W. H. POGUE, Little Britain. A Great Success.

Our new system of Cash, Produce, or short date accommodation assures the buyer the full benefits of a strictly cash business, while it affords the thrifty farmer the chance of exchanging his produce for goods at a cash value, whereas at a credit store he is forced to make the exchange at the price that is charged to the man who gets his goods charged for a year. The matter is worth your consideration. Give it a fair trial and we will abide by your decision.

Stock is now well assorted.

Wanted, at highest market price, in exchange, all kinds of farm produce, white beans and dried apples. W. H. POGUE; 1885-7-cov

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action, and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 75c bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Manufactured only by the CALIFORNIA FIG SYRUP CO., SAN FRANCISCO, CAL. LOUISVILLE, KY. NEW YORK, N. Y.

The visitor to Ocean Grove who does not go sailing in the yacht "Emma B." for fun or for fishes, and thereby fails to make acquaintance with the jovial Captain of that redoubtable smack, misses one of the pleasantest sensations of the campaigning season. "Captain! oh, Captain!" cried a sea lady, who had started out to enjoy a sail and found herself unappreciated on her knees at the side of the yacht and invariably moved beyond measure. "do you think we shall go to the bottom and drown?" "Don't worry, madam," was the skipper's kindly reply. "If I thought you were going to die I'd collect your fare in advance."—N.Y. Sun.

For Scrofula

"After suffering for about twenty-five years from scrofulous sores on the legs and arms, I began to use Ayer's Sarsaparilla, and a wonderful cure was the result. Five bottles sufficed to restore me to health."—Benjamin Lopez, 27 E. Commerce st., San Antonio, Texas.

Catarrh

"My daughter was afflicted for nearly a year with catarrh. The physicians being unable to help her, my pastor recommended Ayer's Sarsaparilla. I followed his advice. Three months of regular treatment with Ayer's Sarsaparilla, and my daughter is completely restored to her health."—Mrs. Louise Kiehl, Little Canada, Ware, Mass.

Rheumatism

"For several years, I was troubled with inflammatory rheumatism, being so bad at times as to be entirely helpless. For the last two years, whenever I feel the effects of the disease, I begin to take Ayer's Sarsaparilla, and have not had a spell for a long time."—E. T. Hambleton, Elk Run, Va.

over, one is not obliged to read all that is written, and that is a consolation.

It is amusing to peruse some of the arguments advanced on both sides, but especially on that of the "Antis." "The Lord's Day," "the blessed Sabbath," "the day set apart by the Almighty," are but a few of the many impressive titles given with sanctified airs to Sunday. The old whip of dark-age superstition is loudly cracked, and the majority of those prominent in the churches, not the solid rank and file of the goodly people, but those who are loudest and most prominent in connection with the departments of church work where cheap advertising is had, are vigorously exhorting the electors to preserve unscathed the sanctity of the Sabbath.

To our mind the matter is purely one of business. There is no day specially set apart by the Lord. Common sense, as well as religious teaching for ages, proves that there should be one day in every seven for rest. Custom has established that Sunday shall be that day; and that all shall observe the same day. But no one should pretend that any one period of hours constitutes Sunday. For example many persons will play cards and commit other real or generally regarded offences until the clock strikes midnight on Saturday. They seem to forget that when it is Sunday at noon in one part of the earth it is still Saturday in other parts of the globe, and just dawning Monday in others. They forget that what in itself is wrong on Sunday is wrong on Monday and vice versa.

No good attempt has been made to show, if private carriages, cabs, and steamboats are allowed to run on Sundays, why street cars, especially when run by electricity, should be prohibited.

Visitors to Toronto are frequently impressed with the growth of costly and luxurious churches in that protestant city. Indeed, it now holds the rivalry of catholic Quebec. Well may the poor people exclaim, that if only necessary sums were spent in religious concerns and the balance in industrial enterprises the nation would be wealthier the people better and more prosperous. How can protestants be burdened with voluntary contributions to church taxes, while roman catholics with semi-involuntary catholic taxes for similar ends are not prosperous?

But why argue these questions? The finger of scorn, of calumny, of superstition will be pointed at all daring to think for themselves. The church, always in the rear of progress, the one to retard every forward movement, to hold fast to everything obsolete; condemning advances, commending inaction; the last to liberate her slaves, the first to condemn Galileo, protest itself thoroughly unacquainted with the simplest principles of Christ's teaching—"faith in man and trust in God."

