Toronto, Ont., June 26. Another announcement of interest is made by The Dodds Medicine Company Ltd, of this city, to the effect that they have decided to establish a factory and warehouse at Baffalo, N.Y., in order to supply the growing demand for Dodd's Kidney Pills in the United States. This remedy has never been advertised or placed on sate in the United States, but the popularity of the remedy and the news of its successes in Canada quickly reached the people of the neighboring republic, and orders have poured in, unsolicited, from every State in the Union. The capacity of the Toronto factory is taxed to supply the Canadian market and the management feel that they can only do justice to both foreign and home demands by invading the United States and establishing a depot and factory there. 94 1.
