A NARROW ESCAPE. - Her Majesty's servent one worthy mail certies), Mr. Edward Bicare had a very narrow escaps on the 28th, while on the road home from the discharge of his duties. There is a very handy place on the shore of our lake, called the "brush fence to drive a horse or team with their rig right into the lake and turn around and come ont again. It seems Mr. Vicars has been in the habit of driving his more and rig into the lake, and then stepping out on the shafts of his buggy to nucheck his more so she can drink. So he done as usual last Wednesday, the mare gave a little move of some kind and he lost his balance and fell into the late, and the mare put her foot on his head and held him down till he was somely "done for." Mr. Joe Silverthorn of Bolsover was in the rig at the time and had to jump out and dive for his man. He is a good driver too, and we think he is worthy of a medal from the humans society.

a modal from the humane society.
Sannaru Dessonarion—Some mice Sannaru Desecration—Some miserable renghs, from somewhere in creation, several parties of them, came into town last Sunday merning about 8 a m. Two parties of them drove through to Daiton to pick long black-berries, and the rest camped at our bridge, to shoot dricks all day, and fah, and otherwise have a high old time. We will let this offence pass, probably, but we wont the next. We will give them an introduction to "His Worship" down Orange way, and guarantee that they will be justly dealt with. They evidently have very little respect for themselves, or size none for a civilized people like there is here.

Special to The Warder. The following letter was received some rible hard-hitting, deep cutting letter would appear in next week's Gazette, nearly two weeks before its publication, hence its being looked for—consequently has no impression on the public when they know where it came from. The letter referred to is signed by the "Forsaken Grit," (a title which justly fits him), and is intended to hit hard at a little man whom he says lives on a hill. In the first place F. G. you surely know there are lots of little men lives on hills in this neighborhood, (as few people build in a hollow or do so. Among your dirty accusations you did not state how many days you lost in running around trying to solicit votes for your party. You did not say anything about those presents you talked of to a man that he could He is by special appointment of God by Cornelins the Roman centurion; ment for him to vote grit ticket, nor did you

say anything about those men who were already reform that you dictated to, and had they went to the polls would have voted vice verss. You said nothing about the man over Somerville after June 5th. These are facts which (with many more) I am prepared to prove. In regard to church matters which you also allude to, why don't you say that it is owing to your defeat in working for your party that has stirred up your stubborn and overbearing disposition and caused you to carry political matters into church work. (much to your shame). Did you not say if the Rev. Mr. Logan voted for feil, that he, Mr. I., would not preach in St. Peter's church spain. You said if Mr. L. did so you would never sit in that church again to hear him hold service. You said the church would not be opened nor the keys delivered up only through and by an order from the judge. How can you look a clergyman in the face after the over Somerville after June 5th. These are can you look a clergyman in the face after the diagraceful and disrespectful language you used toward the above named gentleman. (behind his back of course) However when the Sunday came for Mr. Logan to hold service, you of yours managed to slink along the road study unlook the door, return home the and slyly unlock the door, return home the same way, and repeat the work again in the evening to close the doors as though afraid to he seen. You no doubt came to the conclusion that your hest plan was to open the doors (and it was). You must cease to try to have control and rule over St. Peter's church and
