frame.

And at a moment's glance over the blacked ice the mystery is easily solved. Instead of hauling out one hundred and eighty pounds of ice they haul out something that is more delicate to the palate, a beautiful seven or eight pound bass.

It is now a common sight to see six or seven bass fixed on a stick and a bag at each end marching off for home.

Now since the ice harvest has lasted so long we would naturally think, that the people should have become tired working on the ice by this time. We may still go to the wharf and see equally as many people if not more on the ice, but they appear to be in a more cheerful frame.

ELKHORN-MANITOBA.

It is now about one year since I left the village of Little Britain for the province of Manitoba. I arrived at the Elkhorn on the 22nd day of March, 1889.

I found that spring had opened and farmers were all busy sowing grain, but it was chilly weather till April when it got somewhat warmer. The summer was very hot through the day but cool at night; no rain occurred so that everything was perishing for water, and with the hot winds it seemed to burn the grass and grain so that it was little or nothing.

Some farmers had nothing and some had about half their seed; there was no frost all September. It was a beautiful fall. Farmers plowed up till the first week in December. There was no snow till about the 18th December and since then there has been good sleighing. It has been a very cold winter. Old settlers say that it is the coldest and most steady winter known for a number of years. I have kept a record of the weather every morning at eight o'clock. It ranged as low as forty below zero at times. I have heard people in Ontario, that had been in Manitoba, but that one did not feel the cold so much as in Ontario. I think different. It is cold here and I feel it, and if I can judge by the looks of others, they feel it too.

"The Griggs" has been had through this part this winter. There have been seen three buzzards that I have seen, they were on the third, seventh and fifteenth of February. There is great attention paid to the Indians in this country. In Elkhorn there are five large buildings for the purpose of educating and teaching the Indian trade. Teachers of all kinds, a teacher for every school. Master George Hamby, formerly of Little Britain, is head manager of the boot and shoe department. Of land to farm they have two miles from this village 640 acres. The village of Elkhorn is on the main line of the C.P.R. railroad. It has three large stores, a woodshop, one shoe store and a lumber and implement yard, three hotels, one schoolhouse, a town hall, two churches, one elevator. Fuel is very scarce, coal is \$9 00 per ton, and wood has to be drawn from 14 to 16 miles from the banks of the Pipestone and Assiniboine rivers. It is a great disadvantage to farmers here having to haul their wood so far. This part is getting settled now very fast. I have taken a homestead about four miles south of Elkhorn village, and there are a few left from four to ten miles out. Those who settle near the river have their wood handy, but their market and post office is a long way off. Elkhorn is about eight miles from the boundary between Manitoba and the North West Territory. Water is supposed by a good many to be hard to get, and poor when it is got. I dug a well this winter 27 feet deep and have 10 feet of first class water. Settlers that have been here for a few years seem to be well satisfied, and some are doing well. In this part oxen are used on farms a good deal. They range in price from \$100 to \$125 a team. A good team of horses will fetch \$500.

EDWIN PARSONS, Elkhorn, Man.

DESTITUTE DAKOTA. A WARNING TO CANADIAN SETTLERS. The Governor of South Dakota accompanied a deputation from that State which visited St. Paul last Wednesday, for the purpose of securing aid for the destitute farmers of the State. The deputation met the St. Paul relief committee, and among its speakers was Judge Holdridge, of Miner county, who said:

"Those who represented there was abundance in his section of the country were certainly egregiously mistaken. He had lived in Miner county nine years and knew every man in it, and spoke with perfect knowledge of the situation. The county commissioner had devoted nearly all of their time gratuitously to this matter. Statistics showed that last year wheat raised in that county averaged only one bushel to the acre, corn one bushel, and flax one bushel. There were practically no oats at all, and potatoes averaged only ten bushels. Grass, which was depended on for fuel by many, was almost a total failure also. The people are poor, and it is owing to the contributions from the outside that the people lived through the winter, and in the teeth of all statements to the contrary he declared that it had not been for the generosity of the outside people and the railroads, and if they had an ordinary winter, hundreds would have perished by hunger and cold. Not one farmer out of five has seed, and they don't know where to get it."

W. C. T. U. COLUMN. "For God and Home and Native Land."

Methodist Hot Shot. A Peterboro saloon-keeper wants to take \$5,000 out of Joe Hess, because of some strong things he had said to that town. How would the proprietor of the Palace have enjoyed some hot shell like the following uttered by John Wesley, the father of methodism, against all her Majesty's subjects who "sell this poison,"—which of course includes the fellows in Peterboro as much as any other section of Her Majesty's Dominion:—

Her Majesty's subjects who wholesale; neither does their eye pity nor spare. They drive them to hell like sheep. And what is their gain? Is it not the blood of these men? Who, then, would envy their large estates and sumptuous palaces? A curse is in the midst of them; the curse of God cleaves to the stones, the timber, the furniture of their homes! The curse of God is in their gardens; their walks, their groves; a fire that burns to the uttermost hell! Blood, blood is there; the foundation, the floor, the walls, the roof are stained with blood. And can these boys, O thou man of blood—though thou art clothed in angel's every day—canst thou hope to deliver thy fields of blood to the third generation? Not so; for there is a God in heaven; therefore thy name shall be

WHAT MEDICINES ARE MOST CALLED FOR?

asked the reporter of an old druggist. "Dr. Pierce's preparation," he replied. "They are sold under positive guarantees that they will, in every case, give satisfaction, or the money is promptly refunded. His 'Favorite Prescription,' for all those chronic weaknesses, nervous and other derangements peculiar to women, is used with untiring success. It cures weak back, bearing-down sensations, irregularities and weakness common to the sex, and being the most perfect of tonic medicines builds up and strengthens the entire system. The demand for it is constant, and I am conversant with scores of cases cured by it."

Returning after a few moments' absence, the venerable wielder of the pestle remarked, "The number of preparations and other so-called 'blood medicines' is legion; but Dr. Pierce's Golden Medical Discovery outshines them all and it is the only blood-purifier of the kind which I am obliged to keep upon my shelves, that is guaranteed to benefit or cure in all cases in which it is recommended, or money paid for it is refunded."

"In the line of pills," remarked the old gentleman, "the little Sugar-coated 'Pellets' put up by Dr. Pierce had all others, both in amount of sale and in general satisfaction they give my customers."
