Taylor Denied that he was Dead.
The Montreal correspondent of the Toronto Empire says:—"John Taylor, a prominent Oddfellow, who had taken passage on a steamer bound to England, was reported to have jumped overboard and, on trying to reach land near Point Lévis, was drowned. The body was found and brought to Montreal, and although Mrs. Taylor was not allowed to see her husband's remains he was buried in great pomp by the sorrowing brethren. Last Friday evening at a late hour John Taylor walked into his own house, denied that he had ever been dead and buried, and to-day the Oddfellows who subscribed to give poor John a decent burial are kicking themselves and swearing vengeance upon the man who made the mistake. Mrs. Taylor takes things quite coolly and states that she never believed her husband dead."

From Hamburg to Toronto.
The Kingston Whig publishes the following queer story:—"Writing to a friend in Kingston, a Congregational minister in Toronto tells of the narrow escape he had from cholera. About two weeks ago the minister received religious tracts from Hamburg. There was no signature attached to the package, and the clergyman was curious to know its contents. He read them through, which act took up considerable time and then laid them aside. Next day he was compelled to seek his bed, and for the next week struggled between life and death. During two days of his illness all hope of recovery had been abandoned, and through care and attention he finally pulled through. The attending physicians pronounced it a case of cholera, though in a slight degree, on account of presentations having been taken from the start. Clergymen who knew of the case believed the tracts were sent to the clergyman by some infidel in Hamburg. Only the most intimate friends of the clergyman yet know of his narrow escape. [This is a cock and bull story. Rev. Dr. Wild has not had cholera, and tracts or paper would not carry it.] To know that sin is sin without forsaking it is to commit a sin in sin."

For Sale in Little Britain.

Two good 1 1/2 story 7 roomed dwellings nearly new, with hard and soft water on the premises; good lots well fenced, and in good repair. The above property will be sold very cheap to suitable purchasers. Apply to
JOS. MAUNDER,
Lindsay.
or to J. F. MAUNDER,
Little Britain.
Lindsay, Sept. 21, 1892.—S-4.

Y.M.C.A. Notes.
The Ladies' committee of the Association met on Monday afternoon last at 4 p.m. A large number of members were present. A committee was appointed to prepare an estimate of the amount required to be expended in furnishing the new rooms with instructions to report at a later meeting of the general committee.

The young men's meeting on Sunday afternoon next at 4.15 will be addressed by Mr. M. H. Leigh, on the subject "Great forgiveness, great love." The orchestra will assist in the musical portion of the service. A cordial invitation is extended to all young men.

Town Council.

MONDAY, Sept. 19.
Present, the Mayor, Reeve Kyle, deputy-cornets Winter and Grandell, councillors Head, Fee, Robson, Touchburn, Bryan and Connolly. The following communications were read:—

From G. W. Mills, relative to the planking over the G.T.R. at King and Caroline streets in the east ward. Referred to street and bridge committee.

From William Thurston, asking for 200 feet of 8 inch pipe. Referred to the street and bridge committee with power to act.

From G. H. Hopkins, town solicitor, referring to that portion of Ops attached to Lindsay for school purposes. Referred to finance committee, who are to consult the town solicitor in reference to the matter.

From J. Fivelle, on behalf of Mrs. T. S. Williams, relating to the assessment of her late husband's salary, who had only been in receipt of salary for four months previous to his death. Referred to the court of revision.

From E. Wood, stating that he had received from the water works company authority to make all connections for them with their pipes and asking for patronage of council. Referred to street and bridge committee.

From a guits percha company relative to agreeing lease. Received and filed.
Petition from H. Collins and others, asking for a ditch to be opened to drain the water from St. David's and Colborne streets. Referred to street and bridge committee.

Bond of E. F. Jewett, tax collector, H. Workman and David Brown being bondsmen in the sum of \$50,000 read, and on motion referred to the finance committee with instruction to have the bond filed in; that all moneys collected be paid in every day instead of every third day.—Carried.

Report of finance and assessment committee read, recommending the payment of several accounts which were given in detail, which after some discussion was adopted.

The mayor stated to the council that D. J. McIntyre, the newly appointed police magistrate, had filed his commission with the clerk, and proposed to assume his duties at once. Reference was also made to the visit of the Lieut.-Governor, asking the council to do all they can to make the visit of his Honor as pleasant as possible, and a credit to the town.

The mayor also brought before the council the unsanitary state of the town, urging on the council the necessity of assisting the board of health in their endeavors to have all unsanitary places in the town properly cleaned and disinfected.

On motion Dr. Herriman addressed the council on the same matter, stating the action the board was taking, showing the necessity of having a thorough cleaning out in the fall, which would render the work to be done in the spring easier; stating further that in view of the prevalence of cholera the measures proposed were in the interest of the public health, essential and necessary.

Moved by Mr. Head, seconded by Mr. Connolly, that the mayor and the chairman of the police committee instruct the police to help the health officers in the discharge of their duty.

