The Women must do It. An English exchange says: "It is the women who must settle the drink question. They are united, they are in earnest, they are ready for the fight with the great enemy of the nations. But they have their hands tied, so that they cannot use the only weapon which will eyer strike down the toe. That weapon is the ballot paper in the polling booth," The Sons' Juvenile Work.

To the Editor of The Citizen. SIR,-In your issue of Feb. 27th there appears this statement, "That there is practically no Band of Hope movement in the Dominion." Perhaps you have ever heard of such a place in the Dominion as Nova Scetia, and if not why of course you have not heard of the grand army of the Band of Hope that is workng to day under the auspices of the

Grand Division of the Sons' of Temperance of Nova Scotia. We have in Hallmotto of our order is not simply prohibition, but annihilation of the traffic, an end to which prohibitory enactments are only prefatory work, a position that can

Dr. Richardson's "Temperance Lesson Book" has had a larger circulation than land it has been admitted into the prisons with the Bible, and it is said that 25,000 copies have been distributed among the black population of the States.

"Tounder it into every Canadian ear; burn it into every Canadian conscience; wri e it on every Conadian heart, that the one great and growing issue of Canadian politics, the one question that will never be settled until settled in the right way is the issue that declares that the liquor traffic must be suppressed, annihilated, in Canada." That is worth learning by heart, and repeating everywhere.

The Legislature of Nova Scotia voted down lately by a majority of four, the bill to extend the Provincial electoral franchise to widows and spinsters now qualified to vote under the municipal trauchise. The measure was advocated by T. R. Smith, member for Hants, and opposed by Attorney-General Longley. The Attorney General did not think women would be able to fulfil their divine mission of rearing families if given the electoral 'ranchise. Mr. Tupper, member for Digby, raised a laugh at the Attorney General's expense by pointing out that the bill only proposed to give votes to widows and spinsters.

Some "Figgers."-"Boys at the head of the class, what are we paying for liquor as a nation ?"

"\$9,000,000 annually." "Step to the blackboard, my boy. First take a rule and measure this silver dollar. How thick is it?"

"Nearly an eighth of an inch." "Well, sir, how many of these can you pile in an inch ?" "Between eight and nine."

"Give it the benefit of the doubt and eall it nine, how many inches would it require to pile those \$900,000,000 in?" "100,000,000 inches."

"How many feet would that be?" "9.383,388 feet." "How many rods is that?" "505,050 rods." "How many miles is that?" "1,578 miles."

"Miles of what?" "1,578 miles of silver dollars, laid lown, packed closely together, our national bill would make. That is only one year's grog bill."

Reader, if you need facts about this temperance question, nail that to a post and read it occasionally. It would take ten men with scoop shovels to throw away money as fast as we are wasting it for liquor.—American Ex.
