GLENNAM.
Special to The Warder.
IN LOOKING over the Post of the 23rd, I noticed a correspondence from Glenora, in which the writer has tried to make himself believe that he is a reformer, patriot and orangeman. I will take it upon me to inform him that he is neither of the three reformer, patriot, nor orangeman; but I will allow him to style himself a good girl. Why, to read that correspondence, it would make a true patriot sick. Let of all he says he is a true orangeman. Well, Mr. Editor, I would inform him that his secret was a true orangeman's style. It is true he might have crawled into the society to accomplish some end that he had in view. My advice to him is to withdraw from the society. I am positive that we can do without such a patriot, and a warning as he gives.

He says to the intelligent election officers of the mendacious Sam Hughes, of THE WARDER. Why, friend Hughes, do you not try and please this worthy correspondent, who sits at home and let Dr. John H. Key have it his own way. But Mr. Key is not going to get there all the same.
