DEOPLE'S

MIND ENDOWED.

REASON GIFTED.

The fellowing letter received by W. A. Webeter, Dominion Emigration Agent, Kingston, has been handed us for publication. Comment is unnecessary as the letter speaks for itself. This is the country that Mesers Cartwright & Co. have been praising, and belittling Canada:—

Canadians in Dakota.

CARTWRIGHT, MAN., Jan. 15, 1891. W. A. Webster, Dominion Emigration Agents Kingston, Ont. :

Dear Sir,—Now that I have got settled here you wanted me to write and let you know what I thought of South Dakota as compared with Manitoba. I do not think they are any more alize than day is like night, as far as the people in the two places are concerned, for in South Dakota the farmers are all discontented on account of big interest, high taxtion, and poor crops, so that the farmers are all leaving that can get away, and in some cases they are cessfully stand. That it may become known, the Proprietors, at an enormous expense, are placing a Sample Bottle Free into every home in the United States and Canada. If you have a Cough, Sore Throat, or Bronchitis, use it, for it will cure you. If your child has the Croup, or Whooping Cough, use it promptly, and relief is sure. If you dread that insidious disease Consumption, use it. Ask your Druggist for SHILOH'S CURE, Price to cts., 50 cts. and \$1.00. If your Lungs are sore or Back lame, use Shiloh's Porous Plaster, Price 25 cts. that can get away, and in some cases they are leaving—and leaving all behind that they brought with them eight years ago! besides losing three years time. They are glad to get away at any cost, as they had got so far behind. You could see them going last fall in every direction, taking what they could with them, BY TENDER.

Trent Valley Canal.

THE MATTER IN THE HANDS OF THE PEOPLE

To the Editor of the Peterboro Review. SIR,-In letters I tely published on the above subject, the writers are inclined to condemn the Government for not going en with the building of the Trent Valley Canal. I think that if they looked at the action of the Government fairly they would think differently The Government is responsible 30 Humanely Educated Horses, to the people and can only do what the voice of the people proclaim they shall do. And how have the people sp ken on this subject?

If, Mr. Editor, you should have forgotton, let me remind you. For several years large deputations were sent from this county to Ottawa to urge the Government to make appropriations towards the construction of this work and our members were told they must urge the Government to carry out

THE WISH OF THE PEOPLE. Our members believing the people were in carnest put the matter so strongly before the Government that their endeavore were rewarded by the Government putting under construction and completing some of the most difficult sections of the canal. A general Prices 25, 35 and 50 cen's, Reserved State election took place just about the time these sections were completed and the people had an opportunity of showing their approval of the Government and their representatives. Mr. Stevenson and Mr. Burnham, who worked so hard and faithfully at Ottawa. And how did they? After a hard struggle Mr. Stevenson was returned by a "baker's dozen," and Mr. Burnham was defeated. The Government naturally did not expect this and thought the best course would be to appoint a commission

to look into the whole scheme. What other course could they adopt under the circumstan-No. Mr. Editor, the Government or our members were not to blame. The blame should rest with those who misled the people by side issues to vote against our members who had got the Government to commence a work that would, in a few years, have given us a grand water-way for the products of the west through our midst to seabord, and which would have the effect in our time of bringing into use every water power between Trenton and Georgian Bay and building up towns and cities where now only villages are struggling to exist, and our honest working men would find employment twelve months instead of six months in the year, and our hardworking farmers would find a home market for all they could produce. These were the results that were produced by the building of the Eric Canal and they will be ours if we are true to ourselves. have the effect in our time of bringing into use

IT IS NOT TOO LATE. Now is the time. Let our Town Council and County Council rise to the occasion and recognize the importance of building this great waterway and many of the present generation and futuregenerations will bless them for being wise in their time.

Let me, Mr. Editor, call your attention to one more matter before the close. Just com-pare the present scheme of building a ship railway from Lake Huron to Toronto at the cost of \$12,000,000 and our great waterway at a cost of \$6,000,000. The former would take

a ratiroad to Lakeneid.

2nd. That we would have steamboats running from Lakefield to Linday.

3rd. That we would grind wheat grown in the Northwest at Lakefield.

4th. That Lakefield would be lighted by electricity.

And now I make another, on condition that the people of this country will only be un-animous, that

INSIDE OF TEN YEARS

we will be shipping grain, flour, stone, lumber &c., to Moutreal by barges and that the increase on the assessment value of property in that portion of the township of Douro benefited by the building of this canal will be an amount equal to one-quarter of the present assessment of the whole township.

I think the Board of Trade of Peterborough or Town Council should call a public meeting during the sitting of the County Council and stope should be taken to get the Government to commence work on the Trunton, Campbell-

ford and Peterborough sections, and that a grant of \$250,000 should be saked for each section during the coming session of Parliament. Yours, &c.,

R. C. STRICKLAND.

The Lintwhite of Song, she was dying abroad,
Far, far from the hills of heather.
And her mind far wandered a backward road.
Where the bairnies played together

And she sang in her fever, pathetic and slow, Her thoughts in her own land of glory— "You tak' the high road, and I'll tak' the low, But I'll be at Loch Lomond before ye!"

Then opened her eyes to the coming of bliss, And her ear to some Heavenly chorus— She put up her mouth for the angel to kiss, An wan to the yetts before us ! -WILLIAM WYE SMITH

Bye Elections.

In North Perth election for the local legislature held on Friday last, Thomas Magwood (conservative), of Mornington, was elected by a majority of 51 over Dr. A. E. Ahrens (reform) the unseated member.

The election for North Norfolk, on Friday ast, to fill the vacancy in the local legislature aused by the death of the late J. B. Freeman resulted in the return of Mr. E. Carpenter, the reform candidate, by a majority of 232. In South Norfolk, on the same day, Mr. William Charlton, who was recently unseated by the courts was again returned to the local

Reciprocity and the General Election.

It is obvious that if leaders of the so-called liberal party in this country continue in their present course they will seriously obstruct the reciprocity negotiations. They will have unrestricted reciprocity or nothing, and unrestricted reciprocity is a manifest impossibilicy, except on the conditions of universal free trade or the withdrawal of Canada from the British Empire. By promising to the United States reciprocity on terms which as Mr. Wiman himself contends, mean United States domination and the end of British influence. sition leaders in Canada, is able to offer terms so flattering to the national vanity of our neighbors and so encouraging to the largest aspirations of the republic, the only way for the government to keep the negotiations with-in the bounds of reason is to show that the people of Canada are not ready for the effacement of the Dominion of Canada as a part of the British empire. Mr. Wiman and his Canada are not ready for the effacement of the Dominion of Canada as a part of the British empire. Mr. Wiman and his Canada are not ready for the British empire. Mr. Wiman and his Canada are not ready for the result of parliament in March, assurances that after the next elections they month the remainder of their days rather than assurances that after the Dominion of Canada are not ready for the effacement of the Dominion of Canada as a part of the Dominion of Canada as a part of the British empire.
