As well as the handsomest, and others are invited to call on any druggist and get nea a trial bottle of Kemp's Balsam for the Throat and Lungs, a remedy that is selling entirely upon its merits and is guaranteed to ralive and cure all Chronic and Acute Coughs Asthma, Bronchitis, and Consumption.

Large bottles 50 cents and \$1.—56-iy.

The Homelest Man in Lindsay

### Raise the Flag.

How strange 'twould be were Canada extinct, Her history a myth, her records lost, Her timely, princely progress but a dream; Some subtle pen resolved into romance, And palmed upon us for historic truth!

Yet, oh! 'twere better she should be extine Without one vestige of resourceful life,
Without one symptom of responsive will,
Then pose before this age of thought and light,
As not the Canada Great Britain loves, What grand an opportunity is here!

Sublimely great her power to be free, And give the world an answer to the lie That she's bewitched by plutocratic gold. Oh, Canadal be loyal to thyself!

Nor tempted be by trait'rous tongues of men, Whose wretched thoughts, unbosomed to the day, Bear witness to their darkly, night-like minds,

If I had known of the CUTICURA REMEDIES twentyeight years ago, it would of saved me \$200.00 and an
immense amount of suffering. My disease (pooriants)
commenced on my head in a spot not larger than a
cent It spread rapidly all over my body, and got
under my nails. The scales
would drop off of me all the
time, and my suffering was endless, and without relief. One
thousand dollars would not
tempt me to have this disease
over again. I am a poor man
but feel rich to be relieved of
what some of the doctors said
was leprosy, some ri-gworm,
psortasis, etc. I cannot praise
the Cuticura Remedies too
much. They have made my
skin as clear and fee from scales as a baby's. All I used of them was \$5 worth. If
you had been here and said you would have cured
me for \$200.00, you would have had, the money. I
looked like the picture (No. 2, page 47) in your book,
"How to cure Skin Diseases," but now I am as clear
as any person ever was. Through force of habit I
rub my hands over my arms and legs to scratch once
in a while, but to no purpose. I am all well I
scratched twenty-eight years, and it got to be a kind
of second nature to me. I thank you a thousand
times.

DENNIS DOWNING. Waterbury, Vt. Thy sous, the offspring of a milder clime, Yet northern vigor animates their souls; And so that splendid destiny is thine Which made Great Britain mistress of the sea

And makes her crown the prodigy of years; The envied emblem of sagacious Rule! A sign that treason she forever spurns; A sign that traitors are but dastards here,

Mr. W. B. Fee addressed the council in reference to water courses in the east ward, which were closed up with ice, and asking the council to remedy the evil complained of by clearing the culvert of ice, otherwise, serious injury would be done his property.

Mr. Hopkins addressed the council in reference to his account, which was passed at the last meeting, and which was then supposed to be high, Mr. Hopkins offering to submit the account to any two solicitors in town, or have it taxed if the council so wished at his own expense. A short discussion barley and peas, or even goose wheat, rather cussion took in the raising of calves and it was shown the advantage of feeding calves on skim milk, mixing ground flax seed, thus supplying the place of cream at a less coet; they should also be fed whole oats every day was also shown that if calves were kept in the ed at his own expense. A short discussion followed in which it was demonstrated that it was not altogether excessive charges, that was complained of, but so many. It was finally decided that the town solicitor give no finally decided that it was demonstrated that it was not altogether excessive charges, that stable in day time and let out at night during the hot weather, they would grow and do much better than if allowed to lie in the hotsun. The subject of farmers co-operating together and forming beef rings and killing one each advice on town affairs to any member except as he knows now he doubted very much if he

week, by this means sixteen farmers might have fresh meat for their families during the hot weather at an extremely low cost. This on the written order of the mayor.

Moved by Mr. Winters, seconded by Mr.

Kylie, that this council have full confidence in the joint committee of the board of trade and

A STATE SECRET. method prevails to a large extent in other parts of the country and gives great satisfaction.

At the evening meeting a few ladies graced the hall with their presence. An entertaining programme of singing and recitations added much to the interest of the meeting. Mr. W. S. Fraser gave an address on "Tree planting for shade and wind breaks;" he spoke of the necessity of supplying by this means the shelter which we have to so great an extent destroyed. The advantages was also shown in the beauty, the shelter, the profits of tree planting. this council, rewater works, and request them to forward the scheme to completion. Coming to this council for confirmation.—Carried.

works for the town.

A by-law was introduced and passed through the several stages, authorizing the application to the Provincial Legislature, for an act to consolidate the town indebtedness by issuing debentures payable at 40 years, at a rate of interest not to exceed 5 per cent.

Mr. Joseph Maunder was appointed on the Board of health in room of Mr. Samuel Irwin, resigned. Mise Keys gave a recitation that was well received.

Mr. Campbell gave an address on his rambles in the old country, said he was surprised at the ways they performed their farm work using three or four horses tandum, and the heavy implements they use. The addresses were interspersed with music. The meeting was brought to a close by singing the National Anthem.

Irwin, resigned.

A motion was also passed authorizing the mayor to have the bill for consolidating the town indebtedness, amended so as the rate of interest on the debentures to be issued should not exceed 4½ per cent. The mayor explained that the petition for the bill had already been presented to the house, and this motion was necessary in order to have it amended.

Council adjourned.

How Absurd

for people to ruin their health with unwholescene food. The tood prepared with Imperial Cream Tartor Baking Powder is wholesome.—

Trunk. Sir Charles pointed out the essential character of the lake Superior section. Had it not been for it, Canada would be completely at the mercy of the Americans in case of non-interest on the debentures to be issued should not exceed 4½ per cent. The mayor explained that the petition for the bill had already been presented to the house, and this motion was necessary in order to have it amended.

