SLEEPERS AWAKENED.

CHRISTIAN SALUTATION IN A GLORI-OUS EASTER MORNING.

Waiting for Resurrection-Dr. Talmage Fashions a Soft, Cool Bandage out of Easter Flowers for Broken Hearts

BROOKLYN, April 2.—The Tabernacle was elaborately decorated with flowers to-day, and an unusually large audience assembled to hear Rev. Dr. Talmage's Easter morning sermon. The subject was: "The Sleepers Awakened;" the text chosen being from L. Cor. 15, 20: "Now is Christ risen from the dead, and become the first fruits of them that slept.

On this glorious Easter morning, amid the music and the flowers, I give you Chris-tian salutation. This morning, Russian meeting Russian in the streets of St. Petersburg hails him with the salutation, "Christ is risen!" and is answered by his friend in salutation, "He is risen indeed!" In some parts of England and Ireland, to this very day, there is the superstition that on Easter morning the Sun dances in the heavens; and well may we forgive such a supersti-tion which illustrates the fact that the na-Lural world seems to sympathize with the spiritual.

Hall! Easter morning. Flowers
Flowers! All of them a-voice, all of them
a-tongue, all of them full of speech to-day.
I bend over one of the lilies and I hear it say: "Consider the lilies of the field, how they grow; they toil not, neither do they apin, yet Solomon in all his glory was not arrayed like one of these." I bend over a Rose of Sharon." And then I stand and listen. From all sides there comes the chorus of flowers, saving: "If God so clothed the grass of the field, which to-day is, and to-morrow is cast into the oven, shall he not much more clothe you, O ye of little taith? Flowers! Flowers! Braid them into the bride's hair. Flowers! Flowers! Strew them over the graves of the dead, sweet prophecy of resurrection.

Flowers! Flowers! Twist them into a
garland for my Lord Jesus on Easter morning. "Glory be to the Father, and to the Son, and to the Holy Ghost; as it was in the beginning is now and ever shall

Oh, how bright and how beautiful the flowers, and how much they make me think of Christ and his religion, that brightens our life, brightens our character, brightens society, brightens the Church, brightens everything! You who go with gloomy countenance pretending that you are better than 1 am because of your Augubriousness, you cannot cheat me. A retty case you are for a man that professes to be more than a conqueror. It is not religion that makes you gloomy, it is the lack of it. There is just as much religion in a wedding as in a burial, just as much religion in a smile as in a tear. Those gloomy Christians we sometimes see are the people to whom I like to lend money, for I never see them again! The women came to the Saviour's tomb and they dropped spices all around the tomb, and those spices were the seed that began to grow, and from them came all the flowers of this Easter Morn. The two angels robed in white took hold of the stone at the Saviour's tomb and they hurled it with such force down the hill that it crushed in the door of the world's sepulchre, and the stark and the dead must come

I care not how labyrinthine the mausohowever beautifully parterred the family grounds, we want them all broken up by the Lord of the resurrection. They must come out. Father and mother-they must Husband and wife-they must come out. Brother and sister-they must come out. Our darling children-they must come out. The eyes that we close with such trembling fingers must open again in the radiance of that morn.
The arms we folded in dust must join ours in an embrace of reunion. The voice that was hushed in our dwelling must be retuned. Oh, how long some of you seem to be waiting-waiting for the resurrection, waiting! And for these broken hearts today I make a soft, cool bandage out of Easter flowers.

My friends, I find in the risen Christ a prophecy of our own resurrection, my text setting forth the idea that, as Christ has risen, so His people will rise. He "the first-fruits of them that slept." Before I get through this morning I will walk through all the cemeteries of the dead, through all the country graveyards, where your loved ones are burned, and I will pluck off these flowers, and I will drop a sweet promise of the gospel-a rose of hope, a lily of joy on every tomb-the child's tomb, the husband's tomb, the wife's tomb, the father's grave, the mother's grave, and, while we celebrate the resurrection of all the good.