MEMEME.

Special to The Warder. HARVEST prospects were never better. The recent rains together with the windy cool weather is just what the Emily farmers are looking for. The alkali clover is just fine.

The young man who experienced the dreadful fall of "Doubt's bridge" 65 feet, is recovering slowly under the skill of Dr. Bradd, who secured suitable hospital rooms from Scott, S. English, 45th Btce. Co., and is the only support of a widowed mother and sister. He receives all the attention here from outside citizens who always are kind to worthy characters.

HARRY FARR, student of Queen's College, Kingston, occupied the presbyterian pulpit here last Sabbath acceptably, and promises to take a place amongst the leading divines of the Dominion.

JOSEPH LOWES, aged 81, comes to the village weekly, and can talk of the time when there were only two houses seen in our village. He is a "veteran" to a sure.

Mr. Andrew Thornton, brother of Lieut. Thornton, 45th Btce., who has been recuperating his health here for the last 12 months, has accepted a position as office manager with Mowry & Sons, Gravenhurst. His large experience as reporter and operator in the Pennsylvania oil field should make him a useful Canadian, having about decided to remain in his own native land.

PERSONALS.—Miss Bruce (T. Ivory & Sons milliner) left last week for Waterloo, to spend her vacation with her parents. Mrs. A. E. Bryson and daughter left last week for Elkhart, Wisconsin, to visit her daughter Mrs. Baldwin. They purpose staying a few days at the World's Fair on their way home. Mr. Geo. Sherwood, son of our respected Wm. Sherwood of the east ward, has been appointed lecturer of history and literature in Huron college, London, Ont. We extend our congratulations. Mr. Rosenbaum of Toronto, was in our village last week in the interest of a

GRAIN CUTTING.—A number of our farmers are cutting fall wheat, rye and barley. The crops round here are very good and the farmers are hoping for good prices.

PULPIT.—Mr. Harry Farr occupied the presbyterian pulpit last Sabbath and preached a very excellent discourse. Rev. Mr. Nugent of Palmerston, occupied the methodist church pulpit last Sabbath and preached practical sermons.

EXCURSION.—The excursion to Ball Lake on Monday was one of the largest that ever went from here. It was in connection with the methodist Sunday school.

ORGANIST.—Miss English, owing to illness has resigned being organist in M.C. Miss McCreo is her successor.

DIED.—Mrs. Montgomery of Ops, daughter of Mr. John Fee of Emily, died suddenly on Saturday evening. She and her baby were buried on Monday eve in Emily cemetery.

BUILDING NOTES.—Mr. John Beatty is erecting a dwelling for himself and family. Mr. G. Morrison is building a dwelling and store. Joe Parsons has his dwelling ready for the brick; when completed it will be an ornament to the town. W. Curry is making great preparations for building a dwelling. He built according to plans it will be the hand-built dwelling in the county—the bird nest William. Mr. Skuce is slowly, but surely, erecting a new dwelling for himself in the west ward.

The Opera House Assessment.

To the Editor of The Warder. Sir,—Allow me space in your valuable columns to explain to the ratepayers of Lindsay and the public in general in regard to my actions on the assessment of the opera house, and the motive by which I was actuated in bringing the matter before his Hon. Judge Dean.

First—I consider the opera house was built for a money speculation.

Second—That instead of our working men in the town being employed they let the work to Peterboro men who brought in strange labor and thus debared our men from getting one day's work, architects included.

Third—That the opera house company applied to the council for exemption from taxes. The council had no power to do this. They tried to hire it to me many nights at a rental. I opposed that also, hence it fell to the ground.

Fourth—That the council of revision was mostly composed of members that were elected on the issue to support the opera house exemption. I contended in the council and now that the court of revision should be composed of the assessors, the Reeve, and one councillor from each ward. That is in my opinion the honest court of revision.

Fifth—I then appealed against the court of revision reducing the assessment \$4000 from what the assessors, who stated on oath that they had only assessed it for 70 per cent of its value.

Sixth—I claim as a member of the council and a large ratepayer, in defence of the honest and relating my oath to the people if I would not appeal the case from any man no matter how they might try and cover over their tracks on the cry that the company built it solely for the benefit and to fill a great want for the people.

