THE ARENA for '92

"The boldest, ablest, and most original magazine in America."—Jewish Times.

Subscription Price... \$5.00
Arena Art Portfolio... 4.00
We send the Arena and Portfolio, postpaid, for \$5.20

THE ARENA for 1892 will eclipse its previous brilliant record in the strength and ability of its contributions. As in the past, it will continue to be the most aggressive, fearless and outspoken review of the age. All great living issues will be fully, freely and impartially discussed by the foremost thinkers of our day. Great wrongs and growing evils will be unmasked without fear or favor, while the root problems underlying civilization will be more fully discussed than in the pages of any other review.

SOME SPECIAL FEATURES FOR 1892.

I. "A Spoil of Office," by Hamlin Garland, which opens in the January ARENA. This is, without question, one of the greatest novels ever written by an American author. It deals with the social, economic, and political conditions of the modern West, and is characterized by beauty and strength. A golden thread of love runs through the web and web of this great story, which opens in Iowa, shifts its scenes to Kansas, and close in the National Capital. "A Spoil of Office" will be the most talked of story of 1892 and you should read it.

II. Popular Social and Economic Problems. It will be an encyclopedia of social, economic, and political information, giving its readers a masterly exposition of the true conditions and needs of the present, depicting the evils of the hour, and suggesting remedies calculated to secure a wider measure of justice and liberty for the great toiling millions of our land. From its inception THE ARENA has been the STRAFTST CHAMPION OF THE PEOPLE absolutely fearless in its denunciation of plutocracy, monopoly, and all means and measures which wrong the multitude or infringe upon the liberty of the humblest citizen.

III. Psychological Science. During 1892 THE ARENA will have the ablest, most authoritative, and brilliant series of papers ever published on psychical science, by leading thinkers of the new world and old.

IV. The Condition of Woman Throughout the World. Recognizing the fact that the present is the cycle of woman, THE ARENA for 1892 will contain a brilliant and powerful series of papers on the condition of women throughout the world. The opening papers appear in the January number by Prof. A. N. Jannaria, Ph.D., of the National University of Greece. It is on "Women in Macedonia and Lonia." V. "Scientific Papers." Popular papers on scientific subjects by the most profound thinkers of the age will also be a feature of THE ARENA for 1892. The first paper of this series appears in the December ARENA, by the eminent French astronomer, Camille Flammarion, on "Recent Discoveries in the Heavens." The second is by the great English scientist, Alfred Russel Wallace, on "Human Progress Past and Future."

VI. Religious and Educational Problems and Social Conditions will be fully and freely presented by the master spirits in each department of thought.

VII. Short Stories and Biographies. Short stories with a beautiful port to Mr. Garland's great novel, a brilliant short story or biography of some eminent person; thus every member of the family will hail the arrival of THE ARENA with delight.

Indigestion

IS not only a distressing complaint, of itself, but, by causing the blood to become depraved and the system enfeebled, is the parent of innumerable maladies. That Ayer's Sarsaparilla is the best cure for Indigestion, even when complicated with Liver Complaint, is proved by the following testimony from Mrs. Joseph Lake, of Brockway Centre, Mich.:—
"Liver complaint and indigestion made my life a burden and came near ending my existence. For more than four years I suffered untold agony, was reduced almost to a skeleton, and hardly had strength to drag myself about. All kinds of food distended me, and only the most delicate could be digested at all. Within the time mentioned several physicians treated me without giving relief. Nothing that I took seemed to do any permanent good until I commenced the use of Ayer's Sarsaparilla, which has produced wonderful results. Soon after commencing to take the Sarsaparilla I could see an improvement in my condition. My appetite returned, and with it came the ability to digest all the food taken, my strength improved each day, and after a few months of faithful attention to your directions, I found myself a well woman, able to attend to all household duties. The medicine has given me a new lease of life."

Collegiate Institute Notes.

"Coming events cast shadows before," so with the coming great event of January 21st, already this great treat is being generally talked about. Miss Mae Fowler, the brilliant elocutionist, is a young lady of rare accomplishments. She has given about two hundred readings as far west as the Pacific coast. Miss Bertha W. is a talented young violinist, was born in Maine. From her earliest infancy she showed a passionate fondness for music. For ten years she has been under the instruction of the best violinists in the country; hence she does not appear as a youthful prodigy, but as a thoroughly competent and skillful soloist, as remarkable for her amazing technique as for her wonderful talent. Miss Minnie Babcock is a young contralto who has had a marked success in the concert and operatic stage. Her voice is a rich, musical, pure contralto, the lower tones being unusually full and powerful, possessing that peculiar sympathetic quality which never fails to reach the heart of the listener and arouse the enthusiasm of an audience. Mr. E. M. Shorter, for the past five years has been known as one of the most brilliant pianists. He plays with a dexterity of execution and a refinement of sentiment that entitles him to be called an artist. Mr. Walter Emerson is too well known to need any introduction. He surpasses all cornet players. He has won for himself a name throughout the universal world. Circulars will be sent out shortly giving the press critics on this talented one.