\*Christ the first-fruits of them that

If I should come to you this morning and ask you for the names of the great con-querors of the world you would say Alexan-der, Casar, Philip, Napoleon I. Ah! my friends, you have forgotten to mention the name of a greater conqueror than all those —a cruel, a ghastly conqueror. He rode on a black horse across Waterloo and Atdanta and Chalons, the bloody hoofs crushing the hearts of nations. It is the con-

queror Death. He carries a black flag, and he takes no prisoners. He digs a trench across the memispheres and fills it with the carcasses of nations. Fifty times would the world have been depopulated had not God kept enaking new generations. Fifty times the world would have swung lifeless through the air—no man on the mountain, no man on the sea, an abandoned ship ploughing through immensity. Again and again has He done this work with all generations. He is a monarch as well as a conqueror; His palace a sepulchre; His fountains the falling tears of a world. Blessed be God, in the light of this Easter morning I see the prophecy that his sceptre shall be broken, and his palace shall be demolished. The hour is coming when all who are in their graves shall come forth. Christ risen, we shall rise. Jesus, "the first fruits of them that slept." Now, around the doctrine of the resurrection, there are a great many mysteries.

You come to me this morning and say:

—If the bodies of the dead are to be raised, how is this and how is that? and you ask ane a thousand questions I am incompetent to answer; but there are a great many things you believe that you are not able to explain. You would be a very foolish man to say:—"I won't believe anything I can't understand."

Why, putting down one kind of flowerweed, comes there ap a flower of this color? Why, putting down another flower-seed, comes there up a flower of this color? One comes there up a nower of this color? Charles white, another flower yellow, another flower when the seed looks to be very much alike are very much alike? Explain these things. Explain that wart on the finger. Explain why the oak-leaf is different from the leaf of the hickory. Tell me how the Lord Almighty can turn the chariot of his omnipotence on a rose-leaf. You ask me

questions about the resurrection I cannot dieses. I will ask you a thousand ques-

I find my strength in this passage :

forth." I do not pretend to make the explanation. You can go on and say:
"Suppose a returned missionary dies in Brooklyn; when he was in China his foot was amputated; he lived years after in England, and there he had an arm amputated; he is buried to-day in Greenwood; in the resurrection will the foot come from China, will the arm come from England, and will the different parts of the body be reconstructed in the resurrection? How is that possible?"

You say that "the human body changes every seven years, and by seventy years of oge a man has had ten bodies; in the resurrection which will come up?" You say.
"A man will die and his body crumble
into the dust, and that dust be taken up
into the life of the vegetable; an animal
may eat the vegetable, men eat the animal;
in the resurrection, that body distributed
in so many directions, how shall it be
gathered up?" Have you any more questions of this style to ask? Come on and

gathered up?" Have you any more questions of this style to ask? Come on, and ask them. I fellspack upon the aunouncement of God's Word: "All who are in their graves shall come forth."

You have noticed, I suppose, in reading the story of the resurrection, that almost every account of the Bible gives the idea that the characteristic of that day will be a great acoust. I do not know that it will great sound. I do not know that it will be very loud, but I know it will be very penetrating. In the mansoleum, where silence has reigened a thousand years, that voice must penetrate. In the coral cave of the deep that voice must penetrate. Mil-lions of spirits will come through the gates of eternity, and they will come to the tombs of the earth, and they will cry: "Give us back our bodies; we gave them to you in corruption, surrender them now in incorruption. Hundreds of spirits hovering about the crags of Gettysburg, for there the bodies are buried. A hundred thousand spirits coming to Greenwood, for there the bodies are buried, waiting for the reunion of body and soul.

of body and soul.

"But," you say. "if this doctrine of the resurrection is true as prefigured by this haster morning, Christ, "the first-fruits of them that slept," Christ rising a promise and a prophecy of the rising of all His people, can you tell us something about the resurrectee body?" I can. There are mysteries about that, but I shall tell you those or four things in recent to the resurthree or four things in regard to the resurrected body that are beyond guessing and beyond mistake.

In the first place, I remark in regard to your resurrected body; it will be a glorious body. The body we have now is a mere skeleton of what it would have been if sin had not marred and defaced it. Take the most exquisite statue that was ever made by an artist, and chip it here and chip it there with a chisel, and batter and bruise it here and there, and then stand it out in the storms of a hundred years, and the beauty would be gone. Well, the human body has been chipped, and battered, and bruised, and damaged with the storms of thousands of years—the physical defects of other generations coming down from generation to generation, we inheriting the in felicities of past generations; but in the morning of the resurrection the body will be adorned and beautified according to the original model. And there is no such difference between a gymnast and an emaciated wretch in a lazaretto, as there will be a difference between our bodies as they are now and our resurrected forms.