Council adjourned.

Mr. John Campbell followed with a paper on "Economy in winter feeding." He did not favor the use of bran at the present high prices, but would rather purchase clover nay, out it and mix with meal, he preferred raising to be done.

Mr. W. B. Fee addressed the council in believed that they would have been base enough

A motion was also passed authorizing the clerk to advertise in the Toronto Mail, Globe, and Empire, for applications to construct water works for the town.

FAREWELL SPEECH TO THE NOVA SCOTIANS.

AMHERST, N.S., March 9.—Sir Charles
Tupper delivered his farewell address here today before returning to Ottawa. A number

tion exercised great influence, but even if they
thought they had ground for complaint against
the Government he never believed the Grand
Trunk would be base enough to go back upon
England, to go back upon its English shareholders, to go back upon Canada and

AMHERST, N.S., March 9.—Sir Charles
Tupper delivered his farewell address here today before returning to Ottawa. A number
of prominent Liberal Conservatives occupted
the platform, among others Senator Dickey
and Josiah Wood, M.P., for Westmoreland.
Sir Charles returned his heartfelt thanks to
the people of Cumberland for the magnificent
majority rolled up for Mr. Dickey, and promajority rolled up for Mr. Dickey, and proceeded to point out the great issues involved in the contest, in proof of which he called as a witness a man whose name would not be doubted by the Liberal party, viz., Edward Blake, a man who made greater sacrifices for the assistance it had given the Canadian Pacific. The Government had loaned the Grand Trunk an enormous sum of money, not a dollar of which had been repaid; while the \$30,000,000 loaned the Canadian Pacific had been repaid before it was due. When Mr. nada. An intellectual giant and a man whose Laurier said the States were justified in retalipatriotism had never been doubted, Mr. Blake ating; when he showed that by cutting off had written his letter with the greatest re- communication the Americans could bankrupt actance, and in order to save his party from | Canadian railways, and Farrer was advocating being struck down on the eve of battle had the abrogation of the bonding privileges with the avowed object of cruehing out the life of

the Grand Trunk as well as other Canadian

over. The fact that the letter had not been Grand Trunk creatures published during the campaign was the best evidence that it struck a death blow at the UNITING WITH THE ENEMIES OF CANADA party. Sir Charles quoted from the document in the United States and out of it, to play the to show that the real question was not that of trade, but, Shall Canada remain a part of the nada. Sir Henry Tyler had lent himself, and British Empire, or become a part of the United States? The evidence given by Mr. Blake on the point will admit of no question on the part of his opponents. Mr. Blake had justified every argument advanced by the gov- was admitted by Mr Blake. Sir Charles Tupernment and refuted almost every statement | per declared that the extravagance, corruption made by Sir Richard Cartwright, Mr. Laurier and jebbery of the Grand Trunk railway manand their press. He had proven that our segment, by which millions had been lost to view of the Opposition policy was the true one, and that Sir Richard Cartwright's was blow ever struck at Canada in England, while true, but an inle delusion. during the past three years, followed as it was by the McKinley thumbscrews, as the great object lesson. The Government had relied too passed for 2nd class without preparation last July in the States. Neither are our teachers unappreciative of much upon the intelligence of the country, their work. All must have professional trainwithout taking measures to educate and ing in our Model or Normal schools after they thoroughly inform the tarmers upon the great have attended high school and pass question at issue. But as the campaign prog-ressed the stronger the Governmens became; and had there been another week we would have educational publications of our own of no mean standard, which our teachers nearly all but, as it is, Sir John has as good a majority take. When they have read these and worked two or three hours per day out of school at school work as they are expected to do, they as the interests of the country require. Among the great odds that the Government bad to have not much time left for foreign educational

You will excuse me for saving that you are mistaken as to Canadians. You do not travel enough, or you would know that we have a great country up here north of you, larger than yours—and in it the best public school system, (perhaps) in the world. We have three times the amount of unsettled fertile land that you have. Your population has increased since independence twenty fold, ours thirty five fold. Since 1812, yours has increased eight fold, ours twelve fold. We are rapidly growing into a powerful nation of "Britishers" all across your northern frontier. We are "British to the back bone and twice as far." We are not frezen up in budy or intellect; we have as clever statesmen as you have, we have a better start than you had forty years ago. Our mercantile tonnage is four tons per head of our population; yours about one ton per head. We have the greatest fisheries in the world. We have the greatest railway system in the world. We are the Commercial Highway between the two greatest oceans and between the two most populous Sir Charles said he would let the world into continents. You may have ten times our a state secret. In 1880, authorized by Sir John Macdonald, he had offered the Grand population, but with us every man counts one, in body and intellect, while you have your twelve millions of negroes and added to this Trunk Railway Company, through Sir Henry
Tyler, all the privileges and franchises now
enjoyed by the Canadian Pacific if they would
build that road. Sir Henry Tyler was willing some millions of the dregs of all the European nations, you are a nation of sixty millions—we belong to an Empire of 360 millions. Moblaw is a thing unknown to us. You hang by build that road. Sir Henry Tyler was willing to undertake the contract if the thousand mile section between Nipissing and Port Arthur was omitted. Sir Charles Tupper pointed out that that section was an essential part of the line. Canada could never become a nation without it; so the privilege of constructing the Canadian Pacific was refused by the Grand Trunk. Sir Charles pointed out the essential character of the lake Superior section. Had law is a thing unknown to us. You hang by mob law annually more people than we have annexationists, (not Yankee born), in our whole Dominion. We acknowledge you our cousins—our equals, (and as such we are proud of you)—but in no way our superiors.

There, I have written as requested and good naturedly. I will send you sets of our last examination papers if you will publish them. They might wake up some of your "dead teachers" if you have any and perhaps give the others some new ideas.
