JANETVILLE.

Special to The Warder
Storm.—One of the severest rain-storms over witnessed by the oldest settler visited this place on the night of the 4th inst., doing great damage to the growing crops, and leaving deep cuts in the fields behind it; also, on the 5th inst., a black cloud was seen rising in the N W., warning us of another such storm, lasting for two hours, driving before it everything out of its way, large stones and stumps, carrying them like feathers to the lower ground. Many farmers will have to plant their potatoes over again. In some cases their whole planting is swept out of the held. The village has suffered severly. The two mill ponds broke away, and Mr. John Bure is a heavy loser—logs, lumber and shingle bolts being swept away in the flood. 40 feet of the church shed toppled over, it being undermined by the flood, and some parties removed their furniture fearing that their house would be carried away.

Church Service.—One of the moet interesting and profitable services was held in the Janetville church on Sunday evening the 1st inst., by the Rev. Robert H. Rolline of Minden a young man of great promises and superior telent. The church was crowded to overtalent.

inst, by the Rev. Robert H. Rollins of Minden a young man of great promises and superior talent. The church was crowded to overflowing. The young man took for the foundation of his remarks the 2nd chapter of leaish, 3rd verse, "And many people shall go and say, come ve, and let us go up to the mountain of the Lord, to the house of the God of Jacob." From the moment he announced his text to the close of his discourse every eye was rivited upon him, and perfect silence reigned, while illustrating the seven well-known mountains of Palestine and spiritualized them to his of Palestine and spiritualized them to his hearers in a very satisfactory way. Altogether it was a profitable time, and many that had the privilege of hearing him will not forget his discourse in haste.

OSHAWA'S EXPERIENCE.

what is known as the "grain tester" as a means of fixing the gravity of grain, particularly wheat. After it had been in use for some time an order-in-council was passed admitting this tester to verification. Within the past few months, however, complaints have reached the Inland Revenue Department from farmers in different parts of the country questioning the accuracy of this instrument and claiming that as it contained only the sixteenth part of a bushel, the slightest error in measurement made by it, when multiplied by 16 to give the weight of a whole bushel, made the mistake a serious one in deciding the gravity of grain. The farmers represent that the tester, if it is to be used at all, should be of the capacity of half a bushel, or at least one peck, and thereby the errors which are now likely to occur in fixing the gravity of a bushel. the steamer.

Cured by Cuticura

My disease (peoriasis) first broke out on my left cheek, spreading across my nose, and almost covering my face. It ran into my eyes, and the physician was afraid I would lose my eyesight altogether. It spread all over my head, and my hair all fell out, until I was entirely baid-headed; it then broke out on my arms and shoulders, until my arms were just one sore. It covered my entire body, my face, head, and shoulders being the worst. The white scabe fell constantly from my head, shoulders, and arms; the skin would thicken and be red and very itchy, and would crack and bleed if scratched. After spending many hundreds of dollars, I was pronounced incurable. I heard of the CUTICURA REMEDIES, and after using two bottles CUTICURA REMEDIES, and after using two bottles I had taken four bottles, I was almost cured; and when I had used six bottles of CUTICURA REMOLVENT and one box of CUTICURA, and one cake of CUTICURA SOAP, I was cured of the dreadful disease from which I had suffered for five years. I thought the disease would leave a very deep scar, but the CUTICURA REMEDIES cured it without any scars. I cannot express with a pen what I suffered before using the CUTICURA REMEDIES. They saved my life, and I feel it my duty to recommend them. My hair is restored as good as ever, and so is my eyesight. I know of others who have received great benefit from their use.