There you will see the perfect eye after the waters of death have washed out the stains of tears and study. There you will see the perfect hand, after the knots of toil very life of God in the body.

In this world the most impressive thing the most expressive thing, is the human face ; but that face is veiled with the griefs of a thousand years; but in the resurrection morn that veil will be taken away from the face, and the noon-day sun is dull and dim and stupid compared with the outflaming glories of the countenances of the saved. When those faces of the righteous, those resurrected faces turn toward the gate, or look up toward the throne, it will be like the dawning of a new morning on the bosom of everlasting day! O glorious, resurrected body! But I remark also in regard to that

body, which you are to get in the resurrection, it will be an immortal body. These bodies are wasting away. body has said as soon as we begin to live we begin to die. Unless we keep putting the fuel into the furnace the furnace dies out. The blood vessels are canals taking the breadstuffs to all parts of the system. We must be reconstructed hour by hour, day by day. Sickness and death are all the time trying to get their prey under their tenement, or to push it off the embankment of the grave, but blessed be God, in the resurrection we will get a body immortal. No malaria in the air, no cough, no neuralgic twinge, no rheumatic pains, no fluttering of the heart, no shortness of breath, no ambulance, no dispensary, no hospital, no invalid's chair, no spectacles to improve the dim vision; but health, immortal health! () ye who have aches and pains indescribable this morning—O ye who are never well-O ye who are lacerated with physical distresses, let me tell you of the resurrected body, free from all disease.

Immortal! Immortal! Is It Going to Pieces?

Signs are not wanting that the Republican party is going, or at any rate may pre-sently go, to pieces; and signs are fairly abundant that the Democratic party is rapidly being made over by the stirring and disturbing energy of the extraordinary man who is now President. It may be that Mr. Gresham's accession to the Democratic cabinet means the great interests and great forces of thought in the Northwest are now turning about to the assistance of the Democratic party, Judge Gresham being their gift to the counsels of that party. Mr. Cleveland has been steadily effecting a revolution in the purposes and methods of the Democratic party by drawing so many new men about him, by assisting to shelve so many older men of the Democratic party of former days. The party has grown bold and aggressive and certain of its own mind in consequence of the change. Mr. Cleveland's present term of office may afford him time and opportunity to complete the transformation. Young men are eager to serve him; and a Democratic party of young men is the most formidable danger the Republicans have to fear-the best hope that the Democrats have to cherish.—Woodrow Wilson in The Review of

Ascot's Royal Enclosure Causes Worry. The future disposal of the Ascot duties consideration for some time. It is probable that the whole of them will be transferred to the master of the horse, who has always provided the carriages and horses for the royal processions and is responsible for the conveyance of the royalties both to and from the course. The "royal" enclosure is the matter which is most troublesome to arrange. The Lord Chamberlain does not want to have anything to do with it, and it has been proposed that a certain number of tickets should be placed at the disposal of the Prince of Wales, the remainder being distributed by the master of the horse, who would, however, be limited to persons whose names are on the Buckingham palace state ball or state concert lists. It is no secret that two years ago "exalted personages" declared that there must be a rigorous weeding of the inclosure before they came again to Ascot, and there were some strongly expressed protests against the presence of so much "rag-tag and bobtail" in a place which, when the queen attended the meeting, was strictly limited to the ministers, ex ministers, the diplomatic corps, the court, and a few unofficial personages.

The following remarkable facts are fully certified to as being undeniably correct in every particular. Mr. Haun is well known in the vicinity, having resided here over fifty years, and is highly respected as a man of the strictest honor, whose word is as good as his bond.

As will be seen from his letter, four physicians had attended him, and it was only after he had given up hope of cure that he decided to try Burdock Blood Bitters on the recommendation of a neighbor who had been cured of a similar disease by its use. Mr. Haun writes as follows:

DEAR SIRS,-I think I have been one of the worst sufferers you have yet heard of, having been six years in the hands of four of our best doctors without obtaining permanent relief, but continually growing worse, until almost beyond hope of recovery, I tried your Bitters and got relief in a few days. Every oran of my body in a few days. Every organ of my body was deranged, the liver enlarged, hardened and torpid, the heart and digestive organs seriously deranged, a large abscess in my back, followed by paralysis of the right leg, in fact the lower half of my body was entirely useless. After using Burdock Blood Bitters for a few days the abscess burst, discharging fully five quarts of pus in two hours. I felt as if I had received a shock from a powerful battery. My re-covery after this was steady and the cure permanent, seeing that for the four years since I have had as good health as ever I had. I still take an occasional bottle, not that I need it but because I wish to keep my system in perfect working order. I can think of no more remarkable case than what I have myself passed through, and no words can express my thankfulness for such perfect recovery.

