

The Sunny Side of Business Comes in with the Opening of Spring.

WE HUSTLED OUR WINTER STOCK INTO THE TOWN AND COUNTRY AND NOW BRING UP THE REINFORCEMENTS FOR SPRING TRADE.

Squares of Clothing! Brigades of Suits! Regiments of Coats! Squads of Trowsers, Files of Hats and Caps!

With these we attack the Spring trade, and promise you we will rout old high prices, horse, foot and artillery. We have just returned from a trip to Montreal, where we bought a Stock of Clothing held en route for British Columbia. We were there on the premises, trotted out our offer and secured the goods. Made specially for the British Columbia trade, they are the best value we ever set eyes on.

Our Lindsay Store will be liberally supplied, and we can promise the biggest value ever put before the people of the Counties of Victoria and Haliburton. Look out for our Spring avalanche now coming

Cinnamon an Antiseptic.

"No living germ of disease can resist the antiseptic power of essence of cinnamon for more than a few hours," is the conclusion announced by M. Chamberland as the result of prolonged research and experiment in M. Pasteur's laboratory. It is said to destroy microbes as effectively, if not as rapidly, as corrosive sublimate. Even the scent of it is fatal to microbes, and M. Chamberland says a decoction of cinnamon should be taken freely by persons living in places affected by typhoid or cholera.
