NORTH VICTORIA!

TO THE ELECTORS OF

GENTLEMEN, - Having been freely and unanimously nominated by the regularly called liberal-conservative convention of North Victoria, as candidate for the coming election for the House of Commons, and having accepted the same, I respectfully solicit your vote and influence in my behalf.

The Government of the Right Honorable Sir John A. Macdonald has my hearty sympathy; and, if I am elected, I shall extend to him and his colleagues a liberal support, so long as I believe their policy to be in the interest of my constituents and that of the Dominion at large.

Among other planks in my platform are:

1. No direct taxation of farm lands for Dominion revenue. 3. FAIR TRADE, viz. RECIPROCITY with, not only, the United States, but with all other nations,

3. No discrimination, in trade, against Great Britain.

No extension of provincial subsidies.

Protection to farmers in their cattle, hog, dairy and grain industries.

6. The immediate construction of the Trent Valley Canal. 7. As in the past so in the future, I shall advocate and encourage (a) the opening up of the best markets for farmers' live stock and general products.

(b) the development of the mineral interests of the northern portions of the constituency, and (c) the railways

Before the election I shall endeavor to see as many of the people of North Victoria as possible; but as the time at my disposal is necessarily limited and the constituency very extensive it will be impossible to call personally on every elector. Public meetings will be held throughout the riding at which I

hope to meet the great majority of the people. Again, respectfully requesting all those who approve of my plat-form to use their best endeavor to return me at the head of the poll. I have the honor to be gentlemen, your obedient servant,

SAM HUGHES.

Chicago pork.

The Ontario Bureau of Industries in November 1890, gives us 1.140 559 as the number of hogs in Ontario, being an increase of 305 000 hogs over 1889, and still these are not enough for our requirements. I see the value of the 1,140,559 hoge put at \$8 each, or a total of \$9.124,472.

Now, the question for the farmers of Ontario is, shall we continue to raise peas, corn, etc., and keep on feeding hogs and improving our land by making it richer, with the present duty on pork to keep our market from being flooded with cheap pork country, and expect to be able to add something to the prosperity of that country by employing labor and capital.

advantages we have over the American farmers in being able to ship our cattle to the inland markets of the old country, which means at least \$10 per head more for our cattle than American; and if our cattle exports increase at the same rate as they did last year, when 123, 136 were shipped from Montreal to England—an increase of 50,000 head over the previous year—in two vears the amount our farmers would receive by having the old country markets as they are now would more than pay the duty on all the barley exported to the United States even under the McKinley art.

There is not the slightest doubt but with unrestricted reciprocity these privileges would be taken away, as we have been very near losing them several times, (as the English farmers are opposed to them) and but for the prompt action of Sir Charles Tupper, being on the spot, and acting quickly when they said our cattle were diseased, we should have lost them.

Victoria Election Notes.

South Victoria will return Mr. Chas. Fairbairn with a largely increased majority. In the rural districts his gains will be immense. The pettifoggers of Lindsay are swarming

over North Victoria seeking to induce the

"farmers" to go in for "free trade with the

United States." in order that the aforesaid

pettifeggers may make money by drawing mortgages, and foreclosing them. Yankee !- wyers are growing rich out of the

poverty of their farmers. The only persons benefiting by hard times among farmers are the lawyers. Hence Lindsay's army of pettifoggers swarm over Victoria

"If your son is a liar, make him a lawyer." says the phrenologist. Hence, have Lindsay's pettifoggers struck their right occupations. The grit annexation pettifoggers infesting North Victoria, with their paid "heelers," have been endeavoring to "induce" conserva-tives to violate the election laws

considerations he deals only with the business points. In Oshawa there are certain factories built and equipped at a gate amount of wages paid out by these factories exceeds a quarter million dollars per annum, or nearly one thousand dollars per working day; so that every four years there is distributed in hard cash a sum equal to the entire assessed value of the own. These factories not only support the town but they create a market for the produce of farms for miles around. The actories in Oshawa manufacture such goods as are made on a great scale in the United States, and Mr. Cowan ventures the prediction that "not a single factory in the town of Oshawa will be in operation in six months after the removal of the customs tariff, with which we are menaced by Sir Richard Cartwright.' He adds that some may attribute his re-marks to a spirit of selfishness because he is interested in some of the industries threatened, but those who know him best will believe that his personal loss would grieve him less than to see the life of the town taken away.