This medicine has completely solved the problem of the cure of indigestion, dyspepsia, and diseases of the general nervous system. It is also of the greatest value in the cure of all forms of failing health from whatever cause. It performs this by the great nervine tonic qualities which it possesses, and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body, and as a great renewer of a broken-down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nervine Tonic, almost constantly, for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.

IT IS A GREAT REMEDY FOR THE CURE OF

All these and many other complaints cured by this wonderful Nervine Tonic.

NERVOUS DISEASES.

As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nervine Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine-tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied; and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply all the power by which the vital forces of the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not contain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves. For this reason it becomes necessary that a nerve food be supplied. This South American Nervine has been found by analysis to contain the essential elements out of which nerve tissue is formed. This accounts for its universal adaptability to the cure of all forms of nervous de-

To the Great South American Medicine Co.:

DEAR GENTS:—I desire to say to you that I have suffered for many years with a very serious disease of the stomach and nerves. I tried every medicine I could hear of, but nothing done me any appreciable good until I was advised to try your Great South American Nervine Tonic and Stomach and Liver Cure, and since using several bottles of it I must say that I am surprised at its wonderful powers to cure the stomach and general nervous system. If everyone knew the value of this remedy as I do you would not be able to supply the demand.

A SWORN CURE FOR ST. VITAS' DANCE OR CHOREA.

Crawfordsville, Ind., June 22, 1887.

My daughter, eleven years old, was severely afflicted with St. Vitus' Dance or Chorea. We gave her three and one-half bottles of South American Nervine and she is completely restored. I believe it will cure every case of St. Vitus' Dance. I have kept it in my family for two years, and am sure it is the greatest remedy in the world for Indigestion and Dyspepsia, and for all forms of Nervous Disorders and Failing Health, from whatever cause. INDIGESTION AND DYSPEPSIA. The Great South American Nervine Tonic

Which we now offer you, is the only absolutely unfailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and hoprors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the stomach, because the experience and testimony of many go to prove that this is the ONE and ONLY ONE great cure in the world for this universal destroyer. There is no case of unmalignant disease of the stomach which can resist the wonderful curative powers of the South American Nervine Tonic.

HARRIET E. HALL, of Waynetown, Ind., says:
"I owe my life to the Great South American Nervine. I had been in bed for five months from the effects of an exhausted stomach, Indigestion, Nervous Prostration, and a general shattered condition of my whole system. Had given up all hopes of getting well. Had tried three doctors, with no relief. The first bottle of the Nervine Tonic improved me so much that I was able to walk about, and a few bottles cured me entirely. I believe it is the best medicine in the world. I is the grandest remedy for nerves, stomach and lungs I have ever seen."

MRS. ELLA A. BRATTON, of New Ross, Indiana, says: "I cannot express how much I owe to the Nervine Tonic. My system was completely shattered, appetite gone, was coughing and spitting up blood; am sure I was in the first stages of consumption, an inheritance handed down through several generations. I began taking the Nervine Tonic, and continued its use for about six months, and am entirely cured. It is the grandest remedy for nerves, stomach and lungs I have ever seen."

No remedy compares with South American Nervine as a cure for the Nerves. No remedy compares with South American Nervine as a wondrous cure for the Stomach. No remedy will at all compare with South American Nervine as a cure for all forms of failing health. It never falls to cure Indigestion and Dyspepsia. It never falls to cure Chorea or St. Vitus' Dance. Its powers to build up the whole system are wonderful in the extreme. It cures the old, the young, and the middle aged. It is a great friend to the aged and infirm. Do not neglect to use this precious boon; If you do, you may neglect the only remedy which will restore you to health. South American Nervine is perfectly safe, and very pleasant to the taste. Delicate ladies, do not fail to use this great cure, because it will put the bloom of freshness and beauty upon your lips and in your cheeks, and quickly drive away your disabilities and weaknesses.
