"August Flower"

What is It For? This is the query perpetually on your little boy's lips. And he is no worse than the bigger, older, balder-headed boys. Life is an interrogation point. "What is it for?" we continually cry from the cradle to the grave. So with this little introductory sermon we turn and ask: "What is AUGUST FLOWER?" As easily answered as asked: It is for Dyspepsia. It is a special remedy for the Stomach and Liver. Nothing more than this; but this is brimful. We believe August Flower cures Dyspepsia. We know it will. We have reasons for knowing it. Twenty years ago it started in a small country town. To-day it has an honored place in every city and country store, possesses one of the largest manufacturing plants in the country and sells everywhere. Why is this? The reason is as simple as a child's thought. It is honest, does one thing, and does it right along—it cures Dyspepsia.

Let the wicked forsake his way, and return unto the Lord, and he will have mercy upon him. WHEN JACQUES CARTIER

First ascended the St. Lawrence, the remedy in 1611 among the Indians was the clear gum exuding from the tree, mixed with Maple syrup, and the French settlers, finding its beneficial effects in curing Pulmonary complaints, quickly adopted it as a household remedy. This act of a great measure for the wonderful popularity of the cough and cold remedy known as White Pine Balsam, made from White Pine, Pine Tar, etc., and is not only recommended as a remedy of remarkable power in the cure of coughs, colds, and all lung affections, but its balsamic and expectorant properties make it a valuable remedy in the treatment of consumption.
