say \$1000, the Royal Canadian is obliged to pay \$1000, if a loss occurs. In such a case the London Mutual is obliged to pay only two-thirds of the cash value, or \$800. 2. If a horse worth \$90 is killed in the fields by lighting, the Royal Canadian is obliged to pay \$90. The London Mutual pays only \$60.

It's building worth \$1200 is insured for

3. For a cow worth \$30 killed by lighting the Royal Canadian pays \$30. The London Mutual pays only \$20. For other animals the Royal Canadian pay the full value. The London Mutual pays not more than \$5, no matter how valuable the animal may be.

4. In the Royal Canadian animals are insured against lightning while at pasture anywhere. In the London Mutual they are insured while pasturing on the premises of the insured only.

5. When articles are insured specifically such as musical instruments, the Royal Canadian is obliged to pay the full amount insured up to the cash value of the article. The London Mutual pays only two-thirds of

6. When "ordinary contents" of out-buildings are insured by the Royal Canadian ALL implements are included. In the London Mutual only one resper and one mower are included no matter how good others may be.

7. When the outbuildings are not joined to each other the Royal Canadian insures under one sum the "ordinary contents" of all buildings not cut off by a distance greater than 40 ft, the same as if the contents were all under one roof. The London Mutual remises a saperate sum on the contents of requires a seperate sum on the contents of each building, if the distance is more than 12 it. This is a very important difference in

8. In the Royal Canadian it is a part of the contract that standard STEAM THESHERS may be used without a special permit and without any restriction as to the distance from stacks or buildings, caretakers, pails of water, kind of fuel or direction of the wind. Many of the policy holders in the London Mutual were obliged to run their own risk while threshing last season, because it was found to be impossible to comply with the conditions of their permit. When a farmer pays for insurance he should secure a policy which will hold him sate when it is most required.

9. The Royal Canadian is obliged to pay its losses within sixty days and usually takes much less. The London Mutual need not pay for ninety days and since it has become so hard up as to be obliged to borrow money largely it usually takes about the full time allowed.

10. The Royal Canadian policy is subject to the statutory conditions only. It has none of the numerous variations against the policy holder printed in red ink on the bank on the London Mutual policy.

London Mutual policy.

11. As to security, the inspector of insurance, reports that the Royal Canadian has \$902,758, the amount he estimates to be necessary to enable the company to carry out all its engagements with its policy holders. Besides this he reports that it has to the good the \$400,000 capital paid in cash by the shareholders, and a net surplus \$117,607 making in all a total cash surplus of \$517,607 to protect its policy holders against unexpected contingencies. in addition to these cash items it has a subscribed capital of \$100,000 not called up. Regarding the security of the London Mutual the inspector reports that the amount of unearned premium notes it should have on hand is \$200,000. To make up this amount in cash a second call would have to be made on the premium notes for a large amount, leaving a surplus of only \$74,218, even if there were no bad debts, and this surplus is made up wholly of the unpaid balance of premium notes already heavily assessed. "The company enparts the losses adjusted but unpaid at the close of the year \$6,380, but the inspector of insurance and the liability for unpaid losses at the end of the liability for unpaid losses at the end of the liability for unpaid losses at the end of the liability for unpaid losses at the end of the liability for unpaid losses at the end of the liability for unpaid losses at the end of the liability for unpaid losses at the end of the liability for unpaid losses at the end of the liability for unpaid losses at the end of the liability for unpaid losses at the end of the liability for unpaid losses at the end of the liability for unpaid losses at the end of the liability for unpaid losses at the end of the liability for unpaid losses at the end of the liability for unpaid losses at the end of the liability for unpaid losses at the end of the lability for unpaid losses at the end of the lability for unpaid losses at the end of the lability for unpaid losses at the end of the lability for unpaid losses at the end of the lability for unpaid l
