It appears from a recent legal decision that when an auctioneer is employed to sell farm stock or other goods of a party, he must make a careful search in the proper offices to find out if any one has a chattle mortgage or other lien er claim against the same, otherwise he will be held liable to any one who may have such a claim, and whose rights are interfered with. He virtually guarantees the title to all goods sold by him. This is pretty hard on the auctioneers,—Tweed News.

There is a mystery about the effect of weather on piety. Sabbath heat seems hotter, Sabbath cold seems colder, and Sabbath rain seems wetter than that of any other day; for the same measure of heat or rain or cold on a week day will not keep one from his usual business. We need a Sabbath almanac, calculated for our churches, that will show by its weather scale when it will be safe for a vigorous christian to expose himself on Sabbath by going to the house of God. Such an almanac would enable pastors and superintendents of Sabbath schools to know whom they could depend on in church, Sabbath school and prayer meeting.—Tweed Naws.

BOWMANVILLE, June 3rd, 1892.

MR. W. W. LOGAN, Lindsay:

DEAR SIR,-Referring to your inquiry, re rumor in your locality about our Company, we beg to say that we are now putting up quite an addition to our factory, and have made contracts for lumber for several years in advance. We are sending a traveller to Australia and Germany to open up and increase our trade there.

We have lately put in about \$6,000 worth of new machinery, and have gotten out new patents and patterns for pianos, and have increased the number of men in our employ. Our goods will not only be the best but the cheapest according to quality in the market.

We have no hesitation in saying that long after the present generation have passed away the Dominion Organ and Piano Co, will continue to sell the best instruments in the world.