The mayor referred to the death of ex-councillor Cahill, who had long been a member of the council. Two motions were presented, one that the sympathy of the council be tendered the widow of the late Mr. Cahill;

the other that the council attend the funeral in a body, and that the town flag be raised at half mast on Tuesday, the day of the funeral from 10 to 4 o'clock.

A motion was passed instructing Mr. O'Neil, the overseer of the streets and bridges to ascertain who had dug clay out of the west side of Huron street or Simcoe street and have them prosecuted, in case they do not put the street in the same condition as they were before the clay was dug out.

Moved by Mr. Robson, seconded by Mr. Kyle, that the sum of \$125 be granted to the central charity committee, the usual proportion to be paid to the St. Vincent Paul society.—Carried.

A by-law to amend the market by-law was introduced, the amendment providing that for each sale held by a resident auctioneer the fee to be paid shall be 50 cents, and for non-resident auctioneers \$1. The by-law was passed in the usual manner, the 25th rule of the council being temporarily suspended.

The clerk read a statement of expenditures to date.
Council adjourned.

Grain Thresher's Measures.
Frauds having been discovered in the measure used by grain threshers, and these having been reported to the Inland Revenue Department, an investigation was instituted into the measures used by these men in various parts of the province. The investigation brought to light the fact that in few cases were legal measures used, and that under the name of the manufacturers of threshing machines sent out with their threshing machines measures of different capacities. These, they claimed, were not used for measuring purposes, but merely to carry the grain from the threshing machine to the bin, and, therefore, they could send out with their machines whatever they liked. The evidence which the department had obtained was, that in many countries grain was threshed by the bushel, and in every place whether payment for threshing by the day or per bushel, "tally" was kept of the number of bushels threshed, and the result of that did determine the amount paid to the thresher for his days work. This state of affairs having been reported to Hon. John Costigan, he gave instructions to have test cases entered, first against the manufacturers of the threshing machines to determine whether or not what they sent out with their machines were "boxes" or measures, then against the manufacturers of these and the users of them. Two cases have now been tried, one of them before Colonel Denison, police magistrate of this city. In each case the decision of the court sustained the contention of the department that the so-called "boxes" were measures within the meaning of the Weights and Measures Act; that they were used for "trade" purposes, and that, therefore, it was unlawful for the manufacturer, who was a dealer in them to permit them to leave their premises; that they were inspected and stamped by instruction from the Hon. Mr. Costigan, been conducted by Mr. Wm. Johnston, the divisional inspector of weights and measures of Belleville, who had conducted successfully similar prosecutions before and who has given special attention to the legal aspects of the Weights and Measures Act.—Toronto Empire.

Coming to Canada.

The emigration from the United States to Canada still continues, and almost daily the Department of the Interior is informed of small parties leaving some part of Uncle Sam's domains for the Canadian Northwest. Yesterday the following was received:—

"FOUR HURON, September 17.
"Thirty-two farmers from this state (Michigan) left for Manitoba last night."
"M. V. MOINES."

"Salvation Army Notes.
Capt. Chapple and Lieut. Marwick who so recently took charge of the Lindsay corps have had orders to forward. During their short stay they made a large number of friends who sincerely regret their departure and wish them success in their next appointment. Capt. Chapple goes to Toronto XIII and Lieut. Marwick to West Toronto Junction. The new officers are expected for the Sunday meetings.

Mrs. Adj. Howell, of Moncton, N.B., is spending a few weeks with her parents, Mr. and Mrs. D. Leck. Her many friends were pleased to see her.

Sir John Abbott Attends a Privy Council Meeting.
OTTAWA, Sept. 18.—Council sat from eleven o'clock until one yesterday, and again from two o'clock until a quarter to four, when it broke up in order that Sir John Abbott might catch the train for St. Anne's. After council Sir John informed the representative of the Gazette that there had really been no business done as the time had been occupied talking over a good many things which had to be settled before he left for England. He said he would attend another meeting of council this week at which it was expected that some important appointments would be made. Asked jokingly, whether a new premier had been sworn in, Sir John replied with a laugh, "Not yet," and from the jantiness of his manner and the marked improvement which is noticeable in his health, it appeared to the Gazette as if those grit papers which have been so busy of late in providing a new leader for the conservative party have been exercising themselves in vain, and that the present able leader will continue to lead for some time to come. Indeed, from another minister it was learned last night that the council was unanimous in its opinion that Sir John Abbott should retain the premiership, at least until after his return from England, by which time it is hoped that his health, which is rapidly improving will be so thoroughly restored that an talk of his resigning, on account of ill health will be ridiculous. "Should such an unfortunate thing occur, however," said the Gazette informant, "as Sir John's health not improving, and he should feel that he was not strong enough to retain the premiership, there would not be the slightest trouble about Sir John Thompson assuming the leadership, in which event Mr. Meredith and Lieut.-Governor Angers would both enter the Cabinet."

"But who would go out?" as the Gazette. "Now you want to know too much," said the Gazette's informant, "but you ought to be able to make a pretty good guess yourself, if you will remember that there are several lieut.-governorships to be filled shortly."

MARRIAGE LICENSES.
