Special to The Warder. THE concert given here on Jan. 2od, under the auspices of the C.O.O.F. was probably the best of the kind eyer given in the village. Miss Eva G. May, one of Toronto's best ele-entionists did her rising reputation much credit as a reciter. Her selections were good and rendered as could only be done by a master hand. In each subsequent appearance after the first she was leudly applauded and heartily encored. We hope to have Miss May give us an evening again sometime. She will be sure of an audience. The music supplied by Mrs. Roberts, and the singing by Messre. Petty and McSweyn were all of a high order and well appreciated. Petty brings down the house every time. The chair was ably occupied by W. L. Bowes. So stormy was the night that a small house was expected, but contrary to expectation the house was

Small Agencies, but Grand Successes.

Though small assencies, grand successes are frequently schieved which benefit the masses. This is particularly true of Diamond Dyes. There is no other article coating ten cents which has given such grand results, and added so much to the happiness of the home and family. To secure the very best results for ten cents, you must buy the Dismond Dyes; take no other make that dealers may offer; they are deceptive and misleading.—71-1.

Bordering on Consumption. When a cold is neglected it frequently develops a condition bordering on consumption.
