Make trreverent spectators Grin. A diverting farce was enacted in the House of Lords the other night. It was not a new affair; it was an old comedy adapted to the occasion. When a new peer is introduced to the Opper House the comedy is performed and the new Lord becomes the chief actor in it. He is the leading figure in a function quite as amusing as the "Ceremonie Turque" in "Le Rourgeoise Gentilhomme," as they give it at the Comedie Francaise, Puzzled by the devel and rather uncomfortable position in which he finds himself, confused by the gastionistics, which are almost as claborate as

"Well, the Germans don't build ships, least-wise not wooden ones, so much as some other people do. They buy second-hand ships, and ithey do most of their bluying in America. The German merchants operate on smaller capital than ours, and they can't or won't put as much money into timber as they do here. They have a sharp eye for bargains, too, let me tell you, and when they find a tub that's somewise leaky, slow or but presentable and cheap, they buy her, copper bottom her, and start her on her travels again. Lord! There's lots of American-built ships flying the Dutchmen's flag at our wharves. Some Norwegians buy 'em, too, but it's mostly Germans that get 'em."

This throws a light on old ships, but the pins, pianos, and sewing machines are still to be accounted for.

SCALY SKIN DISEASES

Cured by Cuticura

By disease (psoriatis) first broke out on my left cheek, apreading scross my nose, and almost covering my face. It may into my eyes, and the physician was afraid I would lose my eyesight altogether. It spread all over my head, and my nair all fell out, until I was entirely baid-headed; it then broke out on my arms and shoulders, until my arms were just one sore. It covered my entire bady, my face, head, and shoulders heing the worst. The white scales fell constantly from my head, shoulders, and arms; the skin would thicken and be red and very tehr, and would crack and bleed if serarched. After spending many hundreds of chilars, I was pronounced mourable. I heard of the Curicuna Ressours, and after using two hottless Outcome Ressours, and one sake of Curicuna, and one sake of Curicuna, and one sake of Curicuna, and one sake of Curicuna Ressours; and one sake of the disease would leave a very deep sear, but the Curicuna Ressours with a pen what I suffered before a ing the Curicuna Ressours. under one sum the "ordinary contents" of all buildings not cut off by a distance greater than 40 ft, the same as if the contents were all under one roof. The London Mutual requires a seperate sum on the contents of each building, if the distance is more than 12 it. This is a very important difference in

S. In the Royal Canadian it is a part of the contract that standard STEAN THERSALS may be used without a special permit and without any restriction as to the distance from stacks or buildings, care takers, pails of water, kind of fuel or direction of the wind. Many of the policy holders in the London Mutual were obliged to run their own risk while threshing last season, because it was conditions of their permit. When a farmer pays for insurance he should seeme a poller which will hold him sate when it is most

9. The Royal Canadian is obliged to its losses within sixty days and usually takes much less. The London Mutual need not pay for ninety days and since it has become so hard up as to be obliged to borrow money largely it usually takes about the full time allowed.

10. The Royal Canadian policy is subject to the statutory conditions only. It has none of the numerous variations against the policy holder printed in red ink on the bank on the London Mutual policy.

11. As to security, the inspector of insurance, reports that the Royal Canadian has \$202,758, the amount he estimates to be necessary to enable the company to carry out all its engagements with its policy holders. Besides this he reports that it has to the good the \$400,000 capital paid in cash by the at 10 o'clock a.m., in the usual place Rettie's Station, All persons interested will please govern themselves according. The Assessment Roll is in the Clerks Office, and all appeals to be heard at said court should be made by the 21st of May inst. good the \$400,000 capital paid in cash by the shareholders, and a net surplus \$117,607 making in all a total cash surplus of \$517,607 to protect its policy holders against unexpected contingencies. in addition to these cash items it has a subscribed capital of \$100,000 not called up. Recording the security of 000 not called up. Regarding the security of the London Mutual the inspector reports that the amount of unearned premium noies it should have on hand is \$290,309. To make up this amount in cash a second call women have to be made on the premium notes for a large amount, leaving a surplus of only \$74,218, even if there were no bad debts, and this surplus is made up wholly of the unpaid balance of premium notes already heavily assessed. "The company enparts the losses adjusted but unpaid at the close of the year \$6,389, but the inspector of insurance finds the liability for unpaid losses at the end of the year was \$20,286. The cash on hand to pay these losses amounted to only \$13,911." es, Buggies, Phaetons and Carriages in general, In view of the foregoing facts farmers will have no difficulty in deciding as to the company in which they should be insured.