Seventh—How many men built dwellings, stores, etc., for speculation purposes, which failed to pay them a fair dividend the first year, but did the court of revision throw off the taxes? Not one cent, nor can you show me where the opera house benefits the public, or where the actions performed within its walls were profitable, either financially or morally? are those that I would be acting a traitor ratepayer, in defence of the honest and relating my oath to the people if I would not appeal the case from any man no matter how they might try and cover over their tracks on the cry that the company built it solely for the benefit and to fill a great want for the people.

Eighth—One of the stockholders swore yesterday that he would take 90 cents on the \$1. I can find you a respectable man who heard him say in his own house he would give 75 cents on the \$1 if he could not get it less. Yours truly, A. D. MALLON. July 25th, 1893.

HEAD LAKE.

Special to The Warder. We are pleased to have the assistance of our new pastor, the Rev. Mr. Rogers in our endeavor work.

Crops are looking very good around here, farmers have a good smile on their faces, the hay looks very busy. It's an extra good crop.

The L. O. L. No 1283 of this place went to Kinmount to celebrate the 30th anniversary of the Battle of the Boyne, where they were one of the largest celebrations ever known in the north.

Mr. T. Bailey and Miss E. Bailey with their friend Miss Scott are visiting here for a short time. We are sorry to say that Mr. A. Southern is under the doctor's care at present.

SONYA.

Special to The Warder. The farmers in this section are all through haying and are now busy cutting and drawing in their alkali, which tends to be a good crop. Mr. Wm. Bell had a narrow escape which might have been a serious accident. He was unloading hay, and in pulling back the fork the trip rope broke. This caused him to fall from the top of the load to the barn floor, spraining his wrist. He has been laid up since. We hope he will soon have the use of it again.

The Sonya people are about purchasing a new organ for the church. There are two placed in for trial. Another one is to be placed in shortly. A new organ is badly needed as it will be a great help to our splendid choir.

Hooc Brothers are doing a good business here. They have sold a large quantity of binder twine. They intend staying here if business continues good. This would be a good place for a siding at our station, as there is a large quantity of grain drawn from this section which would keep a good store well filled. Talk the matter over readers of THE WARDER.

[Could not the farmers and business people of Sonya interview Mr. Harry Ferguson of the division? The Warder will gladly assist in helping Sonya to get a siding, but it should be near the top of the grade, or else open only from the northern end. Ed. WARDER.]

MARRIAGES.

MCCULLOUGH-SILVERWOOD.—At the residence of the bride's father, Oakwood, on Tuesday, July 25th, Rev. G. McCulloch to Jennie, daughter of Mr. W. A. Silverwood.

SPRUE-HICKSON.—At the Queen street methodist parsonage, Lindsay, on Thursday, July 20th, 1893, by the Rev. Newton Hill, Mr. James Spier, of Lindsay, to Miss Charlotte Clark Hickson, fourth daughter of the late Mr. Wm. Hickson, of Ops.

Loer in Lindsay this week a black cocker spaniel dog. Finder rewarded on leaving it at WARDER'S OFFICE.

WILL IT BE WAR?

France and Siam are likely to begin a war which will probably involve Great Britain and China. The cause is, some trouble arose between the French who own Annam or Annam, and the Siamese. The Siamese offered ample amends but their offers were refused.

The French Cabinet influenced by the mob of Paris made further extravagant and humiliating demands, which were not accepted by Siam. The result is a probable war involving England and China with Siam against France.

Siam is chiefly known to Canadians from the famous Siamese twins of Barnum menagerie fame; but to England its trade is of vast importance. The Cambodia or Mekong, and the Meinam rivers traverse the country. The French seem looking for an excuse to extend their frontier to the Mekong river.

Various causes are assigned for France's action; but the chief one lies in the fact that owing to jesuit and royalist intrigue city dissensions are again seriously threatened in that land. There is a strong desire to overthrow the republic, and the game is played to indulge in a war. Both parties encourage it in France, the republicans openly, that the internal ulcers may be hidden in foreign wars and the nation be united; the royalists and jesuits secretly, that the republic may be humiliated and some aristocrat again set up to govern the country.

The incident merely teaches people never to pander to a mob, but to constantly stand calmly to reason, and to eternally educate a people to think.

Before these words are read there may be troublesome times away in Siamese waters; may be along the English channel.

SUNDAY STREET CARS IN TORONTO.

The Ontario public outside of Toronto, are wearied at the amount of twaddle in the daily journals of that city over the question of Sunday street cars, the voting on, which comes up on August 26th. It is more tiresome than the long reports of conferences, synods, professional prize fights, and lynchings, which periodically fill the columns of those journals. How-
