THE METHODIST clergyman's life is indeed an unerviable one. Two or three years in a place, then up and away. THE BOARD OF EDUCATION. - Among many other falsehoods in that not notedly truthful journal, The Post, last week are many anent gentlemen engaged on the teaching staff; and also of the parents, who mark their appreciation of their work. May pupils, teachers and parents or joy the holidays is THE WARDER'S the Board of Education meeting, Without following the slanders and lies in detail, anffice it to say, it was generally known on Tuesday and Wednesday in the County Counoil that Mr. Dobson was going to resign; and an attempt was made to have a couple of other Doing nothing for others to one of the surest names submitted for the vacancy. The great drawback to one was that he was endorsed by one of the objects who have made themselves ridiculous in this matter. The gentlemen of the county council have our thanks for their talented lady addressed a large audience in the baptist church Lindsay on "Home Missions," and presented her ideas and arguments in such kindness; but on three separate occasions pre-viously that same worthy body saked us to become trustee. The town council, north ward electors and south ward electors have also requested us to stand for trustee. But until the present we declined. This time we obliged a friend and, let us hope, have done the Board no very serious harm. It is true Mr. Flavelle was not consulted; nor was his henchman. It was none of their business. But the town will survive such great omission. It is objected not that the educational interests and white roses, with white daisies. The It is no trouble to find people who are willing to give up some size, but the tug comes when they are seked to give up all six. when they are select to give up all sin.

REV. G. W. DRWEY has authorised us to give an unqualified denial to the Poet's oft repeated insinuation, and private whisper that that clergymen had ever either directly or indirectly, in the pulpit or out of it, referred in uncomplimentary terms to THE WARDER OF its editor. He neither directly nor indirectly conveyed any impression that might be construed into the idea that he was uncomplimentary to or opposed to THE WARDER. Mr. Dowey feels this explanation is due both to himself and the Editor of THE WARDER. We thank him for his kind expressions but do not suppose anyone believed the Post's slanders in that connection any more than in any other.
